Matter Of Consequences:

What Remains? Joyce Marie Mushaben, 2023-03-11 This book tells the story of the German Democratic Republic from the inside out using the lens of generational change to deconstruct an intriguing array of social identities that had little to do with the official GDR version authoritarian rulers regularly sought to impose on their citizens The author compares the identities of five societal subgroups GDR writers and intellectuals pastors and dissidents women youth and working class men exploring the policies defining their lives and status before during after the 1989 Wende as well as the diverging exit voice and loyalty dilemmas encountered by each The dialectical components treated in this work center on the extent to which eastern identities were lost found and reconfigured across three generations from 1949 to 1989 from 1990 to 2005 then up to 2020 It explores how the existence of a separate East German state and the socialization processes imposed on each subculture has not only complicated the search for national unity since 1990 but also perhaps more controversially invoked new challenges directly related to ongoing East West structural disparities since unification and the treatment of eastern Germans by often more privileged western Germans

Morality Matters Roger Trigg, 2004-08-13 Morality still matters argues philosopher Roger Trigg in this accessible introduction to moral thinking Written for general readers with no background in philosophy Argues that we need a shared moral vision in order to live together both nationally and internationally Considers the need for a shared morality in relation to subjects of vital importance such as human rights Stresses that private behaviour cannot be kept separate from public choices Discusses matters of topical debate on both sides of the Atlantic

Captive to Reason Vincent Cheung, 2014-11-26 This is a collection of articles on Christian philosophy and apologetics It answers a number of objections raised by some professing Christians against biblical metaphysics epistemology and apologetics It is a corrective to both evidentialism and counterfeit presuppositionalism Chapters include Occasionalism and Empiricism The Fatal Maneuver Professional Morons Power Apologetics and The Preacher Speaks Philosophy

Fixing Instruction Victor P. Maiorana, 2015-10-21 A professional core includes a common language of practice foundation principles and skills and related standards Such a core is present in the medical engineering and legal professions Instructionally it is not present in the teaching profession There is no core foundation for critical instruction Such instruction long sought but unrealized leads students to think read and write critically for content comprehension These issues obstruct critical instruction There is no uniform use of instructional terms Conventional serialism based instruction blocks the mind's nature to think critically Rote learning is the result Teaching is based on thinking directed at subject matter Yet we practice without a universal foundation in either Teacher preparation programs have no foundation courses for critical instruction There are no teacher educator teacher or student standards for critical thinking for comprehension the basis of critical reading and writing These issues result in weak instructional preparation and practice and poor student achievement Fixing Instruction resolves the issues It

provides for the first time teacher educators teacher candidates teachers and professional developers with an explicit core body of knowledge for critical instruction *Charting the Course* Bruce D. Howard,2008-06-02 Bruce Howard opens our eyes to the moral and ethical influences in economic life and sheds light on the market s philosophical underpinnings **The Heart of What Matters** Anthony Cunningham,2001-09-11 The Heart of What Matters shows that literature has a powerful and unique role to play in understanding life s deepest ethical problems Anthony Cunningham provides a rigorous critique of Kantian ethics which has enjoyed a preeminent place in moral philosophy in the United States arguing that it does not do justice to the reality of our lives He demonstrates how fine literature can play an important role in honing our capacity to see clearly and choose wisely as he develops a moral philosophy that engages with our intimate emotional concerns Written in an accessible style and drawing from a provocative body of contemporary literature this book shows how moral philosophy can reach a far wider audience than it has In part one of this book Cunningham sketches out the theoretical basis for a redefined conception of moral philosophy In part two he engages in extended analyses of novels that address significant life and character issues specifically Kazuo Ishiguro s *The Remains of the Day* Toni Morrison s *Beloved* and Zora Neale Hurston s *Their Eyes Were Watching God* and Seraph on the Suwanee Cunningham shows exactly how works like these can inform moral philosophy Drawing from film history psychology and other social sciences in addition to literature this book adds to the growing number of works that use literature for ethical analysis and to the growing controversy over Kantian ethics

Proceedings of the ... Meeting[s] of the American Association of Instructors of the Blind American Association of Instructors of the Blind,1887 *Pragmatic Encroachment in Epistemology* Brian Kim,Matthew McGrath,2018-10-25 According to philosophical lore epistemological orthodoxy is a purist epistemology in which epistemic concepts such as belief evidence and knowledge are characterized to be pure and free from practical concerns In recent years the debate has focused narrowly on the concept of knowledge and a number of challenges have been posed against the orthodox purist view of knowledge While the debate about knowledge is still a lively one the pragmatic exploration in epistemology has just begun This collection takes on the task of expanding this exploration into new areas It discusses how the practical might encroach on all areas of our epistemic lives from the way we think about belief confidence probability and evidence to our ideas about epistemic value and excellence The contributors also delve into the ramifications of pragmatic views in epistemology for questions about the value of knowledge and its practical role *Pragmatic Encroachment in Epistemology* will be of interest to a broad range of epistemologists as well as scholars working on virtue theory and practical reason *Problems in Philosophy of Education* James Scott Johnston,2019-02-07 *Problems in Philosophy of Education* canvasses several of the leading issues in philosophy of education These include the disconnect between the disciplines of philosophy and philosophy of education the strained relationship between educational practice and philosophy of education the role of educational research in philosophy of education and the lack of an independent scholarship for philosophy of education James Scott

Johnson argues for a philosophy of education separate and distinct from both the disciplines of philosophy and education and claims that philosophy of education should raise and address its own questions and concerns Supporting this is a model of how philosophy of education should originate basic questions together with a set of philosophic presuppositions regarding the model's logic ethics politics and relationship to science and social science Cyclopaedia of Biblical, Theological, and Ecclesiastical Literature John McClintock, 1891

Advances in the Sociology of Trust and Cooperation Vincent Buskens, Rense Corten, Chris Snijders, 2020-10-26 The problem of cooperation is one of the core issues in sociology and social science more in general The key question is how humans groups organizations institutions and countries can avoid or overcome the collective good dilemmas that could lead to a Hobbesian war of all against all The chapters in this book provide state of the art examples of research on this crucial topic These include theoretical laboratory and field studies on trust and cooperation thereby approaching the issue in three complementary and synergetic ways The theoretical work covers articles on trust and control reputation formation and paradigmatic articles on the benefits and caveats of abstracting reality into models The laboratory studies test the implications of different models of trust and reputation such as the effects of social and institutional embeddedness and the potentially emerging inequalities this may cause The field studies test these implications in applied settings such as business purchasing and supply informal care and different kinds of collaboration networks This book is exemplary for rigorous social science The focus is on effects of social conditions in particular different forms of social and institutional embeddedness on social outcomes at the macro level Modelling efforts are applied to connect social conditions to social outcomes through micro level behavior in ways that are easily overlooked when argumentation is intuitive and impressionistic The book sets forth a mixed method approach by applying different empirical methods to test hypotheses about similar questions Several contributions re evaluate the theoretical strengths and weaknesses following from the laboratory and field studies Improving the theory in light of these findings facilitates pushing the boundaries of social science

Government Accountability Sources and Materials Judith Bannister, Anna Olijnyk, Stephen McDonald, 2023-06-08 Government Accountability Sources and Materials Australian Administrative Law is designed to accompany the third edition of the textbook Government Accountability Australian Administrative Law Following the accessible structure of Government Accountability this book guides students through the real world operation of administrative law and demonstrates how multiple doctrines and mechanisms can interact in a single situation Extracts from primary materials including cases and legislation provide a clear account of the facts issues and statutory provisions considered by the courts and are accompanied by relevant commentary This edition has been thoroughly updated to include recent significant cases such as Minister for Immigration Citizenship Migrant Services and Multicultural Affairs v Viane 2021 Hocking v Director General of the National Archives of Australia 2020 and MZAPC v Minister for Immigration and Border Protection 2021 Written by a team of experts Government Accountability Sources and Materials Australian Administrative

Law is a fundamental and student friendly introduction to administrative law in practice **Transportation Conformity**,2000 **Criminal Law** Jonathan Herring,2018 Jonathan Herring s unique and bestselling approach of separating out the doctrinal and theoretical aspects of the law alongside expertly selected extracts makes this book enduringly popular with students and teachers **Jurist** ,1852 An Enquiry Into the Nature of the Human Soul Andrew Baxter,1733 What IS Sex? Alenka Zupancic,2017-09-08 Why sexuality is at the point of a short circuit between ontology and epistemology Consider sublimation conventionally understood as a substitute satisfaction for missing sexual satisfaction But what if as Lacan claims we can get exactly the same satisfaction that we get from sex from talking or writing painting praying or other activities The point is not to explain the satisfaction from talking by pointing to its sexual origin but that the satisfaction from talking is itself sexual The satisfaction from talking contains a key to sexual satisfaction and not the other way around even a key to sexuality itself and its inherent contradictions The Lacanian perspective would make the answer to the simple seeming question What is sex rather more complex In this volume in the Short Circuits series Alenka Zupan i approaches the question from just this perspective considering sexuality a properly philosophical problem for psychoanalysis and by psychoanalysis she means that of Freud and Lacan not that of the kind of clinician practitioners called by Lacan orthopedists of the unconscious Zupan i argues that sexuality is at the point of a short circuit between ontology and epistemology Sexuality and knowledge are structured around a fundamental negativity which unites them at the point of the unconscious The unconscious as linked to sexuality is the concept of an inherent link between being and knowledge in their very negativity

Content Matters Leif Fearn,Eric Fearn,2013-06-26 A critical question in social studies education is not whether teachers develop and teach units of study but what is in the units of study teachers develop and teach Curricular planning and instruction must focus on what we teach in the social studies classroom It is not uncommon for students to experience fine units about the westward movement and exit the fifth grade with little or no geographic literacy Most students leave middle school grades unable to name even one person who made a difference in the history of Indian people in the United States After three to five years of history classes high school students routinely self report that history is boring And it is the rare middle school graduate who knows how to use a free enterprise economy for his or her benefit This book explains the content of nine areas in social studies If teachers know what history biographical studies and the United States Constitution mean for instruction they can increase the probability of better focused content in their social studies instruction
