Redcote Dewar, 2015-06-25 Excerpt from From Matter to Man A New Theory of the Universe The preliminary problem in all human speculation has ever been the origin of existence and it still frets the natural philosopher but the solution is partly determined by the definition of the problem and its accuracy for to day depends almost wholly upon the meaning which present intelligence attaches to the term origin Every origin in the universe necessarily includes both the thing made and that out of which it is made For as nothing begets nothing so something must

be begotten of something As no definition of origin therefore however orthodox can be accurate which assumes a creation of something from nothing origin in so far as it refers to the universe is meaningless About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **What's the**
