*Reproduction of Death Valley in '49* William Lewis Manly, 1977      **Subject Catalog** Library of Congress,      Country  
Never Trod Michael D. Kane, 2022-09-01 William Lewis Manly was a forty niner explorer and humanitarian whose story most people have never heard Born in Vermont William Lewis Manly was drawn out west by the lure of gold Previous scholarship claims that the Yankee frontiersman floated only 290 miles down the Green River to the Uinta Basin but author Michael D Kane s research of primary source materials led him to the conclusion that Manly actually traveled 415 miles all the way to what is now Green River Utah This would make Manly the first to explore much of the Green River by boat twenty years before John Wesley Powell s famous expedition Determined to prove his theory and establish Manly s legacy as a trailblazer Kane conducted research and then built his own wooden canoes and made the trip tracing Manly s footsteps and comparing notes with the earlier traveler Country Never Trod follows Manly s little known expedition down the Green River and his overland trek through some of the most desolate stretches of Utah interspersed with Kane s journal entries and photographs documenting his own trip      Library of Congress Catalogs Library of Congress, 1980      **Death Valley in '49** William Lewis Manly, 2018-10-16 Death Valley in 49 Volume 1 By William Lewis Manly Autobiography of a pioneer detailing his life from a humble home in the green mountains to the gold mines of California and particularly reciting the sufferings of the band of men women and children who gave Death Valley its name      **Subject Catalog, 1978** Library of Congress, 1978      A Cultural Resource Overview for the Amargosa-Mojave Basin Planning Units Claude N. Warren, Martha C. Knack, Elizabeth Warren, 1980      **Death Valley '49ers** Frank F. Latta, 1979 Stories of the early pioneers who crossed Death Valley in the 1840s The author interviewed survivors or their descendents      **Pony Express Courier** , 1949      *Death Valley and the Amargosa* Richard E. Lingenfelter, 1988-01-11 This is the history of Death Valley where that bitter stream the Amargosa dies It embraces the whole basin of the Amargosa from the Panamints to the Spring Mountains from the Palmettos to the Avawatz And it spans a century from the earliest recollections and the oldest records to that day in 1933 when much of the valley was finally set aside as a National Monument This is the story of an illusory land of the people it attracted and of the dreams and delusions they pursued the story of the metals in its mountains and the salts in its sinks of its desiccating heat and its revitalizing springs and of all the riches of its scenery and lore the story of Indians and horse thieves lost argonauts and lost mine hunters prospectors and promoters miners and millionaires stockholders and stock sharps homesteaders and hermits writers and tourists But mostly this is the story of the illusions the illusions of a shortcut to the gold diggings that lured the forty niners of inescapable deadliness that hung in the name they left behind of lost bonanzas that grew out of the few nuggets they found of immeasurable riches spread by hopeful prospectors and calculating con men and of impenetrable mysteries concocted by the likes of Scotty These and many lesser illusions are the heart of its history      *The Mississippi Valley Historical Review* , 1928      Grit and Gold Jean Johnson, 2018-11-01 No other Western settlement story is more famous

than the Donner Party's ill-fated journey through the Sierra Nevada Mountains. But a few years later and several hundred miles south another group faced a similar situation just as perilous. Scrupulously researched and documented, Grit and Gold tells the story of the Death Valley Jayhawkers of 1849 and the young men who traveled by wagon and foot from Iowa to the California gold rush. The Jayhawkers' journey took them through the then uncharted and unnamed hottest, driest, lowest spot in the continent now aptly known as Death Valley. After leaving Salt Lake City to break a road south to the Pacific Coast that would eliminate crossing the snowy Sierra Nevada, the party veered off the Old Spanish Trail in southern Utah to follow a mountaineer's map portraying a bogus trail that claimed to cut months and hundreds of miles off their route to the gold country. With winter coming, however, they found themselves hopelessly lost in the mountains and dry valleys of southern Nevada and California. Abandoning everything but the shirts on their backs and the few oxen that became their pitiful meals, they turned their dreams of gold to hopes of survival. Utilizing William Lorton's 1849 diary of the trek from Illinois to southern Utah, the reminiscences of the Jayhawkers themselves, the keen memory of famed pioneer William Lewis Manly, and the almost daily diary of Sheldon Young Johnson, paints a lively but accurate portrait of guts, grit, and determination. From wildcatting Texas oilmen to Colorado rock climbers, from hipster capitalists to populist moralizers, westerners have proven themselves to be a highly individualistic breed of American as much in their politics as in their vocations or lifestyles. This first book on the landscape of the American West's politics looks beyond red state/blue state assumptions to explore how westerners have expanded the boundaries of the political and emerged as a harbinger of America's electoral future. Representing a wide range of specialties: popular culture, business history, the environment, ethnic history, agriculture, and more, these authors portray a politically heterogeneous region and show how its multiple traditions have strongly shaped the nation's body politic. Viewing politics as more than cyclical electioneering, they draw on historical evidence to portray westerners imaginatively rethinking democratic practice and constantly forging new political publics. These twelve essays move western political history beyond the usual discussions of elections and parties and the standard issues of water, progressivism, and states' rights. Some explore claims to western authenticity among those associated with western conservatism, not just regional heroes like Barry Goldwater and Ronald Reagan, but farmers and evangelicals as well. Others examine the transformation of the West's minority communities to reveal a liberalism that celebrates diversity and articulates claims for social justice. The final chapters reveal the complexity of contemporary western political culture, challenging longstanding assumptions about such notions as space, nature, and the

liberal conservative divide Here then is the paradox of western politics in all its enigmatic glory with frontier individualism going head to head with multiethnic diversity in debates over divergent views of western authenticity and wild cards put into play by counterculturists cyber libertarians fiscally conservative gun toting Democrats and environmentalists The Political Culture of the New West shows how westerners have expressed themselves within a complex often contradictory and constantly changing political culture and helps explain why no electoral outcome in this part of America can be predicted for certain
