## **Manufacturing Insecurity The Rise And Fall Of Brazils Militaryindustrial Complex:**

**Manufacturing Insecurity** Ken Conca,1997 Examines the domestic and global forces that led to the spectacular decline of what had been the Third World s most successful manufacturer of weapons for international sale *Encyclopedia of the Developing World* Thomas M. Leonard,2013-10-18 A RUSA 2007 Outstanding Reference Title The Encyclopedia of the Developing World is a comprehensive work on the historical and current status of developing countries Containing more than 750 entries the Encyclopedia encompasses primarily the years since 1945 and defines development broadly addressing not only economics but also civil society and social progress Entries cover the most important theories and measurements of development relate historical events movements and concepts to development both internationally and regionally where applicable examine the contributions of the most important persons and organizations and detail the progress made within geographic regions and by individual countries **The Economics of the Global Defence Industry** Keith Hartley,Jean Belin,2019-11-08 This book makes an original contribution to our knowledge of the world s major defence industries Experts from a wide range of different countries from the major economies of North America and Western Europe to developing economies and some unique cases such as China India Singapore South Africa and North Korea describe and analyse the structure conduct and performance of the defence industry in that country Each chapter opens with statistics on a key nation s defence spending its spending on defence R D and on procurement over the period 1980 to 2017 allowing for an analysis of industry changes following the end of the Cold War After the facts of each industry the authors describe and analyse the structure conduct and performance of the industry The analysis of structure includes discussions of entry conditions domestic monopoly oligopoly structures and opportunities for competition The section on conduct analyses price non price competition including private and state funded R D and performance incorporates profitability imports and exports together with spin offs and technical progress The conclusion explores the future prospects for each nation s defence industry Do defence industries have a future What might the future defence firm and industry look like in 50 years time This volume is a vital resource and reference for anyone interested in defence economics industrial economics international relations strategic studies and public procurement **Indigenous Struggle at the Heart of Brazil** Seth Garfield,2001-09-18 How the Xavante Indians have reshaped the Brazilian government s policies of nationalism and assimilation **Greening Brazil** Kathryn Hochstetler,Margaret E. Keck,2007-08-29 Authoritative work on the complex history of modern Brazilian environmental policy and its relation to both transnational politics and domestic democratization processes **Military Industry and Regional Defense Policy** Timothy D. Hoyt,2017-07-05 Military Industry and Regional Defense Policy re examines military industrialization in the developing world focusing on policy making in producer states and the impact of security perceptions on such policy making Timothy D Hoyt reassesses the role of regional state sub systems in international relations and recent historical studies of international technology and arms transfers Looking at Israel Iraq and India the

three most powerful regional powers in the Cold War era he presents an expert analysis of the three sided phenomena of the regional hegemony the regional competitor and the small over achiever This new book breaks away from existing literature on military industries in the developing world which has focused on their economic and development costs and benefits These past studies have used primitive methodologies that focus on the production of complete weapons systems a misleading gauge in a world of growing international defense cooperation They have also ignored empirical evidence of the impact of local military industrial production on Cold War regional conflict and of the defence planning and concerns that drove development of indigenous military industries in key regional powers This new text delivers an incisive new perspective

*Manufacturing Advantage* Lindsay Schakenbach Regele, 2019-02-19 How manufacturing textiles and guns transformed the United States from colonial dependent to military power In 1783 the Revolutionary War drew to a close but America was still threatened by enemies at home and abroad The emerging nation faced tax rebellions Indian warfare and hostilities with France and England Its arsenal a collection of hand me down and beat up firearms was woefully inadequate and its manufacturing sector was weak In an era when armies literally froze in the field military preparedness depended on blankets and jackets the importation of which the British Empire had coordinated for over 200 years Without a ready supply of guns the new nation could not defend itself without its own textiles it was at the economic mercy of the British Domestic industry offered the best solution for true economic and military independence In *Manufacturing Advantage* Lindsay Schakenbach Regele shows how the US government promoted the industrial development of textiles and weapons to defend the country from hostile armies and hostile imports Moving from the late 1700s through the Mexican American War Schakenbach Regele argues that both industries developed as a result of what she calls national security capitalism a mixed enterprise system in which government agents and private producers brokered solutions to the problems of war and international economic disparities War and State Department officials played particularly key roles in the emergence of American industry facilitating arms makers and power loom weavers in the quest to develop industrial resources And this defensive strategy Schakenbach Regele reveals eventually evolved to promote westward expansion as well as America's growing commercial and territorial empire Examining these issues through the lens of geopolitics *Manufacturing Advantage* places the rise of industry in the United States in the context of territorial expansion diplomacy and warfare Ultimately the book reveals the complex link between government intervention and private initiative in a country struggling to create a political economy that balanced military competence with commercial needs

*Silent Partners* Alex Souchen, Matthew S. Wiseman, 2023-09-15 Canada s military industrial complex is deeply embedded in the fabric of the country *Silent Partners* reveals its origins and influence During the Cold War Canada s military industrial and political partnerships developed behind the scenes and without much public scrutiny *Silent Partners* explores Canada s history of leveraging military and defence expenditures to fund domestic industries bolster employment and support science and technology Military and defence spending have affected Canada in myriad ways from demography and geography to political economy and international relations in uneven patterns of prosperity and decline The contributions in this volume explore the environmental impacts of military activities and munitions production the ethical issues of human experimentation and military testing and the economic and political implications of procurement and arms exports *Silent Partners* is an illuminating examination of Canada s military industrial complex from a historical perspective

**Of Fears and Foes** Jose V. Ciprut, 2001-09-30 At the end of the deadliest century known to mankind the world still finds itself mired in bloodshed In addition to formal inter state conflict we see an increase in other forms of organized violence including ethnic warfare terrorism civil conflict and internationally necessitated police actions Cornered by these powerful global forces nation states continue their quest for security Theirs is a search plagued by futility since the very meaning of the word security is being eroded by the pace and tenor of change in an evolving international environment more complex and confusing than ever The explanatory power of traditional notions of

international security which has provided a cornerstone for international relations theory as a whole seems increasingly inadequate in helping to understand the makings of global security A novel approach is needed one that integrates discerning insights from the study of language history geography religion economics and technology with more traditional understandings of the workings of power on an international level and on an intranational scale Of Fears and Foes presents just this kind of innovative thinking by some of the most creative scholars working on these issues today Ciprut invites us to consider a fundamental reassessment of what constitutes security and insecurity in an emerging global environment
