The Water, Energy, and Food Security Nexus in Asia and the Pacific Andrew Dansie, Heidi K. Alleway, Benno Böer, 2024-04-15 This open access book considers the water energy food WEF nexus in the Pacific region The region comprises seventeen sovereign countries and seven territories spread across the Pacific Ocean a blue expanse that covers a fifth of the world s surface area but contains only 0.5% of the population or 44.5 million people The uniqueness of the Pacific and the need for a Pasifika led approach to sustainability across environmental societal and economical spheres requires this blue continent to be considered in a separate volume under the Water Security in a New World series This Pacific volume is focussed on water energy and food security in Pacific Island Countries and Territories PICTs and the challenges produced by the impacts of anthropogenic climate change and human population pressures The diversity of culture traditional knowledge and ways of life across the Pacific are united by similar geographies and opportunities to apply a Pacific specific WEF nexus approach a coordinated approach to manage water energy and food that is centred on active decision making across the three sectors to increase the security of each Importantly a WEF nexus approach builds on national and international efforts to date in the Pacific which include Integrated Water Resource Management Ridge to Reef Source to Sea UNESCO Biosphere Reserves Integrated Coastal Zone Management and other similar approaches In this book contributions by authors from governments regional bodies multilateral agencies and academia describe water security and its intersectionality with both the energy and food sectors highlighting the significance of both land and marine food systems and connectivity between water and energy in a Pacific focussed context It is demonstrated that these systems cannot be separated from the challenges associated with healthy environments and functioning ecological services transport and waste that are unique to this vast archipelagic region To achieve meaningful change it is essential that solutions are cognizant of the world s colonial past and the global inequalities that persist today The path forward for water and food systems is one that is Pasifika led and builds on traditional knowledge and local capacity National energy demands must consider the future with solutions comprising both WEF integrated approaches and new energy technologies to hasten the transition away from fossil fuels Globally major greenhouse gas emitters both past and present need to step up for the environmental and economic benefit of all by rapidly reducing greenhouse gas emissions and

supporting Pasifika leadership on highly ambitious net zero goals This book is a highly recommended source of information and inspiration for policy makers decision makers research communities and practitioners dealing with any aspect of water energy or food security in the Pacific
