M.A.T.H., 2014-09 **The Mathematical Education of Teachers** Conference Board of the Mathematical Sciences, 2001 A
report on the state of current thinking on curriculum and policy issues affecting the mathematical education of teachers with
the goal of stimulating campus efforts to improve programs for prospective K 12 teachers Its primary audience is members of
the mathematics faculties and administrators at colleges and universities but the report may also be of interest to math
supervisors in school districts and state education departments to education policy bodies at the state and national levels and
to accreditation and certification organizations c Book News Inc **Frustrations Teaching Math** Bs Ortnr, 2009-06
Having the opportunity to teach math for over 25 years I have found many days when you hit a brick wall Whether it was in
middle school junior or senior high school or at the community college there were days when the new topic was not
understood by the students I could see it in their reaction faces to my explanation Sometimes I was the culprit Knowing full
well that the homework is a review of that day's topic it must be delayed As an educator teaching math the crescendo of each
day builds as we go further into the school calendar Someone who missed out and could not grasp the idea needed to be
tutored That luxury is not available FRUSTRATIONS TEACHING MATH gives the student an opportunity to see how basic
math ideas are solved Sometimes I give two scenarios in solving a problem Other times a cheating way is shown so that math
can be understood and also be fun Some of the topics covered are the various ways to factor a binomial trinomial or
polynomial Another favorite is grasping the concept of greatest common factor or least common multiple Right triangle
trigonometry for the middle school student is explained using boating as the source of frustration How much to tip at a
restaurant What does a half off sale really mean Let us not forget the story or word problems that really cause concerns
Distance Rate Time All these ideas plus games and many more mathematical topics are reviewed on my 45 day road trip from
Delaware to Florida Coming back with several stops on the way home we'll explore these frustrations *Teaching Your Kids*
