*Low-Intensity Conflict in the Third World* Lewis Ware, 2012-08-02 The study of low intensity conflict LIC has been beset by problems of definition This manuscript represents five studies by members of the Political Military Affairs Division of the Air Force Each study views the persistence with the bilateral relationship between the U S and the Soviet Union These studies analyze LIC environments in Central Asia the Middle East Southeast Asia Latin America and sub Saharan Africa For each region history politics economics and ideological currents are emphasized so as to illustrate best the wide variety of LIC phenomena that affect the societies under scrutiny A final study puts into the perspective of a long term strategy the implications each contribution draws for U S policies Air University Press United States Air Force War Against the Poor Jack Nelson-Pallmeyer, 2017-01-09 The strategy of low intensity conflict or LIC is a little known yet sophisticated and deadly form of U S intervention in the Third World Drawing heavily on his own experience of living and working in Central America Nelson Pallmeyer shows how LIC victimizes the poor through various techniques disinformation manipulation of elections economic exploitation even as with the contras in Nicaragua outright terrorism Low intensity conflict does more than disable the poor It also threatens U S democracy and undermines Christian faith By integrating economic psychological diplomatic and military aspects of war into a unified package designed to manage or block social change in the Third World U S special interests use LIC to protect their elite positions and profits So cynical in outline and so damaging in practice Nelson Pallmeyer argues LIC presents Christians in the United States with a situation similar to that faced by the Confessing Churches in Nazi Germany United States-Third World Relations in the New World Order Abbas P.
