**There's a Storm Coming: the Journey to Rescue and Save My Father** Kathryn Huddleston,2010-10-18 In narrative form this book chronicles the five year journey the author took with her father afflicted with Alzheimers to restore his dignity and help him reach his physical mental and spiritual potential It presents the many obstacles including the presence of evil

forces and other family members mental disorders which had to be overcome to accomplish this. The book illustrates how the common denominator of faith in God and a belief in His supreme will enabled communication with her father with whom she previously had only limited interaction. She came to discover the importance of entering her father's world of confirming his reality and to recognize though parts of the brain may be tangled and even gone the response to spirit and tone actually remains. Her father's sensory awareness and understanding increased and she challenges some previous stereotypes held about patients with this disease. Pragmatically the author gives the caregiver suggestions on how to ensure the patient's sense of accomplishment and purpose and maps out daily activity processes. The book illustrates how previous experiences enabled them to survive their storm as the author relentlessly struggled to keep her father from being institutionalized so he could remain a participant in this world. Occasionally in a man's life there is a book or manuscript that comes his way that is so far out of the norm and so deep beyond expectation that it requires thought, prayer, and time to assimilate the information through meditation. There's a Storm Coming: Kathryn Huddleston's book on the subject of her father's experience with Alzheimer's disease and her passion to help him be the very best he could be physically, mentally, and spiritually is incredible. The journey with glimpses into the family life through the eyes of a person with medical insight and ultimately through a spiritual lens allows us to take a peek behind the veil of one of the most difficult and tough situations facing many Americans today. This book is an incredible read for those who care about the condition of their fellow human beings. Maury Davis, Senior Pastor, Cornerstone Church, Nashville, TN; Maury Davis Ministries. God brings hope to us in stormy times. Through these dark years, compassion and care for loved ones is always first. This could not be more true than in this book. Michelle Stein, Executive Director, Alzheimers Solutions Project Center for Health Transformation, Washington, D.C. The author captures the reader's attention by recounting in narrative form how she attempted to overcome the many challenges and trials in her stormy family in order to lessen her father's turbulence and bring him peace in the last phase of his life. In an unassuming, authentic way, the author illustrates how she ensured her father remained a valued participant in the world. Giving caregivers concrete ideas on how she helped her father make decisions, ensured up close and personal interaction with others, and recognized the importance of tone, spirit, and listening, the book should give them a sense of hope. E. L. Shoenfelt, Ph.D., Professor of Psychology, Western Kentucky University. Performance Psychologist Kathryn Huddleston believes that while in the midst of other life storms, God gave her the gift to care for her father. Here she shares that journey in a very personal, detailed, and honest fashion. Not only is this a wonderful handbook for the Alzheimer's caregiver, Kathryn's story affirms my experience of God's daily walk with those who appear to be absent. While we may see our loved ones as fading away in reality, they may be living the old gospel hymn, Just a Closer Walk with Thee. This book gives the caregiver or any reader great spiritual hope. Chaplain R. Gene Lovelace, Alive Hospice, Nashville, TN.

National Audit Office,2008 The 330 million New Dimension programme has enhanced the 46 English Fire and Rescue Services capacity to respond to terrorist attacks and other catastrophic incidents such as major flooding But better value for money could have been secured in the procurement of the specialist vehicles and equipment The programme was introduced following the terrorist attacks of September 11 2001 It involved procuring specialist vehicles and equipment training 10 000 fire fighters and helping to prepare Fire and Rescue Services to tackle terrorist and other major incidents The equipment has already been used successfully at three major incidents to date the Buncefield fire the 2007 summer floods and at the Warwickshire warehouse collapse in November 2007 Funding uncertainty and poor programme project and financial management in the early days of the project resulted in delays in introducing the equipment and significant cost overruns A fraud of 867 200 within the programme remained undetected for 9 months and in procuring one vehicle type for example poor contracting and record keeping resulted in a delay of a year and unnecessary costs of between 3 and 8 million Improvements in programme and financial management have since been made But more still needs to be done to address weaknesses which might hamper future incident response In particular the department need to address uncertainties over the respective roles of national co ordinating bodies and develop a strategy for national and regional multi agency practice exercises
