

Overview

- Archives usually consist of unique materials, and unlike Libraries, cannot take advantage of standardized organization.
- Archives preserve records of enduring value; these may be organizational or personal records. They are not necessarily old, and may come in different formats.
- Unlike libraries, archival materials are arranged and described in aggregates or groups.

Manual Of Archival Techniques

**United States. National Historical
Publications and Records Commission**

Manual Of Archival Techniques:

A Manual of Archival Techniques Roland M. Baumann, Pennsylvania Historical and Museum Commission, 1979

Developing and Maintaining Practical Archives Gregory S. Hunter, 2020-04-14 Newly revised and updated to more thoroughly address our increasingly digital world including integration of digital records and audiovisual records into each chapter it remains the clearest and most comprehensive guide to the discipline *Draft of a Manual on Archival Descriptive Techniques...* Theodore R. Schellenberg, 1961 *A Guide to Methods and Observation in History* Calvin Olin Davis, 2019-12-17 In *A Guide to Methods and Observation in History* Calvin Olin Davis presents a comprehensive examination of the methodologies employed in historical research and analysis This seminal work delves into the principles of historical inquiry emphasizing the importance of observation critical thinking and the rigorous evaluation of sources Davis employs a clear scholarly style that is both accessible and engaging making complex theories of historiography palatable to students and seasoned historians alike Through rich examples and detailed frameworks he not only elucidates the techniques of history but also places them within a broader literary context that interrogates the nature of historical narrative and the subjectivity of interpretation Calvin Olin Davis a distinguished historian and educator leverages his extensive background in both teaching and archival research to craft this essential guide His lifelong passion for understanding the past shapes his approach as he seeks to illuminate the often overlooked significance of the historian's role in shaping public memory Davis's academic journey marked by a commitment to interdisciplinary study and critical pedagogy informs his exploration of how methodologies can transform our comprehension of historical events This text is highly recommended for both novice and experienced historians seeking to enhance their methodological skills and deepen their understanding of historical observation *A Guide to Methods and Observation in History* serves as an indispensable resource empowering readers to navigate the complexities of historical evidence and interpretation and ultimately fosters a more profound appreciation for the craft of history *Developing and Maintaining Practical Archives* Gregory S. Hunter, 2020-04-14 Since its original publication Hunter's manual has been not only a rich and ready reference tool but also a practical resource for solving problems Catholic Library World and no text has served as a better overview of the field of archives Newly revised and updated to more thoroughly address our increasingly digital world including integration of digital records and audiovisual records into each chapter it remains the clearest and most comprehensive guide to the discipline Former editor of *American Archivist* the journal of the Society of American Archivists SAA Hunter covers such keystone topics as a history of archives including the roles of historical societies and local history collections in libraries new sections on community archives diversity and inclusion conducting a survey and starting an archival program selection appraisal acquisition accessioning and deaccessioning important points of copyright privacy and ethics arrangement of archival collections with a discussion of new theories description including DACS EAD and tools such as ArchivesSpace access reference and outreach with a look at how

recent innovations in finding aids can help researchers preservation including guidance on how to handle rare books maps architectural records and artifacts digital records addressing new and popular methods of storage and preservation of email social media image files webpages Word documents spreadsheets databases and media files disaster planning security and theft prevention metrics assessment establishing employee procedures and policies working with interns and volunteers and other managerial duties public relations and marketing from social media and the Web to advocacy and professional guidelines and codes such as the newly developed SAA Statement of Core Values of Archivists Providing in depth coverage of both theory and practice this manual is essential for archivists at all levels of experience and of all backgrounds

Reauthorize the National Historical Publications and Records Commission United States. Congress. House. Committee on Government Operations. Subcommittee on Government Information and Individual Rights,1981 *Museum Handbook* United States. National Park Service,1984 [Guide to Security Considerations and Practices for Rare Book, Manuscript, and Special Collection Libraries](#) Everett C. Wilkie,2011-09 The Guide to Security Considerations and Practices for Rare Book Manuscript and Special Collection Libraries is the first such book intended specifically to address security in special collection libraries Containing nineteen chapters the book covers such topics as background checks reading room and general building design technical processing characteristics and methods of thieves materials recovery after a theft and security systems While other topics are touched upon the key focus of this volume is on the prevention of theft of rare materials The work is supplemented by several appendices one of which gives brief biographies of recent thieves and another of which publishes Allen s important Blumberg Survey which she undertook after that thief s conviction The text is supported by illustrations a detailed index and an extensive bibliography The work compiled and edited by Everett C Wilkie Jr contains contributions from Anne Marie Lane Jeffrey Marshall Alvan Bregman Margaret Tenney Elaine Shiner Richard W Oram Ann Hartley Susan M Allen and Daniel J Slive all members of the ACRL Rare Books Manuscripts Section RBMS and experts in rare materials and the security of these materials within special collections This work is essential reading for all those concerned with special collection security from general library administrators to rare book librarians c From Amazon com
