**Censorship & Cultural Regulation in the Modern Age** Beate Müller, 2004 Censorship has become a fashionable topic not only because of newly available archival material from Eastern Europe and the former Soviet Union but also because the new censorship inspired by the works of Foucault and Bourdieu has widened the very concept of censorship beyond its conventional boundaries This volume uses these new materials and perspectives to address the relationship of censorship to cultural selection processes such as canon formation economic forces social exclusion professional marginalization silencing through specialized discourses communicative norms and other forms of control and regulation Two articles in this collection investigate these issues theoretically The remaining eight contributions address the issues by investigating censorial practice across time and space

argues Jill Kuhnheim in this pathfinding book which explores how recent Spanish American poetry participates in the fundamental cultural debates of its time Using a variety of interdisciplinary approaches Kuhnheim engages in close readings of numerous poetic works to show how contemporary Spanish American poetry struggles with the divisions between politics and aesthetics and between visual and written images grapples with issues of ethnic national sexual and urban identities and incorporates rather than rejects technological innovations and elements from the mass media Her analysis illuminates the ways in which contemporary issues such as indigenismo and Latin America s postcolonial legacy modernization immigration globalization economic shifts toward neoliberalism and informal economies urbanization and the technological revolution have been expressed in and even changed the very form of Spanish American poetry since the 1970s One Hundred Years of Turkish Foreign Policy (1923-2023) Binnur Özkeçeci-Taner, Sinem Akgül Açıkmeşe, 2023-09-14 This book brings together an all women group of scholars to provide a historically grounded and theoretically rich examination of the continuities and changes in Turkey s foreign policy since the Republic s establishment in 1923 Using different International Relations theories clarifying the interaction between domestic politics and foreign policymaking the book charts the evolution of Turkey s foreign policy vis a vis several regions and global actors and examines the major developments in Turkey s relations with these actors Some chapters emphasize the continuities in Turkey s external relations and others examine the significant changes and discontinuities in certain areas Recognizing that Turkey s state interests may not always coincide with the interests of the ruling elite the book demonstrates that the centennial birthday of Turkey represents a constitutive moment for Turkey s future and calls for a pragmatic as opposed to a completely ideologically based grand strategy that should focus on progressive ideals The Memory of State Terrorism in the Southern Cone Francesca Lessa, Vincent Druliolle, 2011-04-11 Through various lenses and theoretical approaches this book explores the contested experiences meanings realms goals and challenges associated with the construction preservation and transmission of the memories of state repression in Argentina Chile and Uruguay **World Terrorism: An Encyclopedia of Political Violence from Ancient Times to the Post-9/11 Era** James Ciment, 2015-03-10 First Published in 2015 This collection holds three volumes Terrorism is a term that defies easy definition and its meaning has also changed over the course of history Because this encyclopedia aims at comprehensiveness across time geography and the conceptual landscape it applies the broadest definition of terrorism the use of violence or the threat of violence to effect political change through fear in which the victims of the violence The encyclopedia is divided into six parts Memory and Transitional Justice in Argentina and Uruguay Francesca Lessa, 2013-04-11 This interdisciplinary study explores the interaction between memory and transitional justice in post dictatorship Argentina and Uruguay and develops a theoretical framework for bringing these two fields of study together through the concept of critical junctures **Social, Political, and Religious Movements in the Modern Americas** Pablo A.
