Track Two Diplomacy Between India and Pakistan Samir Ahmad, 2023-11-23 Track Two Diplomacy between India and Pakistan studies the nature and context of providing an alternative platform for conflict resolution between the two countries. Considered one of the most intractable conflicts in the world the India Pakistan conflict has been defined by casualties religious extremism and the looming threat of war. With the conflict playing out against the backdrop of many nationalisms official Track One diplomacy remains insufficient. The author analyses the role of Track Two diplomacy when official diplomacy remains confined and sensitive to their respective official positions as well as the contribution of maintaining various communication lines intact when official channels are suspended and inaccessible. In this context this book explores citizen led diplomatic efforts probing the economic and ideological forms of power that influence this mode of diplomacy outside governmental channels. The book is a general evaluation of the Track Two process in terms of its achievements challenges and failures vis vis India and Pakistan. An original contribution towards the development of a

conceptual understanding of Track Two diplomacy this book will be of interest to researchers studying International Relations Foreign Politics South Asian Politics with particular emphasis on India Pakistan relations **Routledge**

Quest for Global Dominance Maj Gen P JS Sandhu,2011-10-11 Today the whole world is watching China with great interest and that includes India China has been termed a threat a challenge an opportunity a concern a competitor the next superpower a global player and many more things It depends who is looking at it and from where In 2009 United Service Institution USI of India decided to commence a five years study programme on China Towards that end we held the National Security Seminar 2009 titled Rising China Opportunity or Strategic Challenge on 25 26 November 2009 Its proceedings have been published in the form of a book This seminar on Chinas Quest for Global Dominance Reality or Myth is a continuation of the above study It focused on China s grand strategy economic future military capability and PLA s modernisation and an assessment of China s strategic posture **Historical Dictionary of the Arab-Israeli Conflict** P R

Kumaraswamy,2015-10-08 Competing Jewish and Arab national claims over the Holy Land form the core of the Arab Israeli conflict thereby transforming it into the most intensely fought struggles in the history of humanity The conflict evokes unparalleled passion and hostility not only among its immediate participants and neighbors but also in the wider international community The involvement of three principal monotheistic religions makes the conflict a truly universal contestation As a result it often contributes to bouts of violence turmoil and terrorism in the Middle East and beyond This second edition of Historical Dictionary of the Arab Israeli Conflict covers the history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 600 cross referenced entries important events key personalities official positions of principal states and the UN and other efforts to find a peaceful settlement This book is an excellent access point for students researchers and anyone wanting to know more about this conflict **India's Nuclear Debate** Priyanjali Malik,2014-03-21 Making the right wing Bharatiya Janata Party s nuclear tests in 1998 its starting point this book examines how opinion amongst India s attentive public shifted from supporting nuclear abstinence to accepting and even feeling a need for a more assertive policy by examining the complexities of the debate in India on nuclear policy in the 1990s The study seeks to account for the shift in opinion by looking at the parallel processes of how nuclear policy became an important part of the public discourse in India and what it came to symbolise for the country s intelligentsia during this decade It argues that the pressure on New Delhi in the early 1990s to fall in line with the non proliferation regime

magnified by India's declining global influence at the time caused the issue to cease being one of defence making it a focus of nationalist pride instead. The country's nuclear programme thus emerged as a test of its ability to withstand external compulsions guaranteeing not so much the sanctity of its borders as a certain political idea of it that of a modern scientific and most importantly sovereign state able to defend its policies and set its goals

The Making of Indian Diplomacy

Deep K. Datta-Ray, 2015-05-21 Diplomacy is conventionally understood as an authentic European invention which was internationalised during colonialism. For Indians the moment of colonial liberation was a false dawn because the colonised had internalised a European logic and performed European practices. Implicit in such a reading is the enduring centrality of Europe to understanding Indian diplomacy. This Eurocentric discourse renders two possibilities impossible: that diplomacy may have Indian origins and that they offer untheorised potentialities. Abandoning this Eurocentric model of diplomacy, Deep Datta-Ray recognises the legitimacy of independent Indian diplomacy and brings new practices. He creates a conceptual space for Indian diplomacy to exist, forefronting civilisational analysis and its focus on continuities but refraining from devaluing transformational change.

The Book Review, 2005

Arming without Aiming Stephen P. Cohen, Sunil

Dasgupta, 2013-01-14 India has long been motivated to modernize its military and it now has the resources. But so far the drive to rebuild has lacked a critical component: strategic military planning. India's approach of arming without strategic purpose remains viable, however, as it seeks great power accommodation of its rise and does not want to appear threatening. What should we anticipate from this effort in the future and what are the likely ramifications? Stephen Cohen and Sunil Dasgupta answer those crucial questions in a book so timely that it reached number two on the nonfiction bestseller list in India. Two years after the publication of *Arming without Aiming*, our view is that India's strategic restraint and its consequent institutional arrangement remain in place. We do not want to predict that India's military strategic restraint will last forever, but we do expect that the deeper problems in Indian defense policy will continue to slow down military modernization.
