

The background of the book cover is a detailed photograph of a large green lizard, possibly a spiny-tailed lizard, with its mouth wide open, showing a pink interior. A smaller, brownish-grey lizard is perched on the bridge of the larger lizard's snout. The background is a soft, out-of-focus green and yellow.

for Young Adults Martha Seif Simpson,2015-11-16 School and public libraries often provide programs and activities for children in preschool through the sixth grade but there is little available to young adults For them libraries become a place for work the place to research an assignment or find a book for a report but the thought of the library as a place for enjoyment is lost So how do librarians recapture the interest of teenagers This just might be the answer Here you will find theme based units such as Cartoon Cavalcade Log On at the Library Go in Style Cruising the Mall Space Shots Teens on TV and 44 others that are designed for young adults Each includes a display idea suggestions for local sponsorship of prizes a program game to encourage participation 10 theme related activities curriculum tie in activities sample questions for use in trivia games or scavenger hunts ideas for activity sheets a bibliography of related works and a list of theme related films The units are highly flexible allowing any public or school library to adapt them to their particular needs      **Animals Divine Companion** Lisa Hunt,2005      **The Macmillan Encyclopedia of Australian Plants and Animals** Kimberley Jane Pryor,2005 This book presents 360 common species Each page looks at one plant or animal and provides simple information about where they are found their appearance features and life cycle      **The Macmillan Encyclopedia of Australian Plants and Animals** Kimberley Jane Pryor,2005      **Critical Animal and Media Studies** Núria Almiron,Matthew Cole,Carrie P. Freeman,2015-10-14 This book aims to put the speciesism debate and the treatment of non human animals on the agenda of critical media studies and to put media studies on the agenda of animal ethics researchers Contributors examine the convergence of media and animal ethics from theoretical philosophical discursive social constructionist and political economic perspectives The book is divided into three sections foundations representation and responsibility outlining the different disciplinary approaches application to media studies and covering how non human animals and the relationship between humans and non humans are represented by the mass media concluding with suggestions for how the media as a major producer of cultural norms and values related to non human animals and how we treat them might improve such representations      **Animals, Ethics, and Language** Rebekah Humphreys,2023-06-20 With an ever growing body of evidence on the links between different oppressions never have the debates in Critical Animal Studies surrounding intersectionality in relation to animal ethics been more important In particular the arguments related to anthropomorphic attributes of mentality to other than humans promise to provide fruitful new ground for re assessing human animal relations This book maps the central debates surrounding anthropomorphism in relation to our descriptions of animals their lives animal mentality and meaningful communication in the nonhuman world Rebekah Humphreys synthesizes the work of critical animal theorists philosophers and cognitive ethologists and provides a critical account of how the debates concerning anthropomorphism play a key role in a proper understanding of animal ethics      **Animal Mind — Human Mind** D. R. Griffin,2012-12-06 the oleic acid on a live and wriggling sister or mother and refrain from evicting her from our hive But does the occurrence of unintelligent behavior suffice to demonstrate the total absence of mental experience under any

circumstances Ethologists from some distant galaxy could easily discern examples of stupid and maladaptive behavior in our own species But do instances of human stupidity prove that none of us is ever consciously aware of what he is doing No available evidence compels us to believe that insects or any other animals experience any sort of consciousness or intentionally plan any of their behavior But neither are we compelled to believe the contrary In areas where data are few and of limited relevance dogmatic negativity can easily limit what scientists even try to investigate and thus perhaps delay or prevent important insights and discoveries Many of the participants agreed that a good starting point would be to consider what we know of our own thinking subjective feelings and consciousness and then move on to inquire whether other species experience anything similar Such an approach was once considered fallaciously anthropomorphic But it seems now to be widely if not universally recognized that this is a serious objection only if one has already assumed in advance that conscious thinking is uniquely human and the accusation of anthropomorphism is then merely a reiteration of the prior conviction

**Animals and Ethics 101** Nathan Nobis ,2016-10-11 Animals and Ethics 101 helps readers identify and evaluate the arguments for and against various uses of animals such Is it morally wrong to experiment on animals Why or why not Is it morally permissible to eat meat Why or why not Are we morally obligated to provide pets with veterinary care and if so how much Why or why not And other challenging issues and questions Developed as a companion volume to an online Animals Ethics course it is ideal for classroom use discussion groups or self study The book presupposes no conclusions on these controversial moral questions about the treatment of animals and argues for none either Its goal is to help the reader better engage the issues and arguments on all sides with greater clarity understanding and argumentative rigor Includes a bonus chapter Abortion and Animal Rights Does Either Topic Lead to the Other
