Marcel Duchamp Notes:

Marcel Duchamp Marcel Duchamp, 1969 **Marcel Duchamp: Notes Et Notations** Marcel Duchamp, 2002 **Marcel Duchamp's Notes from the Large Glass** Craig E. Adcock, 1983 **Marcel Duchamp**, 1969 Marcel Duchamp's Notes Craig E. Adcock, 1985 **Duchamp in Context** Linda Dalrymple Henderson, 1998 Linda Henderson's work stands out as a truly original contribution. She has enlarged and illuminated our understanding of the most intelligent, elusive, and influential artist of the twentieth century. Calvin Tomkins, author of *Duchamp: A Biography*. Henderson's book is the most thorough and dedicated analysis ever written about Duchamp's work. It represents the single most complete study of the Large Glass and its scientific sources, one that is unlikely to be surpassed. Francis Naumann, author of *Marcel Duchamp: The Art of Making Art in the Age of Mechanical Reproduction*. In tracing the emergence of Duchamp's artworks from their actual cultural, scientific context, Henderson has produced what is quite simply an indispensable book. Marjorie Perloff, author of *Wittgenstein's Ladder and Differentials: Poetry, Poetics, Pedagogy*. Among the readers of Linda Henderson's brilliant book, historians of science will be especially rewarded by her thorough research into an area hitherto insufficiently explored: how artists and other laypersons during Duchamp's time came to learn of and draw upon the stream of exciting results of early twentieth-century science. Gerald Holton, Harvard University The Duchamp Effect Martha Buskirk, Mignon Nixon, 1996-09-25 This expanded edition of the fall 1994 special issue of *October* includes new essays by Sarat Maharaj and by Molly Nesbit and Naomi Sawelson Gorse. It also includes the transcript of an exchange between T. J. Clark and Benjamin Buchloh, which presents new responses to the problems raised by this immediately popular and now out of print issue of the journal. *The Duchamp Effect* is an investigation of the historical reception of the work of Marcel Duchamp from the 1950s to the present, including interviews by Benjamin Buchloh with Claes Oldenburg, Andy Warhol, and Robert Morris; Elizabeth Armstrong with Ed Ruscha and Bruce Conner; and Martha Buskirk with Louise Lawler, Sherrie Levine, and Fred Wilson; and a round table discussion of the Duchamp effect on conceptual art. Contents: Introduction, Benjamin H. D. Buchloh; What's Neo about the Neo Avant Garde? Hal Foster; Typotranslating the Green Box, Sarat Maharaj; Three Conversations in 1985, Claes Oldenburg, Andy Warhol, Robert Morris, Benjamin H. D. Buchloh; Interviews with Ed Ruscha and Bruce Conner, Elizabeth Armstrong; Echoes of the Readymade, Critique of Pure Modernism, Thierry de Duve; Concept of Nothing New, Notes by Marcel Duchamp and Walter Arensberg, Molly Nesbit and Naomi Sawelson Gorse; Interviews with Sherrie Levine, Louise Lawler, and Fred Wilson, Martha Buskirk; Thoroughly Modern Marcel, Martha Buskirk; Conceptual Art and the Reception of Duchamp, *October* Round Table; All the Things I Said about Duchamp, A Response to Benjamin Buchloh, T. Duchamp Juan Ramírez,2013-06-01 Marcel Duchamp s stature in the history of art has grown steadily since the 1950s as several artistic movements have embraced him as their founding father But although his influence is comparable only to Picasso s Duchamp continues to be relatively unknown outside his narrow circle of followers This book seeks to explain his oeuvre which has been shrouded with mystery Duchamp s two great preoccupations were the nature of scientific truth and a feeling for love with its natural limit death His works all speak of eroticism in a way that pushes the socially acceptable to its outer limits Juan Antonio Ramirez addresses such questions as the meaning of the artist s ground breaking ready made and his famous installation Etant donn s his passionate essay reproduces all of Duchamp s important works in addition to numerous previously unpublished visual sources Duchamp Love and Death even is a seminal monograph for understanding this crucial figure of modern art

Architectures of Chance Dr Yeoryia Manolopoulou,2013-12-11 Architectural discourse is dominated by a false dichotomy between design and chance and governed by the belief that the architect s role is to defend against the indeterminate this book challenges this position arguing for the need to develop a more creative and spatial understanding of chance as experience critical agency and a design practice in its own right Architectures of Chance makes illuminating reading for those interested in aesthetic knowledge design and its limits and the poetics and ethics of chance and space in the overlapping fields of architecture and the aleatoric arts Matter: Material Processes in Architectural Production

Gail Peter Borden,Michael Meredith,2012-03-29 Beginning with material this book revolves around physical material making and design decisions that emerge from material interaction Combining essays from both practice and academia this book presents some of the most significant projects and thoughts on materiality from the last decade Beautifully illustrated with a great deal of technical information throughout it shows work technical technique and process and positions it within a broader theoretical intention By assembling a range of voices here is a multifaceted portrait of material design today Students and design professionals alike should find in this book an essential resource for understanding this increasingly important aspect of design

Architecture and the Unconscious John Shannon Hendrix, Lorens Eyan Holm, 2016-06-17 There are a number of recent texts that draw on psychoanalytic theory as an interpretative approach for understanding architecture or that use the formal and social logics of architecture for understanding the psyche But there remains work to be done in bringing what largely amounts to a series of

independent voices into a discourse that is greater than the sum of its parts in the way that say the architect Peter Eisenman was able to do with the architecture of deconstruction or that the historian Manfredo Tafuri was able to do with the Marxist critique of architecture The discourse of the present volume focuses specifically for the first time on the subject of the unconscious in relation to the design perception and understanding of architecture It brings together an international group of contributors who provide informed and varied points of view on the role of the unconscious in architectural design and theory and in doing so expand architectural theory to unexplored areas enriching architecture in relation to the humanities The book explores how architecture engages dreams desires imagination memory and emotions how architecture can appeal to a broader scope of human experience and identity Beginning by examining the historical development of the engagement of the unconscious in architectural discourse and the current and historical theoretical and practical intersections of architecture and psychoanalysis the volume also analyses the city and the urban condition
