**The Sugar Season** Douglas Whynott, 2014-03-04 A year in the life of one New England family as they work to preserve an ancient lucrative and threatened agricultural art the sweetest harvest maple syrup How has one of America's oldest agricultural crafts evolved from a quaint enterprise with sugar parties and the delicacy sugar on snow to a modern industry At a sugarhouse owned by maple syrup entrepreneur Bruce Bascom 80 000 gallons of sap are processed daily during winter's end In *The Sugar Season* Douglas Whynott follows Bascom through one tumultuous season taking us deep into the sugarbush where sunlight and sap are intimately related and the sound of the taps gives the woods a rhythm and a ring Along the way he reveals the inner workings of the multimillion dollar maple sugar industry Make no mistake it's big business complete with a Maple Hall of Fame a black market a major syrup heist monitored by Homeland Security a Canadian organization called The Federation and a Global Strategic Reserve that's comparable to OPEC fitting since a barrel of maple syrup is worth more than a barrel of oil Whynott brings us to sugarhouses where we learn the myriad subtle flavors of syrup and how it's assigned a grade He examines the unusual biology of the maple tree that makes syrup possible and explores the maples and the industry's chances for survival highlighting a hot button issue how global warming is threatening our food supply Experts predict that by the end of this century maple syrup production in the United States may suffer a drastic decline As buckets and wooden spouts give way to vacuum pumps and tubing we see that even the best technology can't overcome warm nights in the middle of a season and that only determined men like Bascom can continue to make a sweet life out of rugged land
