Rabinow, 2014-10-09 This beautifully illustrated volume tells the story of Cubism through twenty two essays that explore the most significant private holding of Cubist art in the world today the Leonard A Lauder Collection now a promised gift to The Metropolitan Museum of Art The eighty works featured in this volume by Georges Braque Juan Gris Fernand L ger and Pablo Picasso are among the most important and visually arresting in the movement s history These masterpieces critical to the development of Cubism include such groundbreaking paintings as Braque s Trees at L Estaque considered one of the very first Cubist pictures Picasso s Still Life with Fan L Ind pendant one of the first to introduce typography Gris s noirish uncanny The Man at the Caf one of his most celebrated collages and L ger s uniquely ambitious Composition The Typographer Written by renowned experts on this subject the essays trace the evolution of Cubism from its origins in the still lifes portraits and collages of Braque and Picasso through the precisely delineated compositions by Gris that prefigure the Synthetic Cubism of the war years to L ger s distinctive intersections of spherical cylindrical and cubic forms that evoke the syncopated rhythms of modern life Also included are a fascinating interview in which Leonard Lauder discusses his approach to collecting an investigative essay on the information gleaned from the backs of the works themselves and an authoritative catalogue that further establishes the lives of these magnificent objects A publication to place alongside the great histories of Modernism this comprehensive book will stand as the resource for understanding Cubism for many years to come *Collecting as Modernist Practice* Jeremy Braddock, 2012-01-18 In this highly original study Jeremy Braddock focuses on collective forms of modernist expression the art collection the anthology and the archive and their importance in the development of institutional and artistic culture in the United States Using extensive archival research Braddock s study synthetically examines the overlooked practices of major American art collectors and literary editors Albert Barnes Alain Locke Duncan Phillips Alfred Kreymborg Amy Lowell Ezra Pound Katherine Dreier and Carl Van Vechten He reveals the way collections were devised as both models for modernism s future institutionalization and culturally productive objects and aesthetic forms in themselves Rather than anchoring his study in the familiar figures of the individual poet artist and work Braddock gives us an entirely new account of how modernism was made one centered on the figure of the collector and the practice of collecting *Collecting as Modernist Practice* demonstrates that modernism s cultural identity was secured not so much through the selection of a canon of significant works as by the development of new practices that shaped the social meaning of art Braddock has us revisit the contested terrain of modernist culture prior to the dominance of institutions such as the Museum of Modern Art and the university curriculum so that we might consider modernisms that could have been Offering the most systematic review to date of the Barnes Foundation an intellectual genealogy and analysis of The New Negro anthology and studies of a wide range of hitherto ignored anthologies and archives

Braddock convincingly shows how artistic and literary collections helped define the modernist movement in the United States
