she became an intern at fashion giant Tommy Hilfiger. There she observed and recorded how a business's culture is built on a brand that is linked to the charisma and style of its leader. Fashion firms are not just in the business of selling clothing along with a variety of sidelines. These companies must also sell a larger concept around which people can identify and distinguish themselves from others. Manlow defines the four main tasks of a fashion firm as creation of an image, translation of that image into a product, presentation of the product, and selling the product. Each of these processes is interrelated and each requires the efforts of a variety of specialists who are often in distant locations. Manlow shows how the design and presentation of fashion is influenced by changes in society, both cultural and economic. Information about past sales and reception of items as well as projective research informs design, manufacturing, sales, distribution, and marketing decisions. Manlow offers a comprehensive view of the ways in which creative decisions are made, leading up to the creation of actual styles. She helps to define the contribution fashion firms make in upholding, challenging, or redefining the social order. Readers will find this a fascinating examination of an industry that is quite visible but little understood. Veronica Manlow is assistant professor in the Department of Economics at Brooklyn College.

*Men's Style* Russell Smith, 2009-02-24 *Men's Style* is a personal and knowledgeable compendium of tasteful advice for the thinking man on how to dress and shop for clothes in a world of conflicting fashion imperatives. This sophisticated and witty book by the popular *Globe and Mail* columnist combines nuggets of history and the sociology of masculine attire with a practical and supremely useful guide to achieving an elegant and affordable wardrobe for work and play. In chapters and amusing sidebars on shoes, suits, shirts, and ties, formal and casual wear, underwear, and swimsuits, cufflinks, and watches, coats, hats, and scarves, Russell Smith steers a confident course between the hazards of blandness and vulgarity to articulate a philosophy of dress that can take you anywhere. He tells you what the rules are for looking the part at the office, a formal function, or the hippest party, and when you can toss those rules aside. *Men's Style* is supplemented throughout with fifty black and white illustrations and diagrams by illustrator Edwin Fotheringham.

**Empire de L'éphémère** Gilles Lipovetsky, 2002-07-21 This text draws on the history of fashion to demonstrate that the modern cult of appearance and superficiality actually serves the common good. It argues that mass-produced fashion offers many choices which in turn enable consumers to become complex individuals within a consolidated society.
