#### **Reforming Intelligence**

Thomas C. Bruneau, Steven C. Boraz, 2009-04-20 These days it's rare to pick up a newspaper and not see a story related to intelligence From the investigations of the 9/11 commission to accusations of illegal wiretapping to debates on whether it's acceptable to torture prisoners for information intelligence both accurate and not is driving domestic and foreign policy And yet in part because of its inherently secretive nature intelligence has received very little scholarly study Into this void comes *Reforming Intelligence* a timely collection of case studies written by intelligence experts and sponsored by the Center for Civil Military Relations CCMR at the Naval Postgraduate School that collectively outline the best practices for intelligence services in the United States and other democratic states *Reforming Intelligence* suggests that intelligence is best conceptualized as a subfield of civil military relations and is best compared through institutions The authors examine intelligence practices in the United States United Kingdom and France as well as such developing democracies as Brazil Taiwan Argentina and Russia While there is much more data related to established democracies there are lessons to be learned from states that have created or re-created intelligence institutions in the contemporary political climate In the end reading about the successes of Brazil and Taiwan the failures of Argentina and Russia and the ongoing reforms in the United States yields a handful of hard truths In the murky world of intelligence that's an unqualified achievement

#### **Women's Life Writing in Post-Communist Romania**

Simona Mitroiu, 2022-11-07 This book analyzes the impact of abusive regimes of power on women's lives and on their self-expression through close readings of life writing by women in communist Romania In particular it examines the

forms of agency and privacy available to women under totalitarianism and the modes of relationships in which their lives were embedded The self expression and self reflexive processes that are to be found in the body of Romanian women s autobiographical writings this study presents create complex private narratives that underpin the creative development of inclusive memories of the past through shared responsibility and shared agency At the same time however the way these private personal narratives intertwined with collective and official historical narratives exemplifies the multidimensional nature of privacy as well as the radical redefinition of agency in this period This book argues for a broader understanding of the narratives of the communist past one that reflects the complexity of individual and social interactions and allows a deep exploration of the interconnected relations between memory trauma nostalgia agency and privacy [Patriots for Profit](#) Thomas Bruneau,2011-07-18 This book develops a new approach to the analysis of civil military relations by focusing on the effectiveness of the armed forces in fulfilling roles missions and on their efficiency in terms of cost The approach is applied to the United States using official documents and interviews with policy makers In addition to analyzing the impact of defense reform initiatives over the past thirty years the book includes the recent phenomenon of contracting out security that has resulted in greater numbers of contractors in Iraq and Afghanistan than uniformed military personnel While the book demonstrates that democratic civilian control of the military in the U S is not at issue it reveals that there is little public control over Private Security Contractors due to a combination of the current restricted interpretation of what is an inherently governmental function and limited legal authority This is despite the fact that PSCs have taken on roles and missions that were previously the responsibility of the uniformed military Further despite numerous efforts to redress the problem current political and institutional barriers to reform are not likely to be overcome soon **The New Right in the New Europe** Seán Hanley,2007-08-07 This book considers the emergence of centre right parties in Eastern Europe following the fall of communism focusing primarily on the case of the Czech Republic Although the country with the strongest social democratic traditions in Eastern Europe the Czech Republic also produced the region s strongest and most durable party of the free market right in V clav Klaus Civic Democratic Party ODS Se n Hanley considers the different varieties of right wing politics that emerged in post communist Europe exploring in particular detail the origins of the Czech neo liberal right tracing its genesis to the reactions of dissidents and technocrats to the collapse of 1960s reform communism He argues that rather than being shaped by distant historical legacies the emergence of centre right parties can best be understood by examining the responses of counter elites outside or marginal to the former communist party state establishment to the collapse of communism and the imperatives of market reform and decommunization This volume goes on to consider the emergence of right wing forces in the disintegrating Civic Forum movement in 1990 the foundation of the ODS the right s period in office under Klaus in 1992 97 and its subsequent divisions and decline It concludes by analyzing the ideology of the Czech Right and its growing euroscepticism
