Research Methods For Nurses And The Caring Professions:

Research Methods For Nurses And The Caring Professions 2/E Abbott, Pamela, Sapsford, Roger, 1998-05-01 Praise for the first edition of *Research into Practice* and *Research Methods for Nurses and the Caring Professions* These books provide a good introduction for the uninitiated to reading and doing research Abbott and Sapsford provide a clearly written and accessible introduction to social research One of their aims is to demystify research and in this they succeed admirably After reading the text and the articles in the reader and working through the various research exercises readers should have a clear appreciation of how to evaluate other people's research and how to begin their own *David Field Journal of Palliative Medicine* This book now substantially revised in its second edition is about the appreciation evaluation and conduct of social research Aimed at nurses social workers community workers and others in the caring professions the book is particularly focused on research which evaluates and contributes to professional practice The authors have provided many short practical exercises in the text and the examples are drawn mostly from projects carried out by one or two people rather than large research teams The clear accessible style will make this the ideal introductory text for those undertaking or studying research for the first time The book may be used in conjunction with *Research into Practice* Open University Press a reader of useful examples selected by the same authors

Research Methods For Nurses And The Caring Professions Pamela Abbott, Roger Sapsford, 1998-05-16 Praise for the first edition of *Research into Practice* and *Research Methods for Nurses and the Caring Professions* These books provide a good introduction for the uninitiated to reading and doing research Abbott and Sapsford provide a clearly written and accessible introduction to social research One of their aims is to demystify research and in this they succeed admirably After reading the text and the articles in the reader and working through the various research exercises readers should have a clear appreciation of how to evaluate other people's research and how to begin their own *David Field Journal of Palliative Medicine* This book now substantially revised in its second edition is about the appreciation evaluation and conduct of social research Aimed at nurses social workers community workers and others in the caring professions the book is particularly focused on research which evaluates and contributes to professional practice The authors have provided many short practical exercises in the text and the examples are drawn mostly from projects carried out by one or two people rather than large research teams The clear accessible style will make this the ideal introductory text for those undertaking or studying research for the first time The book may be used in conjunction with *Research into Practice* Open University Press a reader of useful examples selected by the same authors

Research Methods for Nurses and the Caring Professions Roger Sapsford, Pamela Abbott, 1992 This text aimed at nurses social workers community workers and others in the caring professions is about the appreciation evaluation and conduct of social research It concentrates on relatively small scale studies which can be carried out by one or two people

Theory and Practice of Nursing Lynn Basford, Oliver Slevin, 2003 This is a comprehensive guide to the theory and practice of nursing addressing the nursing theory

and skills specific to clients and patients needs Each chapter has learning outcomes study activities and reflection to prompt readers to learn as they read

EBOOK: Research Into Practice 2/E Pamela Abbott,Roger Sapsford,1997-03-16 Praise for the first edition of Research Into Practice and Research Methods for Nurses and the Caring Professions These books provide a good introduction for the uninitiated to reading and doing research Abbott and Sapsford provide a clearly written and accessible introduction to social research One of their aims is to de mystify research and in this they succeed admirably After reading the text and the articles in the reader and working through the various research exercises readers should have a clear appreciation of how to evaluate other people s research and how to begin their own

David Field Journal of Palliative Medicine This is a thoroughly revised and up dated edition of the bestselling reader for nurses and the caring professions It offers carefully selected examples of research all concerned in some way with nursing or the study of health and community care It illustrates the kind of research that can be done by a small team or a single researcher without large scale research grants The editors have chosen papers which show a great diversity of approaches differing in emphasis on description or explanation different degrees of structure in design and different appeals to the authority of science or the authenticity of emphatic exploration They show the limitations typical of small scale projects carried out with limited resources and the experience of applied research as it occurs in practice as opposed to how it tends to look when discussed in textbooks The chapters have been organized into three sections representing three distinct types of social science research observing and participating talking to people and asking questions and controlled trials and comparisons Each section is provided with an editorial introduction

Features Thoroughly revised and up dated edition of bestselling text New articles in line with latest trends in nursing and other practitioner research with more stress on evidence based practice action research and self evaluation New user friendly format Very well known authors in the field

Data Collection and Analysis Roger Sapsford,Victor Jupp,2006-03-29 In simple and non technical terms this text illustrates a wide range of techniques and approaches used in social research projects

The Evaluation Handbook for Health Professionals Anne Lazenbatt,2002-04-04 This handbook is designed to meet the needs of the growing number of health professionals who are engaged in processes of evaluation in a variety of contexts within the world of healthcare

Key Concepts in Social Research Geoff Payne,Judy Payne,2004-03-18 This clearly written and user friendly book is ideal for students or researchers who wish to get a basic but solid grasp of a topic and see how it fits with other topics By following the links a student can easily and efficiently build up a clear conceptual map of social research

Malcolm Williams Reader in Sociology Cardiff University This is a really useful book written in an accessible manner for students beginning their study of social research methods It is helpful both as an introductory text and as a reference guide for more advanced students Most of the key topics in methods and methodology are covered and it will be suitable as a recommended text on a wide variety of courses

Clive Seale Brunel University At last an authoritative crystal clear introduction to research methods which really takes account of

the needs of students for accessible focused information to help with undergraduate essays and exams The key concepts discussed here are based on a review of teaching syllabi and the authors experience of many years of teaching Topics range over qualitative and quantitative approaches and combine practical considerations with philosophical issues They include several new topics like internet and phone polling internet searches and visual methods Each section is free standing can be tackled in order but with links to other sections to enable students to cross reference and build up a wider understanding of central research methods To facilitate comprehension and aid study each section begins with a definition It is followed by a summary of key points with key words and guides to further reading and up to date examples The book is a major addition to undergraduate reading lists It is reliable allows for easy transference to essays and exams and easy to use and exceptionally clearly written for student consumption The book answers the needs of all those who find research methods daunting and for those who have dreamt of an ideal introduction to the subject **Writing Your Dissertation, 3rd Edition** Derek

Swetnam,Ruth Swetnam,2000-04-01 This book gives you the confidence tools and techniques to produce a first class dissertation It offers practical guidelines to planning realistic timetables and structuring every aspect of your work Find out how to avoid common mistakes and the best way to present your work and even how to assess your dissertation in the same way as a university or college tutor does **The Health Project Book** Dr Neil Wood,Neil Wood,2002-04-12 A practical

handbook already tried and tested on students Based on the considerable experience of the author s work in guiding and supervising students Material covers up to date research methods such as the Internet and CD ROM facilities Long term sales potential both UK and internationally **National Library of Medicine Current Catalog** National Library of

Medicine (U.S.),1992 **Nursing and Health Care Research** Collette Clifford,Stephen Gough,2014-01-21 First published in 1997 This volume is part of the Prentice Hall series a series of comprehensive textbooks and reference manuals for nurses and other health care professionals The development of a number of sections in the second edition of this book serves perhaps as an indication of the changes that have occurred in health care education and research over recent years The emphasis of this text as in the first edition is to trace the research process from the initial idea through to dissemination and implementation of findings as appropriate In so doing a number of sections have been enlarged and updated This includes a greater emphasis on some of the planning issues in research seen as particularly important given the increased opportunity available for practitioners to take part in funded research projects From this perspective increased emphasis has been given to acquiring funding for research and working with established systems of ethical approval **Current Catalog** National

Library of Medicine (U.S.),1992 First multi year cumulation covers six years 1965 70 **Action Research For Health And Social Care** Hart, Frederick,Bond, Meg,1995-05-01 What is action research and how can it best be understood How can practitioners use action research to deal with problems and improve services What are the different types of action research and which might be most appropriate for use in a particular setting This book has been designed for use as a core text on

research methods courses at undergraduate and postgraduate level and on professional training courses It is divided into three parts Part one traces the history of action research and shows the links between its use in education community development management research and nursing Building on this background the book explores different ways in which action research has been defined and proposes four different types each appropriate to a different problem situation and context In part two five case studies of action research are described from the perspective of the researcher including case studies of success and instructive failure Part three is designed to enable the reader to find a route through the maze of methods and approaches in action research by the use of such things as self assessment and mapping exercises a guide to diary keeping and to evaluation The final chapter suggests that by developing a project perspective action research can be of practical benefit to health and social care professionals in promoting service improvements Health Promotion for Nurses Stewart Piper,2009-05-07 Health promotion is an increasingly high profile aspect of a nurse s role This textbook explores how and why health promotion works in nursing developing a new framework for understanding the nurse s role and promoting evidence based practice Researching Mobile Learning Giasemi Vavoula,Agnes Kukulska-Hulme,2009 This title sets out the issues and requirements for mobile learning research and presents recent efforts to specify appropriate theoretical frameworks research methods and tools Leading researchers in the field present their experiences and approaches to key aspects of mobile learning research such as data capture and analysis **Community Health Care Nursing** David Sines,Mary Saunders,Janice Forbes-Burford,2013-05-07 Review of previous edition An extremely popular and valuable resource to students practitioners and managers in community health care nursing Journal of Advanced Nursing Community Health Care Nursing has become established as an essential source of reference for all those working in the primary care and community health care domain The Fourth Edition of this successful text focuses on new emergent agendas which affect primary care and public health education and service delivery improvement Comprehensive and accessible this well established text draws on a wide range of subject experts all aiming for excellence in service delivery to produce a resource that addresses the key aspects of community health delivery reflecting the reality of the new community primary care agenda in the United Kingdom Integrated throughout the book are themes relevant to contemporary community healthcare nursing including Self Managed Care Managed Care Pathways Long Term Conditions Palliative care and End of Life Care Urgent and Unscheduled Care Offender Care and Continuing Intermediate Care The result is a book which focuses on new opportunities for contemporary practice service delivery improvement and education response within the context of the modernised primary and public healthcare service Key features New edition of a well established and successful text Written by experts in the field Examines competencies in practice Includes evidence based guidelines and integrates national service framework requirements Includes new chapters on Advanced Nursing Practice and competence assessment modernised primary healthcare workforce and workforce change Commissioning and user and public engagement **Social**

Research Methods Clive Seale, 2004 Bringing together many of the core classic and contemporary works in social and cultural research methods this book gives students direct access to methodological debates and examples of practical research across the qualitative quantitative divide The book is designed to be used both as a collection of readings and as an introductory research methods book in its own right Topics covered include research methodology research design data collection and preparation analyzing data mixing qualitative and quantitative methods validity and reliability methodological critique postmodernism post structuralism and critical ethnography political and ethical aspects of research philosophy of social science reporting research Each section is preceded by a short introduction placing the readings in context This reader text also includes features such as discussion questions and practical exercises *Evaluating Research in Health and Social Care* Roger Gomm, Gill Needham, Anne Bullman, 2000-11-13 Explains and critically evaluates a range of research techniques for the caring professions **Thinking Nursing** Mason, Tom, Mason-Whitehead, Elizabeth, 2003-12-01 Thinking Nursing This major new textbook provides a unique one stop resource that introduces nursing students to the disciplines that underpin nursing practice The broad range of subjects covered includes Sociology Psychology Anthropology Public Health Philosophy Economics Politics and Science Written by nursing lecturers with nursing students in mind this book enables nurses to grasp the principles behind these disciplines and apply the concepts to everyday health care practices Each chapter offers The theoretical background of the major tenets of each discipline A comprehensive discussion of how they relate to practice Cross references to other relevant chapter sections Suggestions for further reading A glossary of key terms Practical advice is also available in a chapter dedicated to methods of research planning and construction of written work Moreover the textbook encourages creative and lateral thinking beyond its use in planning and writing assignments Thinking Nursing is essential reading for nursing students on Common Foundation Programmes both at diploma and degree level and qualified nurses undertaking additional specialist training including masters degrees as well as those involved in planning designing and the implementation of educational courses for nurses
