Okinawa A People And Their Gods:

Okinawa: A People and Their Gods Robinson, 2005-05-15 Okinawa is a fascinating account of the most unusual religious practices of the Okinawan people Subject throughout their long history to many foreign influences the Okinawan people still retain to a remarkable degree a strong reverence for their prehistoric animistic beliefs nevertheless in accommodating themselves to the infiltration of Buddhist Confucian Shinto and Christian influences they have been most receptive with the result that what might seem confusing illogical and inconsistent to others is quite compatible to them This brief but authoritative account not only correlates present day practices with their historical development but also takes notice of current trends and likely future developments in Okinawa The text is enhanced with sixteen significant photographs and with nine full page maps to guide sightseers to Okinawa s most culturally significant places **Timeline: Okinawa** Stephen A. Mick McClary, 2022-03-31 This book will give you a basic understanding of the origin of Okinawa its emergence onto the world s stage and its evolution over the centuries to become the subtropical paradise that we ve come to know and love Having collected so many books and papers about pre war wartime and post war Okinawa it occurred to me that there is an almost endless array of publications each offering abundant facts opinions and uncertainties as to events dates of events and details of just about every aspect of the principalities kingdom province then finally prefecture of Okinawa ken including its 27 year interruption under U S occupation There is no way to present a comprehensive volume that covers all aspects of Okinawa s past and present without necessitating the use of a wheelbarrow to move it from one place to the next it would be that big This book s content is inspired by and is representative of what I ve read and to a lesser degree what I ve researched on the Internet Some of it is derived from personal experience or observation If you can t find information on a particular subject that just means that I haven t experienced it don t have it in my library or perhaps I do but haven t read it yet

The Limits of Okinawa Wendy Matsumura, 2015-04-26 Since its incorporation into the Japanese nation state in 1879 Okinawa has been seen by both Okinawans and Japanese as an exotic South both spatially and temporally distinct from modern Japan In The Limits of Okinawa Wendy Matsumura traces the emergence of this sense of Okinawan difference showing how local and mainland capitalists intellectuals and politicians attempted to resolve clashes with labor by appealing to the idea of a unified Okinawan community Their numerous confrontations with small producers and cultivators who refused to be exploited for the sake of this ideal produced and reproduced Okinawa as an organic transhistorical entity Informed by recent Marxist attempts to expand the understanding of the capitalist mode of production to include the production of subjectivity Matsumura provides a new understanding of Okinawa's place in Japanese and world history and it establishes a new locus for considering the relationships between empire capital nation and identity

Japanese Cinema and Otherness Mika Ko, 2013-05-13 Over the last 20 years ethnic minority groups have been increasingly featured in Japanese Films However the way these groups are presented has not been a subject of investigation This study examines the representation of so called Others foreigners ethnic minorities and Okinawans in Japanese cinema By combining textual and contextual analysis this book analyses the narrative and visual style of films of contemporary Japanese cinema in relation to their social and historical context of production and reception Mika Ko considers the ways in which multicultural sentiments have emerged in contemporary Japanese cinema In this respect Japanese films may be seen not simply to have reflected more general trends within Japanese society but to have played an active role in constructing and communicating different versions of multiculturalism In particular the book is concerned with how representations of otherness in contemporary Japanese cinema may be identified as reinforcing or subverting dominant discourses of Japaneseness the author book also illuminates the ways in which Japanese films have engaged in the dramatisation and elaboration of ideas and attitudes surrounding contemporary Japanese nationalism and multiculturalism

By locating contemporary Japanese cinema in a social and political context Japanese Cinema and Otherness makes an original contribution to scholarship on Japanese film study but also to bridging the gap between Japanese studies and film studies

Okinawan War Memory Kyle Ikeda, 2014-03-14 As one of Okinawa's most insightful writers and social critics Medoruma Shun has highlighted the problems and limits of conventional representation of the Battle of Okinawa raised new questions and concerns about the nature of Okinawan war memory and expanded the possibilities of representing war through his groundbreaking and prize winning fiction editorials essays and speaking engagements Yet his writing has not been analyzed in regard to how his experience and identity as the child of two survivors of the Battle of Okinawa have powerfully shaped his understanding of the war and his literary craft This book examines Okinawan war memory through the lens of Medoruma's war fiction and pays particular attention to the issues of second generation war survivorship and transgenerational trauma It explores how his texts contribute to knowledge about the war and its ongoing effects on survivors their offspring and the larger community in different ways from that of other modes of representation such as survivor testimony historical narrative and realistic fiction These dominant means of memory making have played a major role in shaping the various discourses about the war and the Battle of Okinawa yet these forms of public memory and knowledge often exclude or avoid more personal emotional and traumatic experiences Indeed Ikeda's analysis sheds light on the nature of trauma on survivors and their children who continue to inhabit sites of the traumatic past and in turn makes an important contribution to studies on trauma and second generation survivor experiences This book will be of huge interest to students and scholars of Asian literature Japanese literature Japanese history war memory and Okinawa

Religion and Psychotherapy in Modern Japan Christopher Harding, Iwata Fumiaki, Yoshinaga Shin'ichi, 2014-09-15 Since the late nineteenth century religious ideas and practices in Japan have become increasingly intertwined with those associated with mental health and healing This relationship developed against the backdrop of a far broader and deeply consequential meeting between Japan's long standing Chinese influenced intellectual and institutional forms and the politics science philosophy and religion of the post Enlightenment West In striving to craft a modern society and culture that could exist on terms with rather than be subsumed by western power and influence Japan became home to a religion psy dialogue informed by pressing political priorities and rapidly shifting cultural concerns This book provides a historically contextualized introduction to the dialogue between religion and psychotherapy in modern Japan In doing so it draws out connections between developments in medicine government policy Japanese religion and spirituality social and cultural criticism regional dynamics and gender relations The chapters all focus

on the meeting and intermingling of religious with psychotherapeutic ideas and draw on a wide range of case studies including how temple and shrine cures of early modern Japan fared in the light of German neuropsychiatry how Japanese Buddhist theories of mind body and self cultivation negotiated with the findings of western medicine how Buddhists Christians and other organizations and groups drew and redrew the lines between religious praxis and psychological healing how major European therapies such as Freud's fed into self consciously Japanese analyses of and treatments for the ills of the age and how distress suffering and individuality came to be reinterpreted across the twentieth and early twenty first centuries from the southern islands of Okinawa to the devastated northern neighbourhoods of the Tohoku region after the earthquake tsunami and nuclear disasters of March 2011 Religion and Psychotherapy in Modern Japan will be welcomed by students and scholars working across a broad range of subjects including Japanese culture and society religious studies psychology and psychotherapy mental health and international history

Islands of Discontent Laura Elizabeth Hein, Mark Selden, 2003 Exploring contemporary Okinawan culture politics and historical memory this book argues that the long Japanese tradition of defining Okinawa as a subordinate and peripheral part of Japan means that all claims of Okinawan distinctiveness necessarily become part of the larger debate over contemporary identity The contributors trace the renaissance of the debate in the burst of cultural and political expression that has flowered in the past decade with the rapid growth of local museums and memorials and the huge increase in popularity of distinctive Okinawan music and literature as well as in political movements targeting both U S military bases and Japanese national policy on ecological developmental and equity grounds A key strategy for claiming and shaping Okinawan identity is the mobilization of historical memory of the recent past particularly of the violent subordination of Okinawan interests to those of the Japanese and American governments in war and occupation Its intertwining themes of historical memory nationality ethnicity and cultural conflict in contemporary society address central issues in anthropology sociology contemporary history Asian Studies international relations cultural studies and post colonial studies Contributions by Matt Allen Linda Isako Angst Asato Eiko Gerald Figal Aaron Gerow Laura Hein Michael Molasky Steve Rabson James E Roberson Mark Selden and Julia Yonetani

times to the present with an emphasis on the Japanese Okinawan Korean Chamorro and Carolinian civilians during invasion and occupation

Global Culture/Individual Identity Gordon Mathews, 2002-09-11 Most people still think of themselves as belonging to a particular culture Yet today many of us who live in affluent societies choose aspects of our lives from a global cultural supermarket whether in terms of food the arts or spiritual beliefs So if roots are becoming simply one more consumer choice can we still claim to possess a fundamental cultural identity Global Culture Individual Identity focuses on three groups for whom the tension between a particular national culture and the global cultural supermarket is especially acute Japanese artists American religious seekers and Hong Kong intellectuals after the handover to China These ethnographic case studies form the basis for a theory of culture which we can all see reflected in our own lives Gordon Mathews opens up the complex and debated topics of globalization culture and identity in a clear and lively style

another This book is essential reading for trainees a useful reference for qualified therapists who want to deepen their knowledge a supporting resource for prospective psychotherapy clients and a companion for readers who simply want to expand their horizons

The Mysterious Origins of Hybrid Man Susan B. Martinez, 2013-11-02 A provocative challenge to Darwin's theory of evolution Shows there is no missing link because the human race since day one is the result of outright interbreeding among highly diverse types Reveals multiple Gardens of Eden and how each continent has its own independent hominid lineages Explains Homo sapiens mental powers the Great Leap Forward and how we acquired the blood of the gods which endowed us with a soul Did we evolve from apes or are we all descendants of Adam and Eve Why is the missing link still missing Is the dumb luck of natural selection valid Piecing together the protohistory of humanity through anthropology genetics paleolinguistics and indigenous traditions Susan B. Martinez offers an entirely original alternative to Darwin's evolution Modern humanity did not evolve but is a mosaic of mixed ancestry the result of eons of cross breeding and retro breeding among different groups including Cro Magnon Neanderthal hobbits giants and Africa's Lucy and Zinj Martinez shows that there were multiple Gardens of Eden and how each continent had its own blend of races prior to the Great Flood which caused the diaspora that brought a renaissance of culture to every division of the Earth Martinez explains Homo sapiens mental powers the Great Leap Forward in cosmological terms how we are the product of both heaven and earth She identifies the Sons of Heaven and the angel engendered races explaining how Homo sapiens acquired the blood of the gods which endowed us with a soul Providing the ultimate resolution to the Evolution versus Creationism debate this landmark study of hybrid man justifies his unexpectedly sudden appearance in the fossil record the curious parallels between oral histories of the world's people and why anatomically modern features are found in the earliest paleontological evidence
