Research In Law Policy Studies Volume 4 1:

Reconstructing Law and Justice in a Postcolony Nonso Okafo, 2016-04-08 Drawing on data from a cross section of postcolonial nations across the world and on a detailed case study of Nigeria this book examines the experience of recreating law and justice in postcolonial societies The author s definition of postcolonial societies includes countries that have emerged from external colonial rule such as Nigeria and India as well as societies that have overcome internal dominations such as Afghanistan and Iraq Suggesting that restructuring a system of law and justice must involve a consideration of the traditions customs and native laws of a society as well as the official often foreign rules this volume examines how ethnically complex nations resolve disputes whether criminal or civil through a combination of formal and informal social control systems This book is unique in its concern with how the average citizens of a postcolonial society can play more active parts in their nation s law and justice and how modern and increasingly urban societies can learn from indigenous peoples and institutions which are more informal in their approaches to problem solving The concluding chapter looks at the possibility of an increased role for civil as opposed to criminal response in the social control system of a postcolonial society

The Protection of Traditional Knowledge on Genetic Resources Frantzeska Papadopoulou, 2018-04-27 Traditional knowledge

protection methods are becoming increasingly out dated in the face of modern challenges Focusing on the protection of traditional knowledge and related genetic resources this book is the first of its kind to amalgamate a novel theoretical framework with the practical applications of the combined theories of Rawls and Coase **Prisoners of the Past** Steven Friedman,2021-06-01 Building on the work of economic historian Douglass North and Ugandan political scholar Mahmood Mamdani Friedman argues that the difficulties besetting South African democracy are legacies of the past not products of the post 1994 era South Africa s democracy is often seen as a story of bright beginnings gone astray a pattern said to be common to Africa The negotiated settlement of 1994 it is claimed ended racial domination and created the foundation for a prosperous democracy but greedy politicians betrayed the promise of a new society In Prisoners of the Past Steven Friedman astutely argues that this misreads the nature of contemporary South Africa Building on the work of the economic historian Douglass North and the political thinker Mahmood Mamdani Friedman shows that South African democracy s difficulties are legacies of the pre 1994 past The settlement which ushered in majority rule left intact core features of the apartheid economy and society The economy continues to exclude millions from its benefits while racial hierarchies have proved stubborn apartheid is discredited but the values of the pre 1948 colonial era the period of British colonization still dominate Thus South Africa s democracy supports free elections civil liberties and the rule of law but also continues past patterns of exclusion and domination Friedman reasons that this path dependence is not as is often claimed the result of constitutional compromises in 1994 that left domination untouched This bargain was flawed because it brought not too much compromise but too little Compromises extended political citizenship to all but there were no similar bargains on economic and cultural change Using the work of the radical sociologist Harold Wolpe Friedman shows that only negotiations on a new economy and society can free South Africans from the prison of the past *Energy Research Abstracts* ,1979 Hate Crime Neil Chakraborti,Jon Garland,2015-03-18 Hate crime is a particularly pernicious form of criminal behaviour that has significant impacts upon victims their families and wider communities In this substantially revised and updated edition the book examines the nature extent and harms of hate crime and the effectiveness of criminal justice responses to it It covers racist religiously motivated homophobic disablist and transphobic hate crime as well as other forms of targeted victimisation such as gendered hostility elder abuse attacks upon alternative subcultures and violence against sex workers and the homeless The book also assesses the complexities and controversies surrounding hate crime legislation and policy making as well as the continuing challenges associated with the policing of hate The second edition features expanded discussions of international perspectives and contemporary topics such as online hate and cyberbullying as well as numerous case studies covering issues such as lone wolf extremists Islamophobia asylum seekers and the far right The book contains a range of links to online material that accompany the extensive lists of further reading in each chapter *Resources in Education* ,1986 *The Impact, Legitimacy and Effectiveness of EU Counter-Terrorism* Fiona de Londras,Josephine Doody,2015-04-10

book examines the existing constitutional and legal system in England Wales and Scotland through the prism of its treatment of religion and belief The study encompasses questions of Church state relations but pushes far beyond these It asks whether the approach to religion which has spread out from establishment to permeate the whole legal framework is a cause of concern or celebration in relation to individual and collective freedoms The primary focus of the work is the synergy between the religious dimension of the juridical system and the fundamental pillars of the Constitution parliamentary sovereignty the rule of law separation of powers and human rights Javier Garc a Oliva and Helen Hall challenge the view that separation between public and religious authorities is the most conducive means of nurturing a free and democratic society in modern Britain The authors explore whether counter intuitively for some the religious dynamic to the legal system actually operates to safeguard liberties and has a role in generating an inclusive and adaptable backdrop for our collective life They suggest that the present paradigm brings benefits for citizens of all shades of religious belief and opinion including Atheist and Humanist perspectives as well as secondary advantages for those with profound beliefs on non religious matters such as pacifism and veganism In support of their contentions Garc a Oliva and Hall examine how the religious dimension of the legal framework operates to further essential constitutional principles in diverse settings ranging from criminal to family law In a groundbreaking move the authors also set the legal discussion alongside its social and cultural context They consider how the theological perspectives of the larger faith traditions might influence members ideas around the key constitutional precepts and they include extracts from interviews which give the personal perspective of more than 100 individuals on contemporary issues of law and religious freedom These voices are drawn from a range of fields and positions on faith While the authors are at pains to stress that these sections do not support or advance their legal or theological conclusions they do provide readers with a human backdrop to the discussion and demonstrate its crucial importance in twenty first century Britain *Asylum, migration and community* Maggie O'Neill,Amin Sharifi Isaloo,Egle Gusciute,2015-07-01 Issues of asylum

migration humanitarian protection and integration belonging are of growing interest beyond the disciplines of refugee studies migration and social policy Rooted in more than two decades of scholarship this book uses critical social theory and the participatory biographical and arts based methods used with asylum seekers refugees and emerging communities to explore the dynamics of the asylum migration community nexus It argues that interdisciplinary analysis is required to deal with the complexity of the issues involved and offers understanding as praxis purposeful knowledge drawing on innovative research that is participatory arts based performative and policy relevant Evidence and Evaluation in Social Policy Ian Greener,Bent Greve,2013-12-10

Masseti,2022-11-24 This book examines the seismic impact of Brexit on the British political system assessing its likely long term effect in terms of a significantly changed political and constitutional landscape Starting with the 2015 general election and covering key developments up to Brexit Day it shows how Brexit transformed British politics The unprecedented turmoil two snap elections three Prime Ministers the biggest ever defeat for the Government in Parliament an impressive number of rebellions and reshuffles in Cabinet and repeated requests for a second independence referendum in Scotland as a result of leaving the EU calls into question what sort of political system the post Brexit UK will become Taking Lijphart s Westminster model as its reference the book assesses the impact of Brexit along three dimensions elections and parties executive legislative relationships and the relationship between central and devolved administrations Based on a wealth of empirical material including original interviews with key policymakers and civil servants it focuses on the big picture and analytically maps the direction of travel for the UK political system This book will be of key interest to scholars and students of Brexit British politics constitutional political and contemporary history elections and political parties executive politics and territorial politics as well as more broadly related practitioners and journalists Chapters one and two of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license Funded by the University of Trento and the Sant Anna School of Advanced Studies Transitional Justice and Peacebuilding on the Ground Chandra Lekha Sriram,2013 This book seeks to refine our understanding of transitional justice and peacebuilding and long term security and reintegration challenges after

violent conflicts As recent events following political change during the so called Arab Spring demonstrate demands for accountability often follow or attend conflict and political transition While traditionally much literature and many practitioners highlighted tensions between peacebuilding and justice recent research and practice demonstrates a turn away from the supposed peace vs justice dilemma This volume examines the complex relationship between peacebuilding and transitional justice through the lenses of the increased emphasis on victim centred approaches to justice and the widespread practices of disarmament demobilization and reintegration DDR of excombatants While recent volumes have sought to address either DDR or victim centred approaches to justice none has sought to make connections between the two much less to place them in the larger context of the increasing linkages between transitional justice and peacebuilding This book will be of great interest to students of transitional justice peacebuilding human rights war and conflict studies security studies and IR

Social Media and Digital Politics James Jaehoon Lee, Jeffrey Layne Blevins, 2024-08-29 Informed by critical theory this book employs Social Network Analysis SNA to examine the ever increasing impact that social media has on politics and contemporary civic discourse In just the past decade social media platforms have been at the forefront of political discord that played out in the January 6th insurrection the expulsion of a US President from major social media platforms the attempted regulation of social media in various states and the takeover of Twitter now X by one of the richest and arguably most financially influential persons in the world This book examines these phenomena through a comprehensive and in depth exploration of their meaning and implication for democratic society Informed by SNA James Jaehoon Lee and Jeffrey Layne Blevins examine several types of social and political commentary on one of the most influential social media networks and argue that the use of emotional appeals in these posts about social and political topics degrades the quality of civic discourse and encourages the abandonment of reasoning in democratic self governance A timely and vital text for upper level students and scholars in a variety of disciplines from media and communication studies journalism and digital humanities to social network analysis political science and sociology The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
