essential for early childhood teachers to prepare a high quality learning environment and that mathematical competence is highly relevant for children's individual development. Bringing together research from mathematics education, educational science and psychology, it integrates international perspectives and considers the contextual factors that affect the development of children's mathematical competence within Early Childhood Education and Care (ECEC) settings. The book uses a model to describe professional teacher competence that considers the dispositions of early childhood teachers, situation specific skills of early childhood teachers and the performance of early childhood teachers. The book is the first of its kind to give a comprehensive overview and allows for integrative perspectives and interdisciplinary understanding regarding pre and in service ECEC teachers' professional competence in the domain of mathematics. It will be essential reading for academics, researchers and students of early childhood education, mathematics education and teacher education. **The First Sourcebook on Asian Research in Mathematics Education - 2 Volumes** Bharath Sriraman, Jinfa Cai, Kyeonghwa Lee, Lianghuo Fan, Yoshinori Shimizu, Chap Sam Lim, K. Subramaniam, 2015-08-01 Mathematics and Science education have both grown in fertile directions in different geographic regions Yet the mainstream discourse in international handbooks does not lend voice to developments in cognition curriculum teacher development assessment policy and implementation of mathematics and science in many countries Paradoxically in spite of advances in information technology and the flat earth syndrome old distinctions and biases between different groups of researchers persist In addition limited accessibility to conferences and journals also contribute to this problem The International Sourcebooks in Mathematics and Science Education focus on under represented regions of the world and provides a platform for researchers to showcase their research and development in areas within mathematics and science education The First Sourcebook on Asian Research in Mathematics Education China Korea Singapore Japan Malaysia and India provides the first synthesized treatment of mathematics education that has both developed and is now prominently emerging in the Asian and South Asian world The book is organized in sections coordinated by leaders in mathematics education in these countries and editorial teams for each country affiliated with them The purpose of unique sourcebook is to both consolidate and survey the established body of research in these countries with findings that have influenced ongoing research agendas and informed practices in Europe North America and other countries in addition to

serving as a platform to showcase existing research that has shaped teacher education curricula and policy in these Asian countries. The book will serve as a standard reference for mathematics education researchers, policy makers, practitioners, and students both in and outside Asia and complement the Nordic and NCTM perspectives. *Oswaal NCERT Teachers & Parents Manual Mathematics Math Magic Class 5 (For 2021 Exam)* Oswaal Editorial Board, 2020-04-23

Children are naturally inquisitive and eager to explore and learn about the world around them. It is important for their guardians, both Parents and Teachers, to satisfy their queries and that too in such a way that the children are able to understand and comprehend the concepts as well as learn from them. Also, there exists a gap in the level of information and knowledge provided to the children by the Parents vs that provided by their Teachers. Discrepancies might also exist in the methodology through which the information and knowledge is relayed. This increases the possibility that the children might either not understand the concept clearly or become confused about the correct interpretation of the concepts. With these objectives in mind and to build connectivity between the teaching methodologies by Parents and Teachers, we at Oswaal Books have come up with this Manual for Teachers and Parents. Some benefits of using this manual are:

- It aims to aid the Teachers and Parents in simplifying the concepts studied by children as a part of their curriculum.
- It equips the parents and teachers to enable the children to understand the subjects and also evaluate their measure of understanding and creativity.
- It includes Learning and Understanding Aids along with a Lesson Plan for each Chapter.
- It demonstrates Effective Teaching Techniques.
- It also gives various Propositions for Step wise Learning and Building up of Concepts.

**IMPORTANT FEATURES OF THE BOOK** Strictly based on latest NCERT Textbook. The manual is based on the latest NCERT Textbook 6 Exploratory Learning objectives. These provide explicit instructions to parents and teachers to teach their wards. Effective Teaching Techniques. The manual has tried and tested teaching techniques for higher success rate.

**WHAT THIS BOOK HAS FOR YOU**

- Lesson Plan for each Chapter: This provides clarity and direction to the users.
- Tabulated and Categorised information: This helps in creating and effectively executing the lesson plan.
- 5Es of Learning: This Manual is based on the 5 Es of Learning: Engage, Explore, Explain, Elaborate, Evaluate.
