**The Rhetoric of Mao Zedong** Xing Lu, 2022-04-13 This thorough examination of Mao's speeches and writings and how they reshaped a nation is critical to an understanding of modern China. Mao Zedong fundamentally transformed China from a Confucian society characterized by hierarchy and harmony into a socialist state guided by communist ideologies of class struggle and radicalization. It was a transformation made possible largely by Mao's rhetorical ability to attract, persuade, and mobilize millions of Chinese people. In this book, Xing Lu analyzes Mao's speeches and writings over a span of sixty years, tracing the sources and evolution of his discourse, analyzing his skills as an orator and mythmaker, assessing his symbolic power and continuing presence in contemporary China, and observing that Mao's rhetorical legacy has been commoditized, culturally consumed, and politically appropriated since his death. Applying both Western rhetorical theories and Chinese rhetorical concepts to reach a more nuanced and sophisticated understanding of his rhetorical legacy, Lu shows how Mao employed a host of rhetorical appeals and strategies drawn from Chinese tradition and how he interpreted the discourse of Marxism-Leninism to serve foundational themes of his message. She traces the historical contexts in which these themes, his philosophical orientations, and his political views were formed and how they transformed China and Chinese people. Lu also examines how certain ideas are promoted, modified, and appropriated in Mao's rhetoric. His appropriation of Marxist theory of class struggle, his campaigns of transforming common people into new communist advocates, his promotion of Chinese nationalism, and his stand on China's foreign policy all contributed to and were responsible for reshaping Chinese thought patterns, culture, and communication behaviors.

**Cuba's Eternal Revolution through the Prism of Insurgency, Socialism, and Espionage** Miguel A. Faria, Jr., 2023-06-21 This book not only relates the defining moments of the Cuban Revolution such as the Moncada Barracks attack, the assault on Batista's Presidential Palace, the Bay of Pigs invasion, and the Cuban Missile Crisis, but also lesser-known events like the War Against the Bandits, the overseas adventures of Che Guevara in the Congo and Bolivia, Fidel Castro's possible prior knowledge of and involvement in JFK's assassination, Cuba's silent war against the environment, and ongoing foreign intelligence operations. The book contains information most readers and academicians may not be familiar with and utilizes major tomes as sources that have only been published in Spanish and so are not widely available to international audiences outside of Spain and Latin America. It will enlighten readers about the realities of the Cuban Revolution, its purported achievements as well as its definite shortcomings, its impact on world events in the last seven decades, and correct the record where needed, enhancing the fount of knowledge for further research by social scientists, historians, and political scientists.

around the globe      **Politics in China** William A. Joseph, 2014-03-14 On October 1 2009 the People's Republic of China PRC celebrated the 60th anniversary of its founding And what an eventful and tumultuous six decades it had been During that time under the leadership of the Chinese Communist Party CCP China was transformed from one of the world's poorest countries into the world's fastest growing major economy and from a weak state barely able to govern or protect its own territory to a rising power that is challenging the United States for global influence Over those same years the PRC also experienced the most deadly famine in human history caused largely by the actions and inactions of its political leaders Not long after there was a collapse of government authority that pushed the country to the brink of and in some places actually into civil war and anarchy Today China is for the most part peaceful prospering and proud This is the China that was on display for the world to see during the Beijing Olympics in 2008 The CCP maintains a firm grip on power through a combination of popular support largely based on its recent record of promoting rapid economic growth and harsh repression of political opposition Yet the party and country face serious challenges on many fronts including a slowing economy environmental desecration pervasive corruption extreme inequalities and a rising tide of social protest Politics in China is an authoritative introduction to how the world's most populous nation and rapidly rising global power is governed today Written by leading China scholars the book's chapters offers accessible overviews of major periods in China's modern political history from the mid nineteenth century to the present key topics in contemporary Chinese politics and developments in four important areas located on China's geographic periphery Tibet Xinjiang Hong Kong and Taiwan      *The Communist Takeover of Hangzhou* James Z. Gao, 2004-02-28 Existing literature on the Chinese Revolution takes into account the influence of peasant society on Mao's ideas and policies but rarely discusses a reverse effect of comparable significance namely how peasant cadres were affected by the urban environment into which they moved In this detailed examination of the cultural dimension of regime change in the early years of the Revolution James Gao looks at how rural based cadres changed and were changed by the urban culture that they were sent to dominate He investigates how Communist cadres at the middle and lower levels left their familiar rural environment to take over the city of Hangzhou and how they consolidated political control established economic stability developed institutional reforms and created political rituals to transform the urban culture His book analyzes the interplay between revolutionary and non revolutionary culture with respect to the varying degrees with which they resisted and adapted to each other It reveals the essential role of cultural identity in legitimizing the new regime and keeping its revolutionary ideal alive      Alternative Representations of the Past Ying-Kit Chan, Fei Chen, 2020-11-23 The relationship between the Chinese nation and its recent past has been fraught with contradictions and tensions This collection aims to make sense of this complex relationship and challenge the prevalent state centric and nation centric modes of history writing on modern China It explores alternative representations of the past and the salience of political conflicts and competitive histories in China highlighting the paradoxical similarities in such representations of the

past from the late nineteenth century to the present Ultimately this book contributes to the ongoing discussion on the politics of interpreting the past and its many manifestations in both China and other societies This volume will contribute to the scholarly debate on the use of the past in national history Tze ki Hon City University of Hong Kong Alternative Representations of the Past presents a collection of essays that critically examine the ways in which the contradicting and contested enterprise of history has been politicized in China As memory is past made present the meticulous re evaluation of Chinese history by the contributors of this volume promises to offer readers valuable insights into contemporary China Chang Yau Hoon Associate Professor and Director Centre for Advanced Research Universiti Brunei Darussalam Dapper Dan Flood William C.
