**Feminism and the Politics of Literary Reputation** Charlotte Templin,1995 Soon after its publication in 1973 Fear of Flying brought Erica Jong immense popular success and media fame Alternately pegged sassy and vulgar Jong s novel embraced the politics of the women s liberation movement and challenged the definition of female sexuality Yet today more than twenty years and several books later literary reputation continues for the most part to elude Jong Typecast by her adversaries as a media seeking sensationalist Erica Jong has been unfairly side stepped by academia Charlotte Templin contends In this carefully researched study augmented by personal interviews with Jong Templin assembles and analyzes the medley of responses to Jong s books by reviewers critics writers academics and the media by liberals conservatives and feminists She examines the diverse opinions on the merit and relevance to contemporary life of Fear of Flying the invocation of a high culture low culture dichotomy to discredit How to Save Your Own Life the anatomy of literary success with Fanny Jong s reception in a postfeminist age and the trivialization of Jong s works that is inevitable with mass media exposure Templin also shows how antagonistic reviewers tend to identify Jong with her fictitious characters a

practice more common when the author is a woman and judge her to be guilty of the sin of not being a proper woman In turn she shows how reviewers reveal something of their own values and ideological biases in their critiques and how literary reputations are built destroyed and altered over time The first book to make a detailed examination of the reputation of a woman writer *Feminism and the Politics of Literary Reputation* provides an excellent case study for the literary reception of women writers within a broad cultural context Templin s analysis offers valuable insight into the reception of women writers especially commercially successful women writers and dramatically illustrates the relation of literary reputation to popular appeal and cultural mores

**The Reformation of Machismo** Elizabeth E. Brusco,2011-05-18 Protestant evangelicalism has spread rapidly in Latin America at the same time that foreign corporations have taken hold of economies there These concurrent developments have led some observers to view this religious movement as a means of melding converts into a disciplined work force for foreign capitalists rather than as a reflection of conscious individual choices made for a variety of personal as well as economic reasons In this pioneering study Elizabeth Brusco challenges such assumptions and explores the intra household motivations for evangelical conversion in Colombia She shows how the asceticism required of evangelicals no drinking smoking or extramarital sexual relations are allowed redirects male income back into the household thereby raising the living standard of women and children This benefit helps explain the appeal of evangelicalism for women and questions the traditional assumption that organized religion always disadvantages women Brusco also demonstrates how evangelicalism appeals to men by offering an alternative to the more dysfunctional aspects of machismo Case studies add a fascinating human dimension to her findings With the challenges this book poses to conventional wisdom about economic gender and religious behavior it will be important reading for a wide audience in anthropology women s studies economics and religion For all students of Latin America it offers thoughtful new perspectives on a major grass roots agent of social change **Towards a**
