Utilizing an approach comparing film editing to medicine, working editor and professor John Rosenberg offers a software agnostic guide to best editing practices, offering solutions to everything from story and script inconsistencies to genre specific structural issues. Accessibly written and brought fully up to date to embrace the predominance of file based digital production, this second edition offers new insights into ultra high resolution footage, transitions, visual effects, collaboration, sound, and music editing, as well as highlighting historic advances in the art form. *The Literary American*, George Payn Quackenbos, 1849
