Finding Faith in Foreign Policy Gregorio Bettiza, 2019 Since the end of the Cold War religion has become an ever more explicit and systematic focus of US foreign policy across multiple domains US foreign policymakers for instance have been increasingly tasked with monitoring religious freedom and promoting it globally delivering humanitarian and development aid abroad by drawing on faith based organizations fighting global terrorism by seeking to reform Muslim societies and Islamic theologies and advancing American interests and values more broadly worldwide by engaging with religious actors and dynamics Simply put religion has become a major subject and object of American foreign policy in ways that were unimaginable just a few decades ago In Finding Faith in Foreign Policy Gregorio Bettiza explains the causes and consequences of this shift by developing an original theoretical framework and drawing upon extensive empirical research and interviews He argues that American foreign policy and religious forces have

become ever more inextricably entangled in an age witnessing a global resurgence of religion and the emergence of a postsecular world society He further shows how the boundaries between faith and state have been redefined through processes of desecularization in the context of American foreign policy leading the most powerful state in the international system to intervene and reshape in increasingly sustained ways sacred and secular landscapes around the globe Drawing from a rich evidentiary base spanning twenty five years Finding Faith in Foreign Policy details how a wave of religious enthusiasm has transformed not just American foreign policy but the entire international system *Strategic Culture and Weapons of Mass Destruction* K. Kartchner, J. Johnson, 2009-01-05 This book describes strategic culture and its value as a methodological approach to the study of International Relations In particular the book uses strategic culture to illuminate a number of case studies on countries that have made decisions regarding the acquisition proliferation or use of weapons of mass destruction Religion, Economics, and Culture in Conflict and Conversation Laurie M. Adeyemi PhD, 2015-09-18 While it could be arguably stated that West Africa has achieved remarkable and sustainable progress in the areas of democratic governance and economic growth the subregion over the past few years has been challenged by terrorism and other transnational security threats Innocent civilians are continuously killed security operatives and providers of humanitarian assistance are targeted and properties and infrastructures are wantonly destroyed thus culminating in significant displacement of people and acute poverty If these developments are not carefully and timely addressed they are capable of eroding progress so far recorded It is against this background that this book examines the

different manifestations of terrorism and related transnational security challenges in West Africa with a view to exploring the internal and external sources and drivers of instability establishing the linkages between terrorism and transnational threats and reviewing the various steps taken in recent time to strengthen the subregions capacity to prevent and address the menace of terrorism and other security challenges and make necessary policy recommendations based on comprehensive best practices

Religion and Culture in Dialogue Janis Talivaldis Ozoliņš, 2016-04-12 This volume addresses the issue of the human encounter with the Mystery of God and the purpose of human life It explores major themes from diverse cultural and philosophical traditions starting with questions about the possibility of belief in God His transcendence as seen in both East and West and ending with questions about ethics and about personhood human dignity and human rights Taking an eclectic approach the chapters in this book each uniquely address aspects of the human encounter with the Mystery of God drawing from specific cultures and traditions and using a particular philosophical and theological style Together the chapters provide a fresh approach and a synergy that ensures that each topic contributes something new to the dialogue between religion and culture

It is Dialogue' not Clash Salah Ed-Din A. Nefeily, 2009-01-01 This book is an attempt to point out and account for the modern man s need to get into a constructive dialogue which will bring the peoples of the world together in the face of the powers of dissipation and segregation So many writers both Western and non Western realized the fact that the notion of the Clash of Civilizations is in its essence an attempt to create an enemy for economic and political reasons To achieve their desired ends defenders of this notion are ready to demolish

cultures and to subdue nations Throughout the book I made it clear that the strategy of promoting the clash of civilizations is against the principle of democracy It is against the principle of dialogue which allows for the expression of the opposing point of view To suppress this notion of dialogue the other will have to be presented as an aggressor who needs to be checked

CULTURAL DIALOGUE **Religion as a Conversation Starter** Ina Merdjanova,Patrice Brodeur,2009-01-01 **New international studies on religions and dialogue in education** Martin Ubani,2018 What are the key questions highlighted in religious and spiritual education today Many global processes such as migration pluralism and the redefinition of citizenship challenge the traditional notions of borders concerning cultures states and nationalities ethnicities and even religions Consequently in societies today the distinction in religions or identities between global and local or inside and outside no longer functions well As the many borders in our world are becoming again more transparent and cultures blended there is an increasing and constant need to re examine the conceptions and theories concerning religion dialogue and education This volume brings together 14 new international studies based on selected presentations from the 14th Nordic Conference on Religious Education The topics of the articles include studies on religion dialogue and education in different contexts ranging from policy studies and higher education to home education and research on education about religions to confessional education The volume serves the interests of researchers policymakers practitioners and students of religious and spiritual education **Approaches to Jewish-Arab Interreligious Dialogue and Peacebuilding: Theory**

and Practice Mollov, M. Ben,2024-10-01 Religion in its most negative form has and can be the basis of conflict escalation and terror However religion in its more noble and elevated forms can also be a force for peacebuilding particularly between Jews and Arabs If the slow but steady progress toward Israel s acceptance into Middle East continues an interreligious dimension will clearly accompany it as the Abraham Accords demonstrates Yet as the region continues to evolve and new challenges emerge new peacebuilding strategies will be required Approaches to Jewish Arab Interreligious Dialogue and Peacebuilding Theory and Practice follows the genre of scholars and practitioners who have contended that the religious contribution to conflict resolution and peacebuilding has been sorely overlooked particularly in the Middle East Based on the author s rich professional experience this book delves into the complexities of Jewish Arab relations by examining both the theoretical frameworks and practical initiatives that seek to bridge divides through religious dialogue Covering topics such as the Arab Israeli conflict Jewish political tradition and religious diplomacy this book is an essential resource for academicians scholars practitioners in peacebuilding policymakers government officials religious leaders and communities students and educators and more *Handbook of Research on the Impact of Culture in Conflict Prevention and Peacebuilding* Essien, Essien,2020-03-20 The contemporary conflict scenarios are beyond the reach of standardized approaches to conflict resolution Given the curious datum that culture is implicated in nearly every conflict in the world

culture can also be an important aspect of efforts to transform destructive conflicts into more constructive social processes. Yet what culture is and how culture matters in conflict scenarios is contested and regrettably unexplored. The Handbook of Research on the Impact of Culture in Conflict Prevention and Peacebuilding is a critical publication that examines cultural differences in conflict resolution based on various aspects of culture such as morals, traditions, and laws. Highlighting a wide range of topics such as criminal justice, politics, and technological development, this book is essential for educators, social scientists, sociologists, political leaders, government officials, academicians, conflict resolution practitioners, world peace organizations, researchers, and students.
