**Body Language** Mark J. Rowlands, 2011-08-19 An argument that activity provides a useful template for thinking about representation and that deeds are themselves representational our representing of the world consists in part in certain sorts of deeds that we perform in the world In *Body Language* Mark Rowlands argues that the problem of representation how it is possible for one item to represent another has been exacerbated by the assimilation of representation to the category of the word That is the problem

is traditionally understood as one of relating inner to outer relating an inner representing item to something extrinsic or exterior to it Rowlands argues that at least some cases of representation need to be understood not in terms of the word but of the deed Activity he claims is a useful template for thinking about representation our representing the world consists in part in certain sorts of actions that we perform in that world This is not to say simply that these forms of acting can facilitate representation but that they are themselves representational These sorts of actions which Rowlands calls deeds do not merely express or re present prior intentional states They have an independent representational status After introducing the notion of the deed as a preintentional act Rowlands argues that deeds can satisfy informational teleological combinatorial misrepresentational and decouplability constraints and so qualify as representational He puts these principles of representation into practice by examining the deeds involved in visual perception Representing Rowlands argues is something we do in the world as much as in the head Representing does not stop at the skin at the border between the representing subject and the world representing is representational all the way out **Informed Adolescence** Heidi J.

Investigating 'Farscape' Jes Battis, 2007-03-30. My name is John Crichton. I'm lost. An astronaut. Shot through a wormhole. In some distant part of the universe, I'm trying to stay alive. Aboard this ship. This living ship. Of escaped prisoners. During its fourth and for the present final season, Farscape was the Sci-Fi Channel's highest rated original series. With its dedicated fan base, Farscape seasons are still top billing. Sci-Fi DVDs. This first proper analysis of the show, written by a scholar fan, uncovers Farscape's layers and those of the living spaceship Moya. Jes Battis proposes that Farscape is as much about bodies, sex, and gender as it is about wormholes, space ships, and interstellar warfare. It is this straddling of genres that makes the show so viewable to such a broad audience, of which almost half are women. He explores Farscape's language and characters, including Moya, its creation of family and home, of masculinity and femininity, and the transformation of an all-American boy.

On Mothering Multiples: Complexities and Possibilities Kathy Mantas, 2016-01-01. Demeter Press took on the challenge of discussing multiples through On Mothering Multiples: Complexities and Possibilities, a book that promised to re-explore, re-present, and make meaning of the process of conception, pregnancy, childbirth, and mothering experiences with multiples. Under the editorship of Kathy Mantas and through diverse contributions of research, artwork, and narrative pieces, this topic is explored with diverse voices that elicit nuance towards a subject that often suffers from cliché and overt charm. Daring to taunt the reader who may be beguiled by the blessing of multiples with an unflinching look at subjects such as fetal demise, disability, post-partum depression, the beauty and the beast of the post-twin maternal body, and the society's obsession and derision with multiples conceived through assistive reproductive technology, this book is a foundational text on the topic of the messiness of multiple births and mothering. This collection manages to be both intensely personal while maintaining the scholarly distance necessary to offer an important contribution to the field of motherhood studies, as well as intersecting with grief work and disability studies. Published in 2016.
