Heald, 1967 Coexisting Contemporary Civilizations Guy Ankerl, 2000 Some important questions are discussed in this book
Are there any civilisations other than the Western one living in our so called Global Age Eastern civilisation Is the concept of
East anything more than non West Or does there exist in reality a distinct Chinese Indian Arabo Muslim and Western
civilisation Is the construction of large civilisation states such as China and India an unparalleled historical achievement Do
economic ties always eclipse other forms of affiliation such as those formed through kinship or between speech communities
What is the role of the Latin and the Jewish Peoples in our Anglo American led Western world Is English today the global
language or merely an international one Is the Chinese thought pattern closely related to its writing system Is today's world
one of symmetrical interdependence Or rather one of hegemony If the so called North South or East West dialogue fails in
constructing a universally accepted world civilisation then what is the appropriate arrangement for reaching such a
consensus within humankind **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1971
