## **Manufacturing The Employee Management Knowledge From The 19th To 21st Centuries:**

**Manufacturing the Employee** Roy Jacques, 1996-02-27 Contemporary thinking about management is still frequently presented as a set of universal eternal verities In this fascinating book Roy Jacques presents a discursive history of industrial work relationships in the United States which powerfully demonstrates that they are not A central concern is to show that current common sense in management forms an historically and culturally specific way of thinking about work and society which is often inappropriate for managing for the twenty first century The author is equally interested in revealing the cultural basis for American management ideas currently exported round the world as an objective science disconnected from its cultural and historical roots

**Management Knowledge and the New Employee** Chris Carter, Damian Hodgson, 2017-11-28 Hodgson and Carter present a volume that contributes to the ongoing debate in Knowledge Management They develop themes explored in Roy Jacques influential text Manufacturing the Employee as a starting point the authors consider the status of contemporary management knowledge They do this from a range of theoretical positions that draw key implications for both research and teaching The volume hosts an array of eminent scholars in the field The collection explores and at times takes issue with the increasing influence of post structuralist thought on our understanding of the nature of management knowledge and draws key implications for both research and teaching The various chapters consider the nature of management knowledge from perspectives as diverse as management history discourse analysis gender post structuralism social construction neo institutionalism and critical realism

**Challenges and Controversies in Management Research** Bill Lee, Catherine Cassell, 2011-01-25 Challenges and Controversies in Management Research explores the history and cultural context current issues and controversies and potential development of research in the field of management The collection of essays is written by scholars of international standing and the chapters address the development of management research in one or another continent the need for global collaboration the current state of management research and the development of the business school setting in which that research takes place Factors affecting management research are explored in detail giving consideration to the relationship between teaching ethical conduct publication quality audits collegiality and research Contributions in the book also explore the development and usefulness of theories in management research and consider the relevance of management research and its applicability for management practice policy makers and the voluntary sector A final section of contributions explores the future challenges for management research including the realization of reflexivity the enduring gender bias of the management field the future of theory the patterns of development of new areas of management research and the need to manage large databases

**Survival Tactics** Ted Sun, 2007-07-30 By any measure the movement

toward entrepreneurship is increasing each year data from the Small Business Administration indicates that there are over 5 million small businesses in operation in the United States And while many resources provide practical information to guide the entrepreneur or small business owner through the challenges of establishing managing and growing their business few tackle the more personal side of entrepreneurship in a rigorous fashion According to a recent Gallup poll seven out of ten high school students report that they want to start and run their own business Every year five million Americans launch their own ventures according to the Small Business Administration By any measure the movement toward entrepreneurship is increasing each year While many resources provide practical information to guide the entrepreneur or small business owner through the challenges of establishing managing and growing their business few tackle the more personal side of entrepreneurship in a rigorous fashion As Ted Sun argues countless people are entering entrepreneurship in one form or another Most have no clue how to be one

**Representing Organization** Simon Lilley, Geoffrey Lightfoot, Paulo Amaral, 2004 This textbook provides an accessible theoretical analysis of the organizational impact of information technologies It seeks to examine and comment upon the myriad ways in which actors organizations and environments are represented through these technologies Contemporary threats to organizational form and stability are considered alongside the potential that information technologies offer to both exacerbate and overcome them It examines amongst others issues surrounding the material and symbolic aspects of information systems risk and prediction systems implementation and systems success knowledge management practices accountability and other management practices computerized modelling and the virtual organization To this end it deploys a number of different theoretical lenses including systems theory social constructivism labour process theory post structuralism actor network theory These offer complementary and contrasting insights into the computerization of managerial work In order to ensure that the book is both relevant and approachable to students from a range of backgrounds these theories are applied to real examples of the development and implementation of information systems This combination fosters practical knowledge that is theoretically informed The book thus aims to bridge the gap between the abstractions of current theories of organization and the grounded material that forms the bulk of Information Systems literature It thus offers a novel way into the ongoing debates surrounding technological change and the perennial problems of managerial control It has been designed to support theoretically informed Information and Technology courses at the advanced undergraduate and postgraduate levels and will also be of interest to academics in the fields of Management Information Technology Sociological and Cultural studies

**The Successful Chinese Family Businesses** Joey Kong Man Ng, 2022-10-03 Well being is a contemporary term used by people around the globe to address how comfortable their lives are The notion is considered significant to business management Nevertheless is well being significant to Chinese family business In response to this inquiry this book demystifies the notion from a critical lens It examines well being in a Chinese family business context of Hong Kong This book consists of an archaeological and

anthropological examination The first part of the analysis draws from Foucault's 1979 *Archaeology of Knowledge* to examine the discursive transformation of well-being The second part is an ethnography that focuses on a Chinese perspective regarding the everydayness of life In light of the recent social movements this book not only offers an insight into the core values of Hong Kongers but also dissects various layers of meaning in these values Hopefully this book can lift up the voices of Hong Kongers who were once marginalised in the discourse of well-being
