markets selling meat vegetables and clothing in China's major cities reflect a fundamental shift in the government's policy toward the economy and political life. Although doubts about the long term commitment to reform arose after the student protests in December 1986 and the dismissal of Party General Secretary Hu Yaobang in January 1987, the scope of reform has been so broad and the pace of change so rapid that the post Mao era fully warrants Deng Xiaoping's description of it as the second revolution undertaken by the Chinese Communist Party.

**China's Continuous Revolution** Lowell Dittmer, 2024-03-29 China's Continuous Revolution The Post Liberation Epoch 1949-1981 explores the ambitious and transformative era of China's political landscape after the founding of the People's Republic in 1949. This meticulously researched volume delves into the ideology of continuous revolution under the dictatorship of the proletariat and its profound impact on Chinese politics. Drawing from extensive interviews and historical analysis, the book examines key elements such as charismatic leadership, mass mobilization, and the complex restructuring of authority, highlighting the successes, failures, and eventual exhaustion of revolutionary zeal. It provides a nuanced perspective on China's socio-political evolution during a pivotal era of change, grappling with questions about legitimacy, power dynamics, and the role of ideology in shaping policy and governance. Dittmer's work also contrasts China's revolutionary trajectory with global ideological movements, presenting a critical examination of the enduring tensions between utopian aspirations and practical governance. By analyzing the Cultural Revolution, agricultural collectivization, and the broader socio-political reforms of the era, the book offers a compelling narrative of a nation's struggle to reconcile revolutionary ideals with the realities of modern state building. Scholars, students, and readers interested in China's contemporary history and political development will find this an invaluable resource for understanding the complexities of revolution and reform in a rapidly transforming society. **China Under Mao** Andrew G. Walder, 2017 China's Communist Party seized power in 1949 after a long period of guerrilla insurgency followed by full-scale war, but the Chinese revolution was just beginning. China Under Mao narrates the rise and fall of the Maoist revolutionary state from 1949 to 1976, an epoch of startling accomplishments and disastrous failures, steered by many forces but dominated

above all by Mao Zedong Mao's China Andrew Walder argues was defined by two distinctive institutions established during the first decade of Communist Party rule a Party apparatus that exercised firm sometimes harsh discipline over its members and cadres and a socialist economy modeled after the Soviet Union Although a large national bureaucracy had oversight of this authoritarian system Mao intervened strongly at every turn The doctrines and political organization that produced Mao's greatest achievements victory in the civil war the creation of China's first unified modern state a historic transformation of urban and rural life also generated his worst failures the industrial depression and rural famine of the Great Leap Forward and the violent destruction and stagnation of the Cultural Revolution Misdiagnosing China's problems as capitalist restoration and prescribing continuing class struggle against imaginary enemies as the solution Mao ruined much of what he had built and created no viable alternative At the time of his death he left China backward and deeply divided Publisher
