The Manuscript Sources of Seventeenth-century Italian Lute Music Victor Anand Coelho,1989 *Harpsichord and Lute Music in 17th-Century France* D. Ledbetter,2019-06-12 The works of the 17th century French harpsichord composers the clavecinistes are among the principal treasures of the harpsichord repertoire It is a commonplace of music histories that their style was strongly influenced by contemporary lutenists yet the assessment of this influence has until now been limited to pointing out a few superficial resemblances This book is the first comprehensive account of the relationship between the two styles The nature and extent of the influence can now be seen as much more far reaching than has been supposed The clavecinistes adopted many details of lute style and an understanding of these is essential for the proper performance of their works More importantly the lute style opened up the possibility of an entirely new expressive dimension in the playing of the harpsichord in exploring this the clavecinistes evolved a style which dominated European keyboard music in the 17th century and provided a basis for the subsequent development of idiomatic keyboard style **The Cambridge History of**

commissioned them as well as the horsemanship and military skills of the noblemen who rode in them Although the horse ballet did not originate in Florence that city and its ruling grand dukes the Medici acquired a reputation for excellence in the genre Between 1608 and 1686 the court commissioned horse ballets to commemorate important state events such as Medici weddings or visits by foreign visitors In *Singing of Arms and Men* author Kelley Harness undertakes the first comprehensive study of the seventeenth century Florentine horse ballets She demonstrates how these works communicated messages relevant to the occasions for which they were performed delivered by means of texts sung in styles similar to contemporary opera and punctuated by choreography and dramatic structure Mock battles fought with swords and pistols animated audiences but also provided visible instances of conflict which were then interrupted by the sudden arrival of a *deus ex machina* who commanded the combatants to instead join forces to defeat a common enemy The knights then demonstrated newfound cooperation through their creation of choreographed figures danced on horseback in time to music Documentary evidence confirms that the Medici family expended significant financial and human resources on these one time events revealing just how much work it took to appear effortless Ultimately Harness shows how the balletto a cavallo played a crucial role in Medici self fashioning during the period and that the 250 noblemen invited to lend their equestrian skills both confirmed their family's relationship to the Medici and were provided a venue for demonstrating critical markers of masculine nobility
