important to the shaping of Western civilization as Greek rationalism or Judeo Christianity The occult seeks explanations in a world that is living and intelligent quite unlike the one supposed by science By taking these beliefs seriously while keeping an eye on science this book aims to capture some of the power of the occult Readers will discover that the occult has a long history that reaches back to Babylonia and ancient Egypt It proceeds alongside and frequently mingles with religion and science From the Egyptian Book of the Dead to New Age beliefs from Plato to Adolf Hitler occult ways of knowing have been used and hideously abused to explain a world that still tempts us with the knowledge of its dark secrets [Secret Life of the](#)
