,2005 **Cultivating Mathematical Hearts** Maria del Rosario Zavala, Julia Maria Aguirre, 2023-11-27 Help students see their whole selves in the math they're learning with culturally responsive teaching *Cultivating Mathematical Hearts* Culturally Responsive Mathematics Teaching in Elementary Classrooms aims to re-center mathematics as a humanizing endeavor because putting children and their humanity at the heart of mathematics education can result in more engaged meaningful and joyful learning This book introduces a model and a tool for Culturally Responsive Mathematics Teaching constructed to create a safe inclusive space where all learners can come together in their own educational journey and develop a love for math that centers their experiences and comes from the heart Implementing the Culturally Responsive Mathematics Teaching Tool CRMT2 will help you cultivate and sustain meaningful rich and rigorous mathematical learning spaces for all your students experiences that foster mathematical curiosity and joy The book walks you through each aspect of the framework and tool guiding you to consider how your classroom structures lessons tasks and assessments Honor the existing cultural strengths experiences and lived realities of all your students Elicit diverse mathematical thinking and ideas Support equitable access to rigorous mathematical learning and discourse for all students Invite a sense of agency in each student's learning experience Promote high engagement and excitement while learning mathematics Nurture an understanding that mathematics is a powerful tool for making sense of the world By weaving these strategies into classroom lessons teachers can humanize mathematics instruction to successfully build a love for math while providing equitable learning opportunities that empower student voice and promote success in mathematics **ERIC Educational Documents Index, 1966-1969: Minor descriptors. Author index** CCM Information Corporation, 1970 **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1971 *Rethinking Disability and Mathematics* Rachel Lambert, 2024-04-15 Every child has a right to make sense of math and to use math to make sense of their worlds Despite their gifts students with disabilities are often viewed from a deficit standpoint in mathematics classrooms These students are often conceptualized as needing to be fixed or remediated *Rethinking Disability and Mathematics* argues that mathematics should be a transformative space for these students a place where they can discover their power and potential and be appreciated for their many strengths Author Rachel Lambert introduces Universal Design for Learning for Math UDL Math a way to design math classrooms that empowers disabled and neurodiverse students to engage in mathematics in ways that lead to meaningful and joyful math learning The book showcases how UDL Math can open up mathematics classrooms so that they provide access to meaningful understanding and an identity as a math learner to a wider range of students Weaved throughout the book are the voices of neurodiverse learners telling their own stories of math learning Through stories of real teachers recognizing the barriers in their own math classrooms and redesigning to increase access the book Reframes

students with disabilities from a deficit to an asset perspective paving the way for trusting their mathematical thinking Offers equitable math instruction for all learners including those with disabilities neurodiverse students and or multilingual learners Applies UDL to the math classroom providing practical tips and techniques to support students cognitive affective and strategic development Immerses readers in math classrooms where all students are engaged in meaningful mathematics from special education day classes to inclusive general education classrooms from grades K 8 Integrates research on mathematical learning including critical math content such as developing number sense and place value fluency with math facts and operations and understanding fractions and algebraic thinking Explores critical issues such as writing IEP goals in math This book is designed for all math educators both those trained as general education teachers and those trained as special education teachers The UDL Math approach is adapted to work for all learners because everyone varies in how they perceive the world and in how they approach mathematical problem solving When we rethink mathematics to include multiple ways of being a math learner we make math accessible and engaging for a wider group of learners **ERIC**
