Mapping America The Journey of a Nation is the definitive guide to the history of American tourism From the earliest days of the republic when wealthy Americans traveled to Europe for the Grand Tour to the rise of the middle class in the late 19th century which led to the development of mass tourism to the present day when tourism is a global industry worth trillions of dollars Pasquale De Marco tells the story of how Americans have experienced their own country Mapping America The Journey of a Nation is not just a history of tourism however It is also a social and cultural history of the United States Through the lens of tourism we can see how Americans have changed over time how they have viewed their own country and how they have interacted with the rest of the world In the early days of the republic tourism was largely confined to the wealthy elite These travelers were drawn to Europe by the allure of its ancient ruins its famous art and architecture and its sophisticated culture The Grand Tour was seen as a rite of passage for young men of means and it was believed that exposure to the culture of Europe would help them to become more cultured and refined As the middle class grew in the late 19th century so too did the popularity of tourism With the development of railroads and steamships it became possible for ordinary Americans to travel more easily and affordably This led to the rise of mass tourism and Americans began to flock to destinations such as Niagara Falls the Grand Canyon and Yellowstone National Park The rise of mass tourism had a profound

impact on American society It helped to create a sense of national identity as Americans from all walks of life began to travel and experience their own country It also led to the development of a new industry as hotels restaurants and other businesses catered to the needs of tourists In the 20th century tourism continued to grow in popularity The development of the automobile and the airplane made it possible for Americans to travel even more easily and affordably This led to the rise of new destinations such as Florida California and Hawaii Today tourism is a global industry worth trillions of dollars Americans are among the most traveled people in the world and they spend billions of dollars each year on travel Tourism is a major source of revenue for many countries and it helps to create jobs and support local economies Mapping America The Journey of a Nation is the essential guide to the history of American tourism It is a must read for anyone who is interested in the history of the United States the history of travel or the history of American culture If you like this book write a review
