Form and Function in the Late Medieval Bible ,2013-05-13 Thirteenth and fourteenth century Latin Bibles survive in hundreds of manuscripts one of the most popular books of the Middle Ages Their innovative layout and organization established the norm for Bibles for centuries to come This volume is the first study of these Bibles as a cohesive group Multi and inter disciplinary analyses in art history liturgy exegesis preaching and manuscript studies reveal the nature and evolution of layout and addenda They follow these Bibles as they were used by monks and friars preachers and merchants By addressing Latin Bibles alongside their French Italian and English counterparts this book challenges the Latin vernacular dichotomy to show links as well as discrepancies between lay and clerical audiences and their books Contributors include

Peter Stallybrass Diane Reilly Paul Saenger Richard Gameson Chiara Ruzzier Giovanna Murano Cornelia Linde Lucie Dolealov Laura Light Eyal Poleg Sabina Magrini Sabrina Corbellini Margriet Hoogvliet Guy Lobrichon Elizabeth Solopova and Matti Peikola **A Material History of the Bible, England 1200-1553** Eyal Poleg, 2020-08-13 This study of hundreds of manuscripts and early printed books reveals that the Bible has never been an abstract text This book offers a new history of the Bible in England putting the advent of moveable type print and religious reform in a new perspective The Old French William of Tyre Philip D. Handyside, 2015-01-27 William of Tyre's history of the Kingdom of Jerusalem has long been viewed as one of the most useful sources for the Crusades and the Latin East from the beginnings of the First Crusade to William's death shortly before Saladin's conquest of Jerusalem However this text was most popular during the medieval period in an Old French translation In The Old French of William of Tyre Philip Handyside identifies the differences between the Latin and French texts and analyses the translator motives for producing the translation and highlights significant changes that may provide a better understanding of the period in question Handyside also argues for a complex manuscript tradition that developed across the medieval Mediterranean **Early Music History** Iain Fenlon, 2009-03-19 Early Music History is devoted to the study of music from the early Middle Ages to the end of the seventeenth century It demands the highest standards of scholarship from its contributors all of whom are leading academics in their fields It gives preference to studies pursuing interdisciplinary approaches and to those developing novel methodological ideas The scope is exceptionally broad and includes manuscript studies textual criticism iconography studies of the relationship between words and music and the relationship between music and society Articles in volume eleven include Music and festivities at the court of Leo X a Venetian view Jean de Castro the Pense partbooks and musical culture in sixteenth century Lyons The lost chant tradition of early Christian Jerusalem some possible melodic survivals in the Byzantine and Latin chant repertoires Rome as the centre of the universe papal grace and musical patronage **Giotto the Painter. Volume 1-3** Michael Viktor Schwarz, 2023-04-17 Vol 1 Life Giotto 1334 is the first European artist about whom it is possible to write following the schema of life and work The situation of the sources however is complicated On Giotto's life there are on the one hand biographical accounts from the mid fourteenth century onwards that responded to various ideological requirements patriotism humanism Renaissance ideology cult of the artist on the other there is extensive documentary material from Giotto's lifetime which seems to reflect less the biography of an artist than that of a bourgeois businessman resolutely climbing the social ladder The present volume focuses on this second aspect of the Giotto figure's double life relating it to the form of existence of the pre modern artist Vol 2 Works The paintings examined and contextualised in this volume are those secured for Giotto through early written sources These sources also help to reconstruct the sequence of his works and artistic inventions as is plausible in the context of media culture in the decades around and after 1300 while Giotto was spiritually and intellectually formed in the sphere of the Florentine Dominicans his artistic path began in Rome in the shadow of the Curia The breakthrough to his own artistic

concept came immediately before and during his work in Padua In addition to prominent churchmen ecclesiastical institutions and the King of Naples his clients were predominantly members of Italy's urban and financial elites The adoption and further development of his inventions by other especially Sienese painters pressured him in his later years to try new approaches again Vol 3 Survival Giotto is considered by many to be the founder of modern painting This thesis is discussed and modified in the present volume on an empirical basis What emerges is that Giotto's impact cannot be reduced simply to the introduction of the study of nature Rather his art was involved in the development of pictorial idioms that were attuned to the skills and interests of their audiences The new approaches in his painting contributed in particular to the possibility of examining and communicating psychological narrative and allegorical content of great complexity outside the media of language and text which not only changed the face of European art but certainly contributed to the intellectual opening of Western societies A Heritage of Holy Wood: The Legend of the True Cross in Text and Image Barbara Baert, 2004-07-01

In the fourth century the idea arose that the Cross on which Christ was crucified had been found by Helena mother of Emperor Constantine Thus began a legend that would grow and flourish throughout the Middle Ages and cause the diffusion of countless splinters of holy wood And where there is wood there was once a tree Could it be that the Cross was made from that most noble species the Tree of Life So gathering characters along the way the legend evolved into a tale that stretches from the Creation to the End of Time A Heritage of Holy Wood is the first reconstruction of the iconographic and literary tradition of the Legend of the True Cross Its broad scope encompasses relic cults pilgrimages travellers tales and the Tree of Life and involves Church Fathers crusader kings Teutonic Knights and mendicant orders all of which influenced the legend's depiction from its earliest representation in manuscripts reliquaries and altarpieces to the great monumental cycles of the high Middle Ages If the holy wood was the medium of medieval memory A Heritage of Holy Wood reveals the growth rings of fifteen centuries of imagery **Medieval Art and Architecture in the Diocese of Glasgow** Richard Fawcett, 2024-11-01

Medieval Illuminators and Their Methods of Work Jonathan James Graham Alexander, 1992-01-01 Who were the medieval illuminators How were their hand produced books illustrated and decorated In this beautiful book Jonathan Alexander presents a survey of manuscript illumination throughout Europe from the fourth to the sixteenth century He discusses the

social and historical context of the illuminators lives considers their methods of work and presents a series of case studies to show the range and nature of the visual sources and the ways in which they were adapted copied or created anew Alexander explains that in the early period Christian monasteries and churches were the main centers for the copying of manuscripts and so the majority of illuminators were monks working in and for their own monasteries From the eleventh century lay scribes and illuminators became increasingly numerous and by the thirteenth century professional illuminators dominated the field During this later period illuminators were able to travel in search of work and to acquire new ideas they joined guilds with scribes or with artists in the cities and their ranks included nuns and secular women Work was regularly collaborative and the craft was learned through an apprenticeship system Alexander carefully analyzes surviving manuscripts and medieval treatises in order to explain the complex and time consuming technical processes of illumination its materials methods tools choice of illustration and execution From rare surviving contracts he deduces the preoccupation of patrons with materials and schedules Illustrating his discussion with examples chosen from religious and secular manuscripts made all over Europe Alexander recreates the astonishing variety and creativity of medieval illumination His book will be a standard reference for years to come
