Matrix And Philosophy Welcome To The Desert Of The Real:

The Matrix and Philosophy William Irwin, 2002 Presents essays exploring the philosophical themes of the motion picture The Matrix which portrays a false world created from nothing but perceptions **The Matrix and Philosophy** William Irwin, 2003 The Matrix in Theory, 2016-08-01 The Matrix trilogy continues to split opinions widely polarising the downright dismissive and the wildly enthusiastic Nevertheless it has been fully embraced as a rich source of theoretical and cultural references The contributions in this volume probe the effects the Matrix trilogy continues to provoke and evaluate how or to what extent they coincide with certain developments within critical and cultural theory Is the enthusiastic philosophising and theorising spurred by the Matrix a sign of the desperate state theory is in in the sense of see how low theory or post theory has sunk Or could the Matrix be one of the master texts for something like a renewal for theory as now being mainly concerned with new and changing relations between science technology posthumanist culture art politics ethics and the media The present volume is unashamedly but not dogmatically theoretical even though there is not much agreement about what kind of theory is best suited to confront post theoretical times But it is probably fair to say that there is agreement about one thing namely that if theory appears to be like the Matrix today it does so because the culture around it and which made it itself seems to be captured in some kind of Matrix The only way out of this is through more and renewed refreshed theorising not less *Handbook of Hyper-real Religions* Adam Possamai, 2012-03-28 Hyper real religions are innovative religions and spirituality that mix elements of religious tradition with popular culture Through various case studies this book studies the on and off line religious spiritual consumption of these narratives through a social scientific approach
