The Math(s) Fix Conrad Wolfram, 2020-06-10 Now with a new ChatGPT era foreword ebook exclusive that explains how The Math s Fix addresses key issues not only for the future of maths but for AI age education in general This book uniquely puts the ChatGPT shock into perspective by offering the reformer s roadmap for reaction to policymakers employers parents teachers and students Why are we all taught maths for years of our lives Does it really empower everyone Or fail most and disenfranchise many Is it crucial for the AI age or an obsolete rite of passage The Math s Fix An Education Blueprint for the AI Age is a groundbreaking book that exposes why maths education is in crisis worldwide and how the only fix is a fundamentally new mainstream subject It argues that today s maths education is not working to elevate society with modern computation data science and AI Instead students are subjugated to compete with what computers do best and lose This is the only book to explain why being bad at maths may be

as much the subject's fault as the learner's how a stuck educational ecosystem has students, parents, teachers, schools, employers, and policymakers running in the wrong direction to catch up with real world requirements. But it goes further too for the first time setting out a completely alternative vision for a core computational school subject to fix the problem and seed more general reformation of education for the AI age.
