

LOOKING-GLASS SELF

The looking-glass self is a concept in social psychology that suggests people develop their sense of self based on how they believe others perceive and evaluate them.

DEFINITION

The looking-glass self is a concept developed by American sociologist Charles Horton Cooley which states that individuals form their view of themselves based on how they believe they appear to others.

Essentially, it suggests that to understand ourselves, we must first attempt to understand how other people see us and use this knowledge to shape our own identities

EXAMPLE

Appearing more confident in an interview due to the approving looks from the panel of interviewers:

In this example, an individual may think they performed poorly during the job interview, but upon receiving approving looks from their interviewers, they may gain a better opinion of their own performance.

Looking On Glass:

Blindness Through the Looking Glass Gili Hammer, 2019-10-03 Modern Western culture is saturated with images imprinting visual standards of concepts such as beauty and femininity onto our collective consciousness. *Blindness Through the Looking Glass* examines how gender and femininity are performed and experienced in everyday life by women who do not rely on sight as their dominant mode of perception, identifying the multiple senses involved in the formation of gender identity within social interactions. Challenging visuality as the dominant mode to understand gender, social performance and visual culture, the book offers an ethnographic investigation of blindness and sight as a human condition, putting both blindness and vision on display by discussing people's auditory, tactile and olfactory experiences as well as vision and sight, and by exploring ways that individuals perform blindness and sightedness in their everyday lives. Based on in-depth interviews with 40 blind women in Israel and anthropological fieldwork, the book investigates the social construction and daily experience of blindness in a range of domains. Uniquely, the book brings together blind symbolism with the everyday experiences of blind and sighted individuals, joining in mutual conversation the fields of disability studies, visual culture, anthropology of the senses and gender studies.

What's Behind the Looking Glass? Eric Shepherd, 2014-12-26 Most people wish they could get a second chance in life. A do-over and correct those mistakes that now lay hidden or buried in their closet. They wish they could hide all those painful memories and lock them all away into a box. Buried them so deep, hoping they never resurface rather than too face them at all. EJ Stuart is just such a person, yet his memories are not the same, nor are the hardships of abuse caused by a broken home the same as another man's down the street. His nightmares are worlds apart from any man has ever faced. He dreams of darkness, everlasting darkness so evil that it can tear a man's mind apart. Death to some is only a beginning to something else, but what if it was designed to change the outcome entirely, yes a redo. But what of the cost, and are you willing to pay for it, even if it is your very soul is at stake? EJ Stuart as man now a statues quo in this world is given the opportunity. But first he must choose to as he sits one last time on porch alone, waging war with his darkest thoughts. That brought him to this stage of life, which hunts his dreams and has now entered his waking state. Which will he chose, Death or a chance to change his destiny forever, knowing his very soul is at stake. Knowing he could never come back. Knowing his life could be changed forever and others around him. For this choice is a gift which can only be obtained. Behind the Looking Glass. Where worlds such as Nightmares, Monsters and Fairytales are real, and some are seeking his very soul, others are asking for help, his help to save his and their world from the grasp of evil. Choose well.

Victorian Literature in the Looking Glass of Psychology Melinda Gorgan, 24-11-08 Victorian Literature in the Looking Glass of Psychology is an interdisciplinary study that observes the changes in literary character construction throughout the Victorian Age. Pursuing the epistemologically altered character construction over the years from the beginning to the end of the Victorian era, the book covers a range of titles that demonstrate that the progress of psychology was responsible for the way the workings of

the mind were understood It addresses the changes that characters underwent in the fifty years passing from Jane Eyre to Dracula The influence of psychology on literature is tracked step by step through the Victorian age starting with Charlotte Brontë's Bildungsroman and Dickens's realism and ending with the inward turn the focus on the psychological mechanisms of the individual in Henry James Robert Louis Stevenson Oscar Wilde and Bram Stoker For scholars interested in an up to date critical approach to Victorian literature focusing on interdisciplinarity discourse negotiations and psychosynthetic literary analysis the book will be a valuable reference source Death Through the Looking Glass Richard Forrest,2016-08-16

infamous poem Jabberwocky this is the unabridged version of Lewis Carroll's sequel to Alice's Adventures in Wonderland. It was first published in the UK in 1871.

The Female Body in the Looking-Glass Basia Sliwinska, 2016-06-29. In his theory of the mirror stage, the psychoanalyst and psychiatrist Jacques Lacan argued that the female body is defined by its lack of male attributes. Within this framework, he described female sexuality primarily as an absence and assumed female subordination to the male gaze. However, what happens if one follows Jean Baudrillard's advice to swallow the mirror and go through the looking glass to explore the reflections and realities that we encounter in the cultural mirror, which reflects the culture in question, its norms, ideals, and values? What if the beautiful is inverted and becomes ugly, and the ugly is considered beautiful, or shape shifts into something conventionally thought of as beautiful? These are the fundamental questions that Basia Sliwinska poses in this important new enquiry into gender identity and the politics of vision in contemporary women's art. Through an innovative discussion of the mirror as a metaphor, Sliwinska reveals how the post-1989 practices of women artists from both sides of the former Iron Curtain, such as Joanna Rajkowska, Marina Abramovic, Boryana Rossa, Natalia LL, and Anetta Mona Chisa, and Lucia Tkacova, go beyond gender binaries and instead embrace otherness and difference by playing with visual tropes of femininity. Their provocative works offer alternative representations of the female body to those seen in the cultural mirror. Their art challenges and deconstructs patriarchal representations of the social and cultural other associated with visual tropes of femininity, such as Alice in Wonderland, Venus, and Medusa.

The Female Body in the Looking Glass makes a refreshing radical intervention into art theory and cultural studies by offering new theoretical concepts, such as the mirror and genderland, inspired by Alice's adventures in Wonderland, as critical tools with which we can analyse and explain recent developments in women's art.
