ON THE
POSSIBILITY

DESIRABILITY
OF
PEACE

WITH INTRODUCTORY MATERIAL
BY LEONARD C. LEWIN

"The unwillingness of [The Special Study Group] to publicize their findings [is] readily understandable. . . . They concluded [that] lasting peace, while not theoretically impossible, is probably unattainable; even if it could be achieved it would almost certainly not be in the best interests of a stable society to achieve it. . . ."

Report From Iron Mountain On The Possibility And Desirability Of Peace:

Report from Iron Mountain Leonard C. Lewin,1996 How does a left wing satire from the 1960s become a bible to today's Radical Right Recently resurfacing into polite society by way of a front page story in The Wall Street Journal this book makes a chillingly convincing claim to be a sinister government document on the dangerous effects of permanent peace on society and the economy Brilliantly rendered in the vein of Dr Strangelove this reports proves frighteningly prescient of our current social and economic dysfunction Author publicity **Report from Iron Mountain on the possibility and**

Mountain on the Possibility and Desirability of Peace. with Introductory Material by L.C. Lewin L. C. Lewin,1968 **Ghosts of Iron Mountain** Phil Tinline,2025-03-25 Spellbinding Rick Perlstein A clever fast paced read of dazzling originality William I Hitchcock An excellent new book both important and unsettling The New York Times Ghosts of Iron Mountain unravels the astounding origins and far reaching impacts of a monumental late 1960s hoax perpetrated by cultural icons including Victor Navasky and E L Doctorow a must read for anyone curious about the surprising connections between John F Kennedy Oliver Stone Timothy McVeigh Alex Jones and Donald Trump Explore the intricate web of America's conspiracy culture with this investigative masterpiece that unearths the roots of our era's most potent myths In 1966 amid unrest over the Vietnam War and the alarming growth of the military industrial complex little known writer Leonard Lewin was approached by a group of ingenious satirists on the Left to concoct a document that would pretend to ratify everyone's fears that the government was deceiving the public Devoting more than a year to the project Lewin constructed a fiction passed off as the honest truth that a government run Study Group had been charged with examining the cost of peace setting its first meetings in the very real Iron Mountain nuclear bunker in upstate New York which lent the resulting book Report from Iron Mountain its name In Lewin's telling this gathering of the nation's academic elite concluded that suspending war would be disastrous forcing all sorts of bizarre measures to compensate Lewin didn't realize it at the time but he'd created a narrative that fed the interests of both ends of the political spectrum by promoting the idea that the government uses centralized power for evil What fascinates about Phil Tinline's revelation filled recreation of that ingenious hoax is seeing how it explodes into America's

consciousness dominates media reports and sends government officials scrambling And then how Lewin's fabrication is adopted by a seemingly endless string of extremist organizations which view it as supporting their ideology In this riveting and at times chilling tale is an unsettling warning about how in contemporary times a deception may no longer be considered a hoax if it can be used to recruit followers to a cause

Report from Iron Mountain Leonard Lewin, 2018-07-25 Report from Iron Mountain unveils a hitherto top secret report of a government commission that was requested to explore the consequences of lasting peace on American society The shocking results of the study as revealed in this report led the government to conceal the existence of the commission they had found that among other things peace may never be possible that even if it were it would probably be undesirable that defending the national interest is not the real purpose of war that war is necessary that war deaths should be planned and budgeted REPORT FROM IRON MOUNTAIN tells the story of how the project was formed how it operated What happened to it It includes the complete verbatim text of the commission's hitherto classified report

Thinking Critically About the Kennedy Assassination Michel Jacques Gagné, 2022-03-27 Thinking Critically About the Kennedy Assassination uses the tools of critical thinking historical research and philosophical inquiry to debunk the many myths and conspiracy theories surrounding JFK's shocking and untimely death As we approach the 60th anniversary of the violent public assassination of President John F Kennedy over half of all Americans surveyed continue to believe that he was killed by a conspiracy involving multiple assassins Through its reasoned and detailed analysis of the content and evolution of JFK conspiracy narratives this book also serves as a comprehensive case study of paranoid reasoning and modern mythmaking The book's opening chapters lay out the official academic consensus concerning the Kennedy assassination better known as the Lone Gunman Theory and discuss the origins of popular interpretations of Kennedy's life and death such as the nostalgic myth of Camelot the unsympathetic Irish Mafia narrative and the many conspiracy theories critical of both Subsequent sections scrutinize the alleged motives of leading conspiracy suspects the ballistic forensic and medical evidence related to JFK's murder and the most popular proofs of an enduring government cover up The book concludes that no clear evidence exists to suggest that JFK was the victim of a conspiracy and ends with a discussion of the causes and consequences of paranoid thinking in contemporary public discourse This volume will appeal to students of history politics psychology and cultural and media studies and to a broader audience interested in American history critical thinking and conspiracy thinking

Why We War Al Smith,2006-11-01 *Why We War* begins a new dialog about war and the social organization of peace This book re orients the thinking about war from a preoccupation with a war to an investigation into the phenomenon of war itself There is an unequal investment in war that has historically damaged the ability of social systems to perform adequately for all members of society The result is ongoing strife warfare and poverty War emerges as the disease of civilization and the bane of human rights

Resource Allocation in the Public Sector Colin Fisher,2002-01-04 In the public sector at the moment resources are scarce or at the very least finite and limited how they are allocated is therefore of crucial importance This book analyses this process and examines the competing values that underlie the public service ethic including the role of markets and quasi markets in the delivery of public services Topics discussed include whether people should be denied the public services they need because public bodies are short of money what balance we should strike between markets and public organisations to provide public services whether the use of markets has gone too far and whether we need to return to a public service ethic

Incorporating Architects Aaron Cayer,2025 By the end of the twentieth century US architecture and engineering firms held more capital than entire countries employed more people than were housed in most cities and rented offices in more nations than comprised the UN Within them architects were designing not single buildings but urban systems including the multinational infrastructures legal codes and financial mechanisms on which those systems came to depend However despite the extraordinary power of these architects their histories remain shrouded in myth and concealed by design This forensic analysis traces a history of architects at one such firm AECOM as they assembled their own multinational corporation and embedded themselves in the operations of American empire after World War II shielding themselves from the instabilities of a postwar political economy *Incorporating Architects* reveals how architects through their businesses more than their drawings or buildings modulated the political economy gripped the reins of their profession and produced the global injustices that define our neoliberal present
