Modernism, Nationalism, and the Novel Pericles Lewis, 2000-04-24 In *Modernism Nationalism and the Novel* first published in 2000 Pericles Lewis shows how political debates over the sources and nature of national character prompted radical experiments in narrative form amongst modernist writers Though critics have accused the modern novel of shunning the external world Lewis suggests that far from abandoning nineteenth century realists concern with politics the modernists used this emphasis on individual consciousness to address the distinctively political ways in which the modern nation state shapes the psyche of its subjects Tracing this theme through Joyce Proust and Conrad amongst others Lewis claims that modern novelists gave life to a whole generation of narrators who forged new social realities in their own images Their literary techniques multiple narrators transcriptions of consciousness involuntary memory and arcane symbolism focused attention on the shaping of the individual by the nation and on the potential of the individual in time of crisis to redeem the nation

Modern Criticism Walter E. Sutton, 1963 **Fullness of Dissonance** Daniel C. Melnick, 1994 During the modern period, the bond between music and literature constituted a crucial and influential idea for Conrad and Eliot, Mann and Rilke, and many other writers. For modern novelists, in particular, this idea has provided the model and rationale for the experimental liberation of narrative form and its desired effect on the reader. Critics later in the twentieth century have undertaken analyses of various contrapuntal sonata and other musical structures in fiction, and some critics have studied the influence of various composers on novelists. *Fullness of Dissonance* is concerned with the related matter of how the aesthetics of music influenced the writers and texts of modern fiction.

The Incarnation of Language Michael O'Sullivan, 2014-02-13 The *Incarnation of Language* investigates how the notion of incarnation has been employed in phenomenology and how this has influenced literary criticism. It then examines the interest that Joyce and Proust share in the concept of incarnation. By examining the themes of synthesis and embodiment that incarnation connotes for these writers, it offers a new reading of their work, departing from critical readings that have privileged notions of radical alterity and difference.

Eavesdropping in the Novel from Austen to Proust Ann Gaylin, 2003-01-16 *Eavesdropping in the Novel from Austen to Proust* investigates human curiosity and its representation in eavesdropping scenes in nineteenth-century English and French novels. Ann Gaylin argues that eavesdropping dramatizes a primal human urge to know and offers a paradigm of narrative transmission and reception of information among characters, narrators, and readers. Gaylin sheds light on the social and psychological effects of the nineteenth-century rise of information technology and accelerated flow of information as manifested in the anxieties about and delight in displays of private life and its secrets. Analysing eavesdropping in Austen, Balzac, Collins, Dickens, and Proust, Gaylin demonstrates the flexibility of the scene to produce narrative complication or resolution, to foreground questions of gender and narrative agency, to place the debates of privacy and publicity within the literal and metaphoric spaces of the nineteenth-century novel. This 2003 study will be of interest to scholars of nineteenth-century English and European literature.

Stephen King Harold Bloom, 2006 Though often disparaged by literary critics, Stephen King's work has influenced a generation of horror and science-fiction writers. Acting as a study guide, this book features the important critical interpretations of the horror master's work.
