Many Sided Triangle Adoption In Australia:

The Many-sided Triangle Audrey Marshall, Margaret McDonald, 2001 A history of adoption in Australia examining its law and practice It considers why adoption reached a peak of popularity in the early 1970s and looks at the drama of adoption from the viewpoint of all the participants including workers in the various systems Case studies are included Colonial Genocide in Indigenous North America Alexander Laban Hinton, Andrew Woolford, Jeff Benvenuto, 2014-10-31 This important collection of essays expands the geographic demographic and analytic scope of the term genocide to encompass the effects of colonialism and settler colonialism in North America Colonists made multiple and interconnected attempts to destroy Indigenous peoples as groups The contributors examine these efforts through the lens of genocide Considering some of the most destructive aspects of the colonization and subsequent settlement of North America several essays address Indigenous boarding school systems imposed by both the Canadian and U S governments in attempts to civilize or assimilate Indigenous children Contributors examine some of the most egregious assaults on Indigenous peoples and the natural environment including massacres land appropriation the spread of disease the near extinction of the buffalo and forced political restructuring of Indigenous communities Assessing the record of these appalling events the contributors maintain that North Americans must reckon with colonial and settler colonial attempts to annihilate Indigenous peoples Contributors Jeff Benvenuto Robbie Ethridge Theodore Fontaine Joseph P Gone Alexander Laban Hinton Tasha Hubbard Margaret D Jabobs Kiera L Ladner Tricia E Logan David B MacDonald Benjamin Madley Jeremy Patzer Julia Peristerakis Christopher Powell Colin Samson Gray H Whaley Andrew Woolford *Mothers of Adult Children* Marguerite Guzman Bouvard, 2013-09-12 *Mothers of Adult Children* elucidates what happens when children come of age and leave home creating new lives in the realms of work and relationships Mothers from around the world learn that this is the point in which their relationships with their children must drastically change Mothers often come to terms with the changes by accepting differences and providing moral and emotional support when needed However the evolutionary nature of mothers roles throughout the course of their children s lives is not only determined by the mother child dynamic The mothering of adult children is a transformative role and the stories presented here show that the dynamics between mother and child are also influenced by cultural events Accidents disasters war and other hardships also intervene in these stories of multicultural motherhood This book reveals the problems mothers of adult children face and celebrates the outstanding accomplishments of those who mother through hardship **The Politics of Adoption** Kerry O'Halloran, 2008-12-01 Adoption has always had a political dimension Its use to achieve political ends has been evident throughout history and in many different cultures In Roman times an emperor would adopt a successful general to continue his rule In Ireland under the Brehon Laws the reciprocal placements of 2 children between clans was an accepted means of cementing mutual allegiances In Japan the adoption of non relatives was traditionally seen as a means of allying 3 with the fortunes of the ruling family The willingness of governments to use

adoption as a political strategy was apparent for example in Australia where it was used to further the assimilation of indigenous people. It is now present in the phenomenon of intercountry adoption where the flow of children particularly in the aftermath of war is often politics by proxy. Adoption can be profoundly affected by politics as demonstrated by the decision of the Chinese government to advocate one child families which resulted in very many Chinese girls being relinquished for adoption abroad as their parents exercised a preference for a male child. Again as in Korea in the recent past currently in some South American countries and in those states of eastern Europe newly emerged from under the blanket of totalitarianism governments can and do facilitate an outward flow of children for reasons of economic and political expediency.

After the Orphanage Suellen Murray, 2009 While there is much literature on the experience of growing up in an orphanage very few books examine life after institutional care. *After the Orphanage* is the first book to address how care leavers adjust to life in the outside world.

A Child for Keeps J. Keating, 2008-12-11 The history of adoption from 1918-1945 detailing the rise of adoption, the growth of adoption societies and considering the increasing emphasis on secrecy in adoption. Analyses adoption law from legalization in 1926 to regulation and reform in the 1930s with regulations finally being enforced in 1943 amid concern about casual wartime adoptions.

Global Childhoods Kate Cregan, Denise Cuthbert, 2014-08-26 An exciting and engagingly written book. The case studies are intriguing and the discussion of previous theories impeccable. Dr Heather Montgomery, The Open University. What is a child? Kate Cregan and Denise Cuthbert begin this path-breaking and compelling work with a deceptively simple question. From this seemingly straightforward formulation they unravel, interrogate and engage with some of the most pressing issues related to children in the early 21st century. This book is an absolute must for scholars in all the fields of childhood studies. Professor Joy Damousi, University of Melbourne. *Global Childhoods* draws on the authors' interdisciplinary backgrounds and original research in the fields of embodiment, theorisations of childhood, children's policy, child placement and adoption and family formation. The book critically demonstrates how, following from the modern construction of childhood which emerged unevenly from the late eighteenth century, the twentieth century saw the emergence of the conception of the normative global child, a figure finally enshrined in the United Nations Convention on the Rights of the Child. The book offers a wide-ranging critical analysis of approaches to children and childhood across the social sciences. Through stimulating case studies which include the experiences of child soldiers, orphans, forced child migrants and children and biomedicine, Cregan and Cuthbert critically test the notion of the global child against the lived experiences of children around the globe. Kate Cregan and Denise Cuthbert draw on and contribute to debates on children and the idea of the child in a wide range of disciplines: sociology, anthropology, education, children's studies, cultural studies, history, psychology, law and development studies. In its historical coverage of the rise of the concepts of the child and the global child, its critical engagement with the theorisation of childhood and its detailed case studies, the book is essential reading for the study of children and childhood.

Adoption Rethink Dr Gregory K Pike, Women's Forum Australia, 2014-11-08 Adoption is a viable alternative for women children and families in need A new legislative approach from State and Federal Governments the involvement of Non Government Organisations in providing adoption services and a change to the hostile attitudes towards adoption that have developed within the various bureaucracies in recent years is necessary This must be underpinned by a comprehensive evidence based education campaign to inform the community about the benefits of adoption for women children and families particularly in comparison to other arrangements Australia needs an adoption rethink

Tregeagle, Helen Trivedi, 2021-12-14 This Open Access book presents unique evidence from the first comprehensive study of the outcomes of open adoption from care in Australia. It contributes to the international debate concerning the advantages and disadvantages of face to face post adoption contact with birth families. The chapters assess whether adoption provides a better chance of permanence and more positive outcomes than long term foster care for abused and neglected children in care who cannot safely return to their birth families. They also explore whether open adoption can avoid some of the detrimental consequences of past policies in which adoption was shrouded in secrecy and children frequently grew up with a conflicted sense of identity. The book will appeal to policy makers, practitioners and students of social policy, social work, the law, psychology and psychiatry. It should also be of interest to adult adoptees and adoptive parents whose experiences it reflects.
