Department of Health, Education, and Welfare. Secretary's Committee on Mental Retardation,1969 *"Everybody was Black Down There"* Robert H. Woodrum,2007 In 1930 almost 13 000 African Americans worked in the coal mines around Birmingham Alabama They made up 53 percent of the mining workforce and some 60 percent of their union s local membership At the close of the twentieth century only about 15 percent of Birmingham s miners were black and the entire mining workforce had been sharply reduced Robert H Woodrum offers a challenging interpretation of why this dramatic decline occurred and why it happened during an era of strong union presence in the Alabama coalfields Drawing on union company and government records as well as interviews with coal miners Woodrum examines the complex connections between racial ideology and technological and economic change Extending the chronological scope of previous studies of race work and unionization in the Birmingham coalfields Woodrum covers the New Deal World War II the postwar era the 1970s expansion of coalfield employment and contemporary trends toward globalization The United Mine Workers of America s efforts to bridge the color line in places like Birmingham should not be underestimated says Woodrum Facing pressure from the wider world of segregationist Alabama however union leadership ultimately backed off the UMWA s historic commitment to the rights of its black members Woodrum discusses the role of state UMWA president William Mitch in this process and describes Birmingham s unique economic circumstances as an essentially Rust Belt city within the burgeoning Sun Belt South This is a nuanced exploration of how despite their central role

in bringing the UMWA back to Alabama in the early 1930s black miners remained vulnerable to the economic and technological changes that transformed the coal industry after World War II

After the Dream Timothy J. Minchin, John A. Salmond, 2011-02-14 Martin Luther King's 1965 address from Montgomery Alabama the center of much racial conflict at the time and the location of the well publicized bus boycott a decade earlier is often considered by historians to be the culmination of the civil rights era in American history In his momentous speech King declared that segregation was on its deathbed and that the movement had already achieved significant milestones Although the civil rights movement had won many battles in the struggle for racial equality by the mid 1960s including legislation to guarantee black voting rights and to desegregate public accommodations the fight to implement the new laws was just starting In reality King's speech in Montgomery represented a new beginning rather than a conclusion to the movement a fact that King acknowledged in the address After the Dream Black and White Southerners since 1965 begins where many histories of the civil rights movement end with King's triumphant march from the iconic battleground of Selma to Montgomery Timothy J Minchin and John Salmond focus on events in the South following the passage of the 1964 Civil Rights Act and the 1965 Voting Rights Act After the Dream examines the social economic and political implications of these laws in the decades following their passage discussing the empowerment of black southerners white resistance accommodation and acceptance and the nation's political will The book also provides a fascinating history of the often overlooked period of race relations during the presidential administrations of Ford Carter Reagan and both George H W and George W Bush Ending with the election of President Barack Obama this study will influence contemporary historiography on the civil rights movement
