**Wright and Ditson's Lawn Tennis Guide**, 1909      *Playing Games in Nineteenth-Century Britain and America* Ann R. Hawkins, Erin N. Bistline, Catherine S. Blackwell, Maura Ives, 2021-11-01 A vital part of daily life in the nineteenth century games and play were so familiar and so ubiquitous that their presence over time became almost invisible Technological advances during the century allowed for easier manufacturing and distribution of board games and books about games and the changing economic conditions created a larger market for them as well as more time in which to play them These changing conditions not only made games more profitable but they also increased the influence of games on many facets of culture *Playing Games in Nineteenth Century Britain and America* focuses on the material and visual culture of both American and British games examining how cultures of play intersect with evolving gender norms economic structures scientific discourses social movements and nationalist sentiments      *American Lawn Tennis*, 1908      **Anetso, the Cherokee Ball Game** Michael J. Zogry, 2010 This is a careful and innovative consideration of a remarkable and enduring Native American ritual Zogry reflects deeply critically and sensibly on an amazing array of issues of theoretical interest to the study of religion culture game ritual secrecy colonial contact and even the impact of tourism on culture An important and informative work SAM D GILL University of Colorado at Boulder Zogry presents a very well researched ethically grounded and theoretically informed study of Anetso the Cherokee ball game which will instruct students of Native American religions Cherokee traditions and history and the anthropology of sport A valuable book that is based on impressive archival and ethnographic work Michael d McNally Carleton College Anetso a centuries old Cherokee ball game still played today is a vigorous sometimes violent activity that rewards speed strength and agility At the same time it is the focus of several linked ritual activities Is it a sport Is it a religious ritual Could it possibly be both Why has it lasted so long surviving through centuries of upheaval and change Based on his work in the field and in the archives Michael J Zogry argues that members of the Eastern Band of Cherokee Nation continue to perform selected aspects of their cultural identity by engaging in anetso itself the hub of an extended ceremonial complex or cycle Historically this complex has featured virtually every activity that Cherokee people and non Cherokee observers have identified as elemental to Cherokee religion or ritual However interpreted as game within a broader framing of religion anetso simultaneously resists and problematizes such classifications A precursor to lacrosse anetso appears in all manner of Cherokee cultural narratives and has figured prominently in the written accounts of non Cherokee observers for almost three hundred years The anetso ceremonial complex incorporates a variety of activities that taken together complicate standard scholarly distinctions such as game versus ritual public display versus private performance and tradition versus innovation Thus examination of this Cherokee ball game and the ceremonial complex that it anchors provides a striking opportunity for a rethinking of the understanding of ritual and performance as well as their relationship to cultural identity Zogry draws on extensive cultural consultation with members of the Cherokee

community in western North Carolina undertaken with the approval of the Eastern Band of Cherokee Nation Tribal Council as well as thorough archival research to offer a sharp reappraisal of scholarly discourse on the Cherokee religious system with particular focus on the Eastern Band of Cherokee Nation
