Harley manuscript geographies Daniel Birkholz, 2020-06-30 This study brings new methodologies of literary geography to bear upon the unique contents of a codex known as British Library MS Harley 2253 The Harley manuscript was produced upon England's Welsh March by a scribe whose generation died in the Black Death It contains a diverse set of writings love lyrics and devotional literature political songs and fabliaux saints lives courtesy texts bible stories and travelogues These works alternate between languages Middle English Anglo Norman and Latin but operate in conversation with one another The introduction explores how this fragmentary miscellany keeps being sutured into wholeness by commentary upon it Individual chapters examine different genres and social groupings and demonstrate that there are many Harley landscapes still waiting to be discovered It will be of great value to those studying literary history medieval studies cultural geography gender studies Jewish studies and book history

The Instrumental Consort Repertory of the Late Fifteenth Century Jon Banks, 2006 After a rigorous examination of the criteria by which music of this period may be judged to be instrumental Jon Banks isolates all such pieces and establishes them as an explicit genre alongside the more commonly recognized vocal forms of the period The distribution of these pieces in the manuscript and early printed sources of the time demonstrate how central instrumental consorts were to musical experience in Italy at this time Banks also explores the social background to Italian music making and particularly the changing status of instrumentalists with respect to other musicians This book restores an impressive but largely overlooked consort repertory to its rightful place in the history of music

Manuscripts, Texts, Theology David C. Parker, 2009-07-14 David C Parker is one of the world's foremost specialists in the study of the New Testament text and of Greek and Latin manuscripts In addition to editions monographs and more popular writings he has published many articles on different aspects of textual criticism This volume brings together twentyfive of them in a revised and updated version The collection is divided into three topics The first deals with manuscript studies As well as three very different studies of Codex Bezae there are articles and reports on individual manuscripts and classes of manuscripts and reports on visits to libraries The second section has the theme of textual criticism It includes broader studies dealing with the theory of the discipline and more detailed discussions of particular problems including translations into Latin techniques for grouping Greek manuscripts and the comparison of modern editions The third section contains papers in which Parker has discussed the often overlooked relationship between textual criticism and theology These studies explore particular textual problems and their wider significance and cover topics as varied as Jesus and Textual Criticism Calvin's Biblical Text and The Early Tradition of Jesus Sayings on Divorce

Medieval Manuscripts and Their Provenance A. S. G. Edwards, 2024 Essays about the creation circulation and collection of medieval manuscripts The essays collected here celebrate the work of Barbara Shailor the distinguished scholar of medieval manuscripts They explore various aspects of their provenance The subjects addressed range from studies of the history of individual manuscripts to the

evidence afforded by the understanding of their textual traditions to the significance of the identification of fragments to the roles of individual scholars and collectors As a whole the volume contributes to a wider understanding of how the history and ownership of medieval manuscripts can be fruitfully examined a flourishing area of interest in the field **Les Manuscrits de Chrétien de Troyes** Keith Busby,1993 Variants and Variance in Classical Textual Cultures Glenn W. Most,2024-08-19

Given the limited durability of most textual supports texts must be reproduced if they are to survive And given the proliferation over time of users practices and places which need to have access to the texts that are important for cultural institutions this is particularly true for authoritative texts But the reproduction of texts by traditional means either orally or by hand inevitably produces variations These variations can arise because of inattention confusion misunderstanding deliberate modification physical damage and many other factors In general the more a text is reproduced the more variations are likely to occur But although the fact of textual variation in general is doubtless an anthropological universal the specific forms it takes and the specific attitudes to its occurrence seem to vary widely from culture to culture How variations develop in different cultures on the basis of which forms of scholarly practices collaborations and institutional frameworks what variants say about a culture s understandings of text authorship and collective authorship what happens when variants become creative and generate their own strands of tradition to what degree changes in transmission media and processes of distribution translations or the migration of texts into different cultural or institutional contexts can influence or be influenced by the development of variants these are the questions that this book addresses in a historical and culturally comparative perspective One-Volume Libraries: Composite and Multiple-Text Manuscripts Michael Friedrich,Cosima Schwarke,2016-11-07 Composite and multiple text manuscripts are traditionally studied for their individual texts but recent trends in codicology have paved the way for a more comprehensive approach Manuscripts are unique artefacts which reveal how they were produced and used as physical objects While multiple text manuscripts codicologically are to be considered as production units i e they were originally planned and realized in order to carry more than one text composites consist of formerly independent codicological units and were put together at a later stage with intentions that might be completely different from those of its original parts Both sub types of manuscripts are still sometimes called miscellanies a term relating to the texts only The codicological difference is important for reconstructing why and how these manuscripts which in many cases resemble or contain a small library were produced and used Contributions on the manuscript cultures of China India Africa the Islamic world and European traditions lead not only to the conclusion that one volume libraries have been produced in many manuscript cultures but allow also for the identification of certain types of uses **A descriptive catalogue of rare manuscripts & printed books, chiefly liturgical, by W.H.J. Weale** London hist. music loan exhib,1886 **Silver and Society in Late Antiquity** Ruth E. Leader-Newby,2017-05-15 The spectacular hoards of late antique silver Mildenhall Thetford Sevsso discovered since the middle of the last century have aroused much interest in this

luxury art form But what did these pieces mean to their owners and why was silverware so important in late antiquity Silver and Society in Late Antiquity examines such questions through an integrated synthetic analysis of the history of silver in the Roman empire between 300 and 650 AD focusing upon the cultural significance of this luxury art form in all its different manifestations sacred imperial and domestic Ruth Leader Newby looks at a wide range of objects from both the eastern and western halves of the Roman empire including Britain in order to determine silver's role in the wider sphere of late antique visual culture asking questions about the relative significance of individual forms of artistic production and their relationship with each other In doing so key issues for the artistic and cultural history of late antiquity are raised the use of the imperial image the visual construction of the sacred in Christianity the cohesive social role of elite intellectual culture and the Christianization of the domestic sphere As this book demonstrates when studied in its historical context silver can substantially enrich our understanding of late Roman art and culture **The Berkeley Manuscript** Oliver B.

Women's Power in Late Medieval Romance Amy Noelle Vines, 2011 A reading of how women s power is asserted and demonstrated in the popular medieval genre of romance The cultural and social power of women in the Middle Ages is perhaps hard to trace with evidence for it scarce This book argues that medieval romances provide a central but under explored source for and examples of such authority By reassessing the influence exerted by female characters in a spectrum that includes both intellectual and chivalric aid and in some cases patronage it considers how they functioned as models of cultural intellectual and social authority in medieval literary texts In addition to examples set by the family connections socio political networks and textual communities in which they lived this study argues that women also learned methods of influence from the books they read In texts like Troilus and Criseyde and Partonope of Blois the female reader encounters an explicit demonstration of how a woman s intellectual and financial resources can be used The literary representations of women s cultural power expose a continuum of influence from non

material effects to material sway in the medieval patronage system an influence often unacknowledged in strictly historical and extra literary sources Amy N Vines is Assistant Professor in the Department of English University of North Carolina Greensboro *Manuscripts, Sacred and Secular* Endowment for Biblical Research,1985 **Manuscripts and Medieval Song** Helen Deeming,Elizabeth Eva Leach,2015-05-28 This in depth exploration of key manuscript sources reveals new information about medieval songs and sets them in their original contexts *Psalms in the Early Modern World* Assoc Prof Linda Phyllis Austern,Mr David L Orvis,Ms Kari Boyd McBride,2013-05-28 Psalms in the Early Modern World is the first book to explore the use interpretation development translation and influence of the Psalms in the Atlantic world 1400 1800 In the age of Reformation when religious concerns drove political social cultural economic and scientific discourse the Bible was the supreme document and the Psalms were arguably its most important book The Psalms played a central role in arbitrating the salient debates of the day including but scarcely limited to the nature of power and the legitimacy of rule the proper role and purpose of nations the justification for holy war and the godliness of peace and the relationship of individual and community to God Contributors to the collection follow these debates around the Atlantic world to pre and post Hispanic translators in Latin America colonists in New England mystics in Spain the French court during the religious wars and both Protestants and Catholics in England Psalms in the Early Modern World showcases essays by scholars from literature history music and religious studies all of whom have expertise in the use and influence of Psalms in the early modern world The collection reaches beyond national and confessional boundaries and to look at the ways in which Psalms touched nearly every person living in early modern Europe and any place in the world that Europeans took their cultural practices **The Rise of European Music, 1380-1500** Reinhard Strohm,2005-02-17 This is a detailed and comprehensive survey of music in the late middle ages and early Renaissance By limiting its scope to the 120 years which witnessed perhaps the most dramatic expansion of our musical heritage the book responds in the 1990s to the tremendous increase in specialised research and public awareness of that period Three of the four main Parts I II IV describe the development of polyphony and its cultural contexts in many European countries from the successors of Machaut d 1377 to the achievements of Josquin des Prez and his contemporaries working in Renaissance Italy around 1500 Part III by contrast illustrates the musical life of the institutions and musical practices outside the realm of composed polyphony that were traditional and common all over Europe The book proposes fresh views in each chapter discussing dozens of musical examples adducing well known and hitherto unknown documents and referring to and evaluating the most recent scholarship in the field **The Making of the Bibles MoralisŽes: Volume I: The Manuscripts ,**
