Lucien Levy Bruhl:

Revival: How Natives Think (1926) Lucien Lévy-Bruhl, 2018-12-20
Levy Bruhl speculates about what he posited as the two basic mind sets of mankind primitive and Western. The primitive mind does not differentiate the supernatural from reality but rather uses mystical participation to manipulate the world. Moreover, the primitive mind doesn't address contradictions. The Western mind by contrast uses speculation and logic. *How Natives Think* IS an accurate and valuable contribution to anthropology. *Lucien Lévy-Bruhl ... Translated by Peter Rivière* Jean Cazeneuve, 1972 [Revival: Primitive Mentality \(1923\)](#) Lucien Levy-Bruhl, 2018-01-17
The primitive mind does not differentiate the supernatural from reality but rather uses mystical participation to manipulate the world. According to Bruhl, moreover, the primitive mind doesn't address contradictions. The modern mind by contrast uses reflection and logic. Bruhl believed in a historical and evolutionary teleology leading from the primitive mind to the modern mind. **Revival: Primitives and the Supernatural (1936)** Lucien Lévy-Bruhl, 2019-01-25
Dr Levy Bruhl presents a dramatic picture of the primitives who live in a world that is capricious, unpredictable and unstable under the power of spirits both good and evil to be worshipped or propitiated by ceremonies, dances and religious rites. Dr Levy Bruhl shows how the mind of the primitive has no conception of the world of abstract thought, natural law, causation and categories which has been opened up to the mind by science and philosophy. In addition, the author explains omens, talismans, amulets, ancestor worship, witchcraft, insect defilement and purification as fundamental parts of the primitive existence. **Les Carnets de Lucien Lévy-Bruhl** Lucien Lévy-Bruhl, 1949 [How Natives Think, by Lucien Levy-Bruhl](#) Lucien Lévy-Bruhl, 1966 **Primitives and the Supernatural** Lucien Lévy-Bruhl, 1973 **Les Carnets of Lucien Levy-Bruhl: a Discussion of the Importance of that Work in the Light of His Other Books** Howard J. Sosis, 1966 [The Philosophy of Auguste Comte](#) Lucien Lévy-Bruhl, 2024-11-23
M L vy Bruhl then explains that whilst recognising the entire coherence of Comte's collective labours, he proposes to confine his present study to the earlier and principal work, the Philosophy which in M L vy Bruhl's opinion is the dominant and more fruitful composition. This he regards as the representative work of the nineteenth century as shown by the intellectual history of the period. He points to its influence on thought in England, in Europe and in America. It will surprise many persons to learn that in M L vy Bruhl's opinion, two eminent French writers who assuredly neither were nor were supposed to be Positivists have done more for the diffusion of the ideas and method of Comte than Littré and all the other Positivists together. These two are Taine and Renan, much as they differed from Comte's actual scheme and doctrines. Renan indeed spoke of Comte as destined to prove one of the typical names of the century. The present writer remembers Renan saying to him with a most genial welcome, 'I too am a believer in the religion of humanity.' Professor L vy Bruhl followed up his *History of Modern Philosophy in France* by a substantial work on the philosophy of Auguste Comte. It forms a volume of the *Bibliothèque de Philosophie Contemporaine* which has already devoted four other works to the Positive Philosophy. It is as well to premise that this treatise dealt solely

with the philosophy not with the polity or any part of the religious scheme of Comte Professor L vy Bruhl writes as a student but not as an adherent of Auguste Comte His entire work is rather an exposition not a refutation or a criticism or an advocacy of Comtes philosophical system But it may be said at once that no one abroad or at home certainly neither Mill nor Lewes nor Spencer nor Caird has so truly grasped and assimilated Comtes ideas as M L vy Bruhl has done In his Introduction M L vy Bruhl very clearly states the scope of his work and his own general attitude He traces the origin of Comtes philosophy in the mental effervescence of the first generation of the present century towards a reorganisation of society after the upheaval left by the Revolution and its consequences He correctly states the relation of St Simon to Comte as being that of an initial stimulus The cardinal difference between Comte and all the socialists and founders of social and religious Utopias consisted in this that Comte saw the necessity of a new system of philosophy as the indispensable preliminary to any reorganisation of society

, **Writing the History of the Mind** Cristina Chimisso, 2016-02-11 For much of the twentieth century French intellectual life was dominated by theoreticians and historians of mentalité Traditionally the study of the mind and of its limits and capabilities was the domain of philosophy however in the first decades of the twentieth century practitioners of the emergent human and social sciences were increasingly competing with philosophers in this field ethnologists sociologists psychologists and historians of science were all claiming to study how people think Scholars including Gaston Bachelard Georges Canguilhem L. von Brunschvicg Lucien Lévy-Bruhl Lucien Febvre Abel Rey Alexandre Koyré and Hans Reichenbach were all investigating the mind historically and participating in shared research projects Yet as they have since been appropriated by the different disciplines literature on their findings has so far failed to recognise the connections between their research and their importance in intellectual history In this exemplary book Cristina Chimisso reconstructs the world of these intellectuals and the key debates in the philosophy of mind particularly between those who studied specific mentalities by employing prevalently historical and philological methods and those who thought it possible to write a history of the mind outlining the evolution of ways of thinking that had produced the modern mentality Dr Chimisso situates the key French scholars in their historical context and shows how their ideas and agendas were indissolubly linked with their social and institutional positions such as their political and religious allegiances their status in academia and their familial situation The author employs a vast range of original research using philosophical and scientific texts as well as archive documents correspondence and seminar minutes from the period covered to recreate the milieu in which these relatively neglected scholars made advances in the history of philosophy and science and produced *Irony of Theology and the Nature of Religious Thought* Donald Wiebe, 1991 Donald Wiebe critically examines the pervasive assumption that theology is a form of religious thought that is both compatible with and supportive of religious faith The irony he argues is that theology is in fact detrimental to religion and the religious way of life *The New Yearbook for Phenomenology and Phenomenological*
