Interpreting Site Genevieve Baudoin, 2015-04-17 Interpreting Site explains the basic methods architects use to translate what you perceive to represent the complex conditions that physically and mentally construe a site helping to shape the ultimate design Within each of the four themes defining site experiencing site spatializing site and systematizing site theoretical conceptual and analytic methods and representational tools are introduced to give you a foundation to develop your own approach to the conditions of a site Author Genevieve S Baudoin examines longstanding representation methods in relation to emerging and experimental methods offering an idiosyncratic and provocative look at different approaches Four highly illustrated full colour case studies of key contemporary projects in Spain the United States the United Kingdom and Norway demonstrate how architects have used conditions discovered on a site in their final design **Behaviorology** Atorie Wan, 2010 Achieving near cult status among architectural students around the world Yoshiharu Tsukamoto and Momoyo Kaijima of Atelier Bow Wow have built a career confronting the challenges posed by dense urban environments

(IN)formal L.A. Victor J. Jones, 2014-01-01 Often portrayed as a confluence of cars and movies this book traces another course to uncover Los Angeles primal sources of creation land and opportunity Within the endless sprawl there reside flurries of uncoded spatial configurations that no high definition map or satellite image can accurately capture nor present IN formal L A explores a range of unique spatial practices and pedagogies through the lens of politics in Los Angeles While this book articulates growing skepticism in current design discourse and education it also provides a spatial awareness that is culturally rooted socially responsive and vitally connected to the city Composed of essays photos projects and interviews IN formal L A embraces the quirky celebrates the wide and embellishes the close range to expose the complex social organizations within this contemporary urban network IN formal L A serves as both a textbook for classes in art and architecture urban design planning and theory in addition to responding to the increasing interest in the study of Los Angeles by scholars in other fields The book provides an extended overview of the range and variety of urban issues that are critical to understanding present day Los Angeles As hard as it is to wrap the mind around the urban mosh pit known as Los Angeles it is always comforting to think someone has given a knowing push toward deciphering its DNA Victor Jones's compilation of critical essays and native observations does just that Every L A explorer needs a copy in his or her back pocket Craig Hodgetts partner of Hodgetts Fung and professor of architecture University of California Los Angeles What form will the contemporary city with all its fugitive qualities continue to take This book with Los Angeles as the backdrop tackles the question head on adding ideas and dimension that will be relevant to the debates concerning all emerging cities Michael Maltzan principal of MMA and architect of Innercity Arts Los Angeles The studio at the heart of this book and the essays that circle around it show how architectural practice and pedagogy can open up a space of possibility for more democratic and just forms of political life to emerge if we are willing to embrace and build upon their fragile yet persistent reverberations
