Desperados, Crooks, Criminals, and Bandits Erin H. Turner,2016-06-03 This collection of fifty outlaw tales includes well knowns such as Butch Cassidy and the Sundance Kid Frank and Jesse James Belle Starr and her dad and Pancho Villa along with a fair smattering of women organized crime bosses smugglers and of course the usual suspects highwaymen bank and train robbers cattle rustlers snake oil salesmen and horse thieves Men like Henry Brown and Burt Alvord worked on both sides of the law either at different times of their lives or simultaneously Clever shyster Soapy Smith and murderer Martin Couk survived by their wits while the outlaw careers of the dimwitted DeAutremont brothers and bigmouthed Diamondfield Jack were severely limited by their intellect or lack thereof Nearly everyone in these pages was motivated by greed revenge or a lethal mixture of the two The most bloodthirsty of the bunch such as the heartless and some might argue soulless Annie Cook and trigger happy Augustine Chac n surely had evil written into their very DNA *Genealogical and Family History of Southern New York and the Hudson River Valley* Cuyler Reynolds,1914 *The Constellational Novel* Louis Klee,2025-08-05

A constellational novel is a novel that has an associative essayistic digressive and densely patterned prose form The Constellational Novel aims to shed light on the field of contemporary literature by offering a definitive theory of the constellational novel These novels are recognizable by the presence of a first person narrator committed to drawing affinities and making connections among disparate things Beginning with Marcel Proust Klee s argument focuses on novels published over roughly the last two decades between 2001 and 2020 by writers such as W G Sebald Lisa Robertson Teju Cole Jacqueline Rose and Olga Tokarczuk Strikingly it is often assumed that the attunement of their narrators to an unfolding web of potential interconnections holds an ethical promise of new ways of relating to oneself others and the world Klee considers this implication of ethics and associative form to be peculiar and in some important respects unprecedented in the history of the novel How is recognizing connections between things ethical exactly Could it not simply be the working of a resourceful or possibly even deranged intelligence one that obsessively sees patterns everywhere Why should the value of literature hinge on such an idiosyncratic process And what does finding affinities have to do with the more familiar categories of novelistic form like character and narrative Taking inspiration from the work of Walter Benjamin this book analyzes the distinctive ethics of affinity offered by these novels and thus seeks to clarify one of the most intriguing and consequential developments in the contemporary novel **Dead or Alive!** Maria Fabricius Hansen,Gundhild Ravn Borggreen,Rosanna TindbAek,2020-02-18 The image is an ontological paradox it is made of dead matter yet appears to be alive For millennia artists have created images of the living world images that are static and yet possess the power to bring to life a frozen moment in time While this tension has constituted a fundamental challenge for as long as theories on the nature of images

have existed recent scholarship has rekindled interest in the question of what images do to us Despite the rational discourse of Modernity we must acknowledge that we view images as half living entities This book addresses the perpetual relevance of images enigmatic life likeness through studies that engage with a variety of visual material by asking the same question what qualifies animation Covering a wide range of image practices such as early paleolithic stone engravings medieval tomb sculpture renaissance death masks and baroque painting to modern fashion park design early cinema and BioArt the twelve chapters written by scholars of art history and visual culture demonstrate that the ontological paradox of the image is not limited to a specific historical period or certain types of images but can be seen throughout the history of images across different cultures
