Communicative Rationality and Deliberative Democracy of Jürgen Habermas Ukoro Theophilus Igwe, 2004 This book critically investigates Jürgen Habermas's attempt to develop communicative conception of human rationality. It explores Habermas's fundamental commitment to the practical import and ramifications of communicative rationality in the field of African political philosophy. Within this context, Habermas's ambitious project to reconcile law, justice, and democracy is wide ranging. This work explores how it is among other things that deliberative institutions can become more democratic through as Dewey put it, improvements in the methods and conditions of debate, discussion, and persuasion. Death in the Congo

Emmanuel Gerard, Bruce Kuklick, 2015-02-10 Death in the Congo is a gripping account of a murder that became one of the defining events in postcolonial African history. It is no less the story of the untimely death of a national dream, a hope-filled vision very different from what the war-ravaged Democratic Republic of the Congo became in the second half of the twentieth century. When Belgium relinquished colonial control in June 1960, a charismatic thirty-five-year-old African nationalist Patrice Lumumba became prime minister of the new republic. Yet stability immediately broke down. A mutinous Congolese Army spread havoc while Katanga Province in southeast Congo seceded altogether. Belgium dispatched its military to protect its citizens, and the United Nations soon intervened with its own peacekeeping troops. Meanwhile, behind the scenes, both the Soviet Union and the United States maneuvered to turn the crisis to their Cold War advantage. A coup in September, secretly aided by the UN, toppled Lumumba's government. In January 1961, armed men drove Lumumba to a secluded corner of the Katanga bush, stood him up beside a hastily dug grave, and shot him. His rule as Africa's first democratically elected leader had lasted ten weeks. More than fifty years later, the murky circumstances and tragic symbolism of Lumumba's assassination still trouble many people around the world. Emmanuel Gerard and Bruce Kuklick pursue events through a web of international politics, revealing a tangled history in which many people, black and white, well-meaning and ruthless African, European, and American bear responsibility for this crime. **US Power and the Internet in**

Wrongs Elizabeth Faue, 2018-05-31 Eva McDonald Valesh was one of the Progressive Era's foremost labor publicists. Challenging the narrow confines placed on women, Valesh became a successful investigative journalist, organizer, and public speaker for labor reform. Valesh was a compatriot of the labor leaders of her day and the right-hand man of Samuel Gompers, president of the American Federation of Labor. Events she covered during her colorful unconventional reporting career included the Populist revolt, the Cuban crisis of the 1890s, and the 1910 Shirtwaistmakers uprising. She was described as bright, even comet-like, by her admirers, but her enemies saw her as a pest who took all the benefit that her sex controls when

in argument with a man Elizabeth Faue examines the pivotal events that transformed this outspoken daughter of a working class Scots Irish family into a national political figure interweaving the study of one woman s fascinating life with insightful analysis of the changing character of American labor reform during the period from 1880 to 1920 In her journey through the worlds of labor journalism and politics Faue lays bare the underside of social reform and reveals how front line workers in labor s political culture reporters investigators and lecturers provoked and informed American society by writing about social wrongs Compelling insightful and at times humorous Writing the Wrongs is a window on the Progressive Era on social history and the new journalism and on women s lives and the meanings of class and gender Problems of Communism
