Manual Of Clinical Trauma Care The First Hour:

Manual of Clinical Trauma Care Susan Budassi Sheehy, Cindy LeDuc Jimmerson, 1994 MANUAL OF CLINICAL TRAUMA CARE THE FIRST HOUR focuses on improving emergency assessment and intervention for the immediate care of trauma patients which is critical to the patient's survival. This volume is designed to build specialized assessment skills emphasizing physiology and pathophysiology mechanisms of injury and history procurement with information presented in a practical quick reference format. The third edition has been thoroughly updated to include new technologies and current trauma statistics and to focus attention on new issues like shifting hospital systems and community education and prevention. New chapters cover the model trauma system hospital systems of care and interpersonal violence.

Manual of Clinical Trauma Care Susan Budassi Sheehy, 1999 MANUAL OF CLINICAL TRAUMA CARE THE FIRST HOUR focuses on improving emergency assessment and intervention for the immediate care of trauma patients which is critical to the patient's survival. This volume is designed to build specialized assessment skills emphasizing physiology and pathophysiology mechanisms of injury and history procurement with information presented in a practical quick reference format. The third edition has been thoroughly updated to include new technologies and current trauma statistics and to focus attention on new issues like shifting hospital systems and community education and prevention. New chapters cover the model trauma system hospital systems of care and interpersonal violence. Uses the team approach to promote cooperation among physicians, paramedics, nurses, radiology technicians, respiratory therapists, surgeons, and other trauma team members. Gives trauma care providers a broader knowledge of the causes of disease as well as greater understanding of the body in motion. Focuses on the physiology and pathophysiology of injury to encourage critical thinking. Serves as a quick and ready reference for specific trauma care skills such as interosseous infusion and emergency thoracotomy and revises trauma management. Includes numerous tables, boxes, and mnemonic devices to improve retention.

NEW FEATURES Provides a timely new chapter on interpersonal violence that helps emergency personnel confidently and appropriately identify and assess at-risk patients, plan for the patient's safety, provide resources and referrals, and when necessary, begin a legal intervention process. Includes a new chapter that gives an historical overview of the beginning and continual evolution of emergency care. Provides new triage guidelines to help practitioners determine which patients need the most immediate care. Offers a new chapter on hospital systems that clearly explains the difference between trauma centers and specialty trauma centers and dispenses key information on documentation, qualifications, stress management, and quality improvement. Provides an expanded Mechanism of Injury chapter that addresses a wider audience of health care providers, helping those who are not the first responders to know precisely what questions to ask of the initial care team.
