D'Lugo,1997-11-25 This guide to Spanish film documents the film industry s interpretation of the isolating effects of the cultural traditionalism of the early twentieth century to the expanding international popularity of such films as Trueba s Belle Epoque Aranda s Amantes and Bigas Luna s Jam n Jam n and such actors as Victoria Abril Carmen Maura and Antonio Banderas This is the first volume in a new Greenwood series that discusses historically and critically films directors and actors in film industries throughout the world Each volume will include a detailed historical introduction and will provide an in depth treatment of the most important films and individuals involved in the industry End of entry bibliographies provide sources for further reading and appendixes provide additional useful information The Guides will be valuable to scholars students and film buffs Spanish cinema is in many ways a microcosm of the tensions and conflicts that have shaped the evolution of the nation over the course of this century Spanish film as a cultural institution is rarely divorced from the political and social currents that have shaped the larger Spanish culture torn as it was between tendencies of localism and internationalism It languished in industrial and artistic underdevelopment for many years under Franco it is now however experiencing international recognition while remaining rooted in the specificity of its own popular cultural styles **Casting**

**Masculinity in Spanish Film** Mary T. Hartson,2017-09-13 The rise of consumerism in the twentieth and twenty first centuries radically changed the way we perceive ourselves and the world around us And as it has throughout history the social construct of ideal masculinity both reflects and responds to that lived reality helping individuals adapt Through a close study of Spanish film of the twentieth and twenty first centuries this book investigates hegemonic or dominant masculinity in the wake of dramatic consumer changes that occurred in Spain It explores the ways in which masculine identity as represented in Spanish film positions itself in relation to desire and consumption focusing especially on representations of hegemonic masculinity from the almost 40 year dictatorship of General Francisco Franco through the transition to democracy and into the early 1990s Using psychoanalytic theory as employed primarily by Todd McGowan and Slavoj i ek this book analyzes cinematic representations of hegemonic masculine models along with those portrayed as less favorable to understand how political social and economic changes in Spain in the twentieth and early twenty first centuries affect the process of masculine identity formation In the shift from a society of prohibition to a society of commanded enjoyment hegemonic masculinity as represented in Spanish film changes dramatically initially organizing itself around prohibition and

self renunciation in the early Franco dictatorship and later with neoliberal reforms and mass media promotion of consumerist values starting in the 1950s reorienting itself around desire and enjoyment embodied for example in the sexually promiscuous fashionable young man of the 1970s Personal pleasure and the satisfaction of one's desires replace submission obedience and self abnegation leading to a reconstruction of masculine identities in a social context that appears increasingly fragmented plural and individualistic The primary innovation of this text involves the repositioning of consumerism as a fundamental force in the formation of Spanish masculinity and showing how widely disseminated masculine models serve to accommodate political social and economic demands
