Renouncing The World Yet Leading The Church The Monk Bishop In Late Antiquity:

Renouncing the World yet Leading the Church Andrea Sterk, 2004 Although an ascetic ideal of leadership had both classical and biblical roots it found particularly fertile soil in the monastic fervor of the fourth through sixth centuries Church officials were increasingly recruited from monastic communities and the monk bishop became the dominant model of ecclesiastical leadership in the Eastern Roman Empire and Byzantium In an interesting paradox Andrea Sterk explains that from the world rejecting monasteries and desert hermitages of the east came many of the most powerful leaders in the church and civil society as a whole Sterk explores the social political intellectual and theological grounding for this development Focusing on four foundational figures Basil of Caesarea Gregory of Nyssa Gregory of Nazianzus and John Chrysostom she traces the emergence of a new ideal of ecclesiastical leadership the merging of ascetic and episcopal authority embodied in the monk bishop She also studies church histories legislation and popular ascetic and hagiographical literature to show how the ideal spread and why it eventually triumphed The image of a monastic bishop became the convention in the Christian east *Renouncing the World Yet Leading the Church* brings new understanding of asceticism leadership and the church in late antiquity Table of Contents Introduction I Basil of Caesarea and the Emergence of an Ideal 1 Monks and Bishops in the Christian East from 325 to 375 2 Asceticism and Leadership in the Thought of Basil of Caesarea 3 Reframing and Reforming the Episcopate Basil's Direct Influence II The Development of an Ideal 4 Gregory of Nyssa On Basil Moses and Episcopal Office 5 Gregory of Nazianzus Ascetic Life and Episcopal Office in Tension 6 John Chrysostom The Model Monk Bishop in Spite of Himself III The Triumph of an Ideal 7 From Nuisances to Episcopal Ideals Civil and Ecclesiastical Legislation 8 Normalizing the Model The Fifth Century Church Histories 9 The Broadening Appeal Monastic and Hagiographical Literature Epilogue The Legacy of the Monk Bishop in the Byzantine World Abbreviations Notes Frequently Cited Works Index *Holy Bishops in Late Antiquity* Claudia Rapp, 2005 Between 300 and 600 Christianity experienced a momentous change from persecuted cult to state religion One of the consequences of this shift was the evolution of the role of the bishop as the highest Church official in his city from model Christian to model citizen Claudia Rapp's exceptionally learned innovative and groundbreaking work traces this transition with a twofold aim to deemphasize the reign of the emperor Constantine which has traditionally been regarded as a watershed in the development of the Church as an institution and to bring to the fore the continued importance of the religious underpinnings of the bishop's role as civic leader Rapp rejects Max Weber's categories of charismatic versus institutional authority that have traditionally been used to distinguish the nature of episcopal authority from that of the ascetic and holy man Instead she proposes a model of spiritual authority ascetic authority and pragmatic authority in which a bishop's visible asceticism is taken as evidence of his spiritual powers and at the same time provides the justification for his public role In clear and graceful prose Rapp provides a wholly fresh analysis of the changing dynamics of social mobility as played out in episcopal appointments *Episcopal Elections in*

Late Antiquity Johan Leemans, 2011 The election of a new bishop was a defining moment for local Christian communities in Late Antiquity This volume contributes to a reassessment of the phenomenon of episcopal elections from the broadest possible perspective examining the varied combination of factors personalities rules and habits that played a role in the process Building on the state of the art regarding late antique bishops and episcopal election this interdisciplinary volume of collected studies by leading scholars offers fresh perspectives by focussing on specific case studies and opening up new approaches

Christianization and Communication in Late Antiquity Jaclyn L. Maxwell, 2006-10-19 How did ordinary people and Church authorities communicate with each other in late antiquity and how did this interaction affect the processes of Christianization in the Roman Empire By studying the relationship between the preacher and his congregation within the context of classical urban traditions of public speaking this book explains some of the reasons for the popularity of Christian sermons during the period Its focus on John Chrysostom's sermons allows us to see how an educated church leader responded to and was influenced by a congregation of ordinary Christians As a preacher in Antioch Chrysostom took great care to convey his lessons to his congregation which included a broad cross section of society Because of this his sermons provide a fascinating view into the variety of beliefs held by the laity demonstrating that many people could be actively engaged in their religion while disagreeing with their preacher

Angels in Late Ancient Christianity Ellen Muehlberger, 2013-03-21 Ellen Muehlberger explores the diverse and inventive ideas Christians held about angels in late antiquity During the fourth and fifth centuries Christians began experimenting with new modes of piety adapting longstanding forms of public authority to Christian leadership and advancing novel ways of cultivating body and mind to further the progress of individual Christians Muehlberger argues that in practicing these new modes of piety Christians developed new ways of thinking about angels The book begins with a detailed examination of the two most popular discourses about angels that developed in late antiquity In the first developed by Christians cultivating certain kinds of ascetic practices angels were one type of being among many in a shifting universe and their primary purpose was to guard and to guide Christians In the other articulated by urban Christian leaders in contest with one another angels were morally stable characters described in the emerging canon of Scripture available to enable readers to render Scripture coherent with emerging theological positions Muehlberger goes on to show how these two discourses did not remain isolated in separate spheres of cultivation and contestation but influenced one another and the wider Christian culture She offers in depth analysis of popular biographies written in late antiquity of the community standards of emerging monastic communities and of the training programs developed to prepare Christians to participate in ritual demonstrating that new ideas about angels shaped and directed the formation of the definitive institutions of late antiquity *Angels in Late Ancient Christianity* is a meticulous and thorough study of early Christian ideas about angels but it also offers a different perspective on late ancient Christian history arguing that angels were central rather than peripheral to the emergence of Christian institutions and

Christian culture in late antiquity **Episcopal Networks in Late Antiquity** Carmen Angela Cvetković, Peter Gemeinhardt, 2019-02-19 Recent studies on the development of early Christianity emphasize the fragmentation of the late ancient world while paying less attention to a distinctive feature of the Christianity of this time which is its inter connectivity Both local and trans regional networks of interaction contributed to the expansion of Christianity in this age of fragmentation This volume investigates a specific aspect of this inter connectivity in the area of the Mediterranean by focusing on the formation and operation of episcopal networks The rise of the bishop as a major figure of authority resulted in an increase in long distance communication among church elites coming from different geographical areas and belonging to distinct ecclesiastical and theological traditions Locally the bishops in their roles as teachers defenders of faith patrons etc were expected to interact with individuals of diverse social background who formed their congregations and with secular authorities Consequently this volume explores the nature and quality of various types of episcopal relationships in Late Antiquity attempting to understand how they were established cultivated and put to use across cultural linguistic social and geographical boundaries *Transformations of Late Antiquity* Philip Rousseau, Emmanuel Papoutsakis, 2009 Transformation is a notion apposite to essays in honour of Peter Brown The transformation of the classical heritage is a theme to which he has devoted and continues to devote much energy All the essays here in some way explore this notion of transformation the late antique ability to turn the past to new uses and to set its wealth of principle and insight to work in new settings

Christianity in the Later Roman Empire: A Sourcebook David M. Gwynn, 2014-11-20 This sourcebook gathers into a single collection the writings that illuminate one of the most fundamental periods in the history of Christian Europe Beginning from the Great Persecution of Diocletian and the conversion of Constantine the first Christian Roman emperor the volume explores Christianity's rise as the dominant religion of the Later Roman empire and how the Church survived the decline and fall of Roman power in the west and converted the Germanic tribes who swept into the western empire These years of crisis and transformation inspired generations of great writers among them Eusebius of Caesarea Ammianus Marcellinus Julian the Apostate Ambrose of Milan John Chrysostom Jerome and Augustine of Hippo They were also years which saw Christianity face huge challenges on many

crucial questions from the evolution of Christian doctrine and the rise of asceticism to the place of women in the early Church and the emerging relationship between Church and state All these themes will be made accessible to specialists and general readers alike and the sourcebook will be invaluable for students and teachers of courses in history and church history the world of late antiquity and religious studies *Faithful Narratives* Andrea Sterk,Nina Caputo,2014-01-24

Historians of religion face complex interpretive issues when examining religious texts practices and experiences *Faithful Narratives* presents the work of twelve eminent scholars whose research has exemplified compelling strategies for negotiating the difficulties inherent in this increasingly important area of historical inquiry The chapters range chronologically from Late Antiquity to modern America and thematically from the spirituality of near eastern monks to women s agency in religion considering familiar religious communities alongside those on the margins and bringing a range of spiritual and religious practices into historical focus Focusing on Judaism Christianity and Islam the essays address matters central to the study of religion in history in particular texts and traditions of authority interreligious discourse and religious practice and experience Some examine mainstream communities and traditions others explore individuals who crossed religious or confessional boundaries and still others study the peripheries of what is considered orthodox religious tradition Encompassing a wide geographical as well as chronological scope *Faithful Narratives* illustrates the persistence of central themes and common analytical challenges for historians working in all periods **Jerome and the Monastic Clergy** Andrew Cain,2013-02-15 In *Jerome and the Monastic Clergy* Andrew Cain provides the first full scale commentary on the famous Letter to Nepotian in which Jerome articulates his radical plan for imposing a strict ascetic code of conduct on the contemporary clergy Cain comprehensively addresses stylistic literary historical text critical and other issues of interpretive interest Accompanying the commentary is an introduction which situates the Letter in the broader context of its author s life and work and exposes its fundamental propagandistic dimensions The revised critical Latin text and the new facing page translation will make the Letter more accessible than ever before and will provide a reliable textual apparatus for future scholarship on this key writing by one of the most prolific authors in Latin antiquity **Symeon Stylites the Younger and Late Antique Antioch** Lucy Parker,2022-06-23 *Symeon Stylites the Younger and Late Antique Antioch* From Hagiography to History is a study of the authority of the holy man and its limits in times of crisis Lucy Parker investigates the tensions that emerged when increasingly ambitious claims about the powers of holy men came into conflict with undeniable evidence of their failures and explores how holy men and their supporters responded to this The work takes as its central figure Symeon Stylites the Younger c 521 592 who from his vantage point on a column on a mountain close to Antioch witnessed a period of exceptional turbulence in the local area which in the sixth century experienced plague earthquakes and Persian invasion Through an examination of Symeon s own writings as well as his hagiographic biography it reveals that the stylite was a divisive figure who played upon social tensions and upon culturally sensitive areas such as paganism to carve

out a role for himself as prophet and spiritual authority in the face of considerable opposition It sets Symeon s life and cult in the context of Antioch and eastern Roman society offering a new perspective on the state of the empire in the period before the rise of Islam It argues that hagiography is an exceptionally rich source for the historian offering insights into debates and tensions which reached to the heart of Christianity

Expectations of Justice in the Age of Augustine Kevin

Uhalde,2013-03-26 Augustine bishop of Hippo between 395 and 430 and his fellow bishops lived and worked through massive shifts in politics society and religion Christian bishops were frequently asked to serve as intellectuals legislators judges and pastors roles and responsibilities that often conflicted with one another and made it difficult for bishops to be effective leaders Expectations of Justice in the Age of Augustine examines these roles and the ways bishops struggled to fulfill or failed to fulfill them as well as the philosophical conclusions they drew from their experience in everyday affairs such as oath swearing and in the administration of penance Augustine and his near contemporaries were no more or less successful at handling the administration of justice than other late antique or early medieval officials When bishops served in judicial capacities they experienced firsthand the complex inner workings of legal procedures and social conflicts as well as the fallibility of human communities Bishops represented divine justice while simultaneously engaging in and even presiding over the sorts of activities that animated society business deals litigations gossip and violence but also made justice hard to come by Kevin Uhalde argues that serving as judges even informally compelled bishops to question whether anyone could be guaranteed justice on earth even from the leaders of the Christian church As a result their ideals of divine justice fundamentally changed in order to accommodate the unpleasant reality of worldly justice and its failings This philosophical shift resonated in Christian thought and life for centuries afterward and directly affected religious life from the performance of penance to the way people conceived of the Final Judgment

Reading the Dream Peter Dale Scott, 2024-01-16 In *Reading the Dream* the poet and scholar Peter Dale Scott has composed a poem in prose for our time This is a work of art emerging from a passionate social vision Scott examines our present state of post secularity through the imagination of the past Using devices such as the rational and nonrational or the yin and the yang Scott focuses not just on the reasoned current of written history but also on myths beliefs and even dreams The author searches for moreness throughout the culture of the past He reawakens the ultimate human quest for transcendence of ourselves to repair a political order in ruins This book seeks to transcend the slow breakdown of our current global political order by returning to its generative cultural roots in enlightenment that is both secular and spiritual enlightenment It sees our emerging global culture as dialectical on interconnected levels the tension between scientific yang analysis and non rational yin hopes and dreams the source of this tension in the bicameral human brain in competing rural and urban ethical values and in the master servant relationship Behind the screen history of chaotic political violence it revives a vision of cultural progress in which the vertical imposition of political order from above is slowly supplanted by the emerging post secular tolerance of cultural diversity including both religion and science from below
